Bee, Oct. 9, 1901.

More New Black Dress Silks. Black Crepe de Chene. Is the most beautiful of soft black stuffs, and with the new satin finish is beyond description—so melow and rich, yet so silky—never more popular than now. \$1.00 to \$3.00 a yard.

Black Beau de Soie Dress Silks. There's nothing so well worth owning for both service and dress as a handsome black silk gown of the most reliable silk fabric. No musing, sheds dust like a piece of linen—special value at \$1.00 a yard. Other fine qualities from \$1.25 to \$3.50 a yard.

Black Taffeta Silk. More coming every day—a most luxurious fabric at this price—quality and style are faultless, beautiful silk luster, good weight, nicely finished. 27-inch wide—special value, \$1.00 a yard.

We Close Saturdays at 6 P. M.

THOMPSON, BELDEN & Co.

Y. W. C. A. BUILDING, COR. 16TH AND DOUGLAS STS.

In view of that statement that the shore batteries did not amount to anything? "You asked my opinion," the witness replied, "and I have given it to you."

Distance from Spanish Ships. At the request of Mr. Rayner, witness made measurements from his chart to show the distance Brooklyn was from the Spanish ships during the fight off Santiago.

The distance of Oquendo from Brooklyn, taken from the chart just before the turn, is 4,600 yards; Maria Teresa, 3,700 yards. Taken from the chart when Maria Teresa and Oquendo were about to run ashore, which is practically the nearest point, Oquendo was 2,800 yards from Brooklyn and the Maria Teresa 3,900 yards.

Quoting Lieutenant Commander Hodgson's statement that the shortest range of Brooklyn's guns in the battle was 1,400 yards, and its greatest 2,500 yards, and referring to the fact that a number of Brooklyn's shells were fired at the Spanish ships, Mr. Rayner asked a number of questions for the purpose of showing that if the distance was as great as the chart shows and the guns were set for the range given, it would have been impossible for the shots to go to the mark.

"It is certain," he asked, "if the shots struck that the chart is incorrect?" The witness replied that Maria Teresa and Oquendo could have been hit with five-inch guns.

The judge advocate asked: "How far would have Brooklyn from the leading Spanish ships at the beginning of the battle?" "I don't know," he replied, "but it was at least 1,000 yards."

"At the time mentioned there were only two occasions when the smoke permitted me to see Brooklyn distinctly. I could not, therefore, say what was the distance between the enemy and Brooklyn just after the Spanish fleet came out of the harbor."

Potts Quotes Schley's Threat. Admiral Taylor was then excused and Lieutenant Commander Potts N. Potts, who was navigator of Massachusetts, was called. Commander Potts said that he had been on Massachusetts on May 31, the day of the bombardment of Colon, when Commodore Schley had used that vessel as his flagship.

Speaking of Commodore Schley's conversation on that occasion witness said: "When Commodore Schley came on board I heard him say: 'Higginson, I am going in with you and Iowa and not Colon with your big guns. I want to fire deliberately. Admiral Sampson will be here tomorrow morning and I wish to destroy Colon,' or words to that effect. After that there was a conversation between Commodore Schley and the commanding officer of the ship as to when we would go in and it was determined that we would follow the men to go to dinner and go in afterward, which we did. Later on, about 1 o'clock, I think, while on the port bridge, just abaft the pilot house, I was present at a conversation between Commodore Schley and Captain Higginson, in which the question of whether the ship was to be fought was under discussion. Commodore Schley asked Captain Higginson what position he intended to take. He replied: 'I think the conning tower.' Commodore Schley replied: 'Yes, I think that is wisest.'"

Too Dangerous. "Shortly after this Commodore Schley and his staff, the captain and myself went down to the conning tower on the forward turret. The turret was moving at a slight rate of speed. Engineer Harry Weigle, who had a foot out of or at least three other turrets were more or less injured. The turret was under the control of Engineer Weigle overlooking an order."

DOUBTERS Can be Changed by Knowledge. If there is any doubt about making brain power by the use of certain food, the doubter should make the following experiment: Helen Frances Huntington of Gainesville, Ga., says: "Just a word of commendation concerning Grape-Nuts. I have found it to be the most wholesome, nourishing and appetizing food that has ever come to my knowledge."

I am not a dyspeptic, but being constantly engaged in severe brain work I found that I did not thrive. My ordinary diet, even a moderate dinner dulled my brain so far as to be practically incapable of critical work. I tried meat-juce, peptonoids, the two meal system of light breakfast and no supper which brought on nervous depression, loss of sleep, and a general feeling of weakness. I then resorted to one and another of the various health-foods which all seemed alike tasteless and valueless as a brain food, until quite by chance, I had a dish of Grape-Nuts food served as a dessert. I liked it so well that I began to use it daily, for supper four teaspoonful in a saucer of hot milk, eaten before it dissolves to mushiness. This point should be remembered as, after the sweet nutty flavor of the food as in the case of certain fine-flavored fruits.

The result in my case was simply astonishing. I had no desire whatever for sweet meats, meat, or fat anything else, and my brain was as clear and active at night as on waking from a long, refreshing sleep.

The peculiar advantage about Grape-Nuts food is that it supplies the nutritive qualities of a varied diet without the bad results of heavy eating. I cheerfully recommend its use to all brain workers, if not as an exclusive diet, certainly for the last meal of the day. I always take it with me when traveling, which saves a deal of annoyance and discomfort."

"Apparently," said Higginson, "you had observed him on that occasion?" "Not as well as I did."

"Why was that?" "Because Captain Higginson was in the conning tower and I was outside."

"Did not Captain Higginson have any conversations with the commodore at that time?" "From time to time, yes."

"What do you mean by 'mental excitement'?" "I quoted conversations that I had. The first thing was the apparent anxiety of Commodore Schley about using the conning tower, secondly, his stating that at a distance of five to six miles men standing on the forward thirteen-inch turret were conspicuous objects."

"Did the commodore use the conning tower?" "I did not see the commodore go into the conning tower. To the best of my knowledge and belief he did not. He was outside the conning tower and between the conning tower and the heavy plate that protects the manhole in the conning tower. My preconceived idea of Commodore Schley previous to that occasion was not entirely different from the preconceived idea of the World correspondent, telegraphed from Sophia at 1:10 p. m. today: 'I have no news which I feel at liberty to disclose, but I may say that the negotiations, which are necessarily difficult, are proceeding to carry on as precedents hopefully.'"

"PHILIPPOPOIS, Oct. 9.—(New York World Cablegram—Special Telegram.)—The American missionary, Haskell, passed through here today for Samaco to assist in efforts to secure the release of Miss Stone. There is no reason to suppose any danger to Miss Stone now that the brigades are aware that the desire exists to pay a ransom which is large enough to enable them to insure their own security with the authorities."

WASHINGTON, Oct. 9.—(The time allowed by Miss Stone's captors expired yesterday, but she is still unhurt.) It is known now officially that her captors have granted a short extension of time—how much is not stated—and the officials feel that if the responses to the appeals of Miss Stone's friends do not cease or diminish there is yet considerable hope for getting the money in season to save her life. The danger in the situation lies in the abatement of popular interest, which was so generously manifested during the first few days following the issuance of the appeal.

She is Alive and Well. This afternoon a cablegram was received by the State department from Consul General Dickinson at Constantinople saying that Miss Stone had been located in the mountains on the Turkish frontier and that on Saturday last she was alive and well.

STANTINOPLE, Oct. 9.—A trustworthy report located Miss Stone's abductors on the summit of a mountain at Gultepe, on the Turk-Bulgarian frontier, near Dubutza. It is said that the kidnapping band numbers eighteen. Arrangements have been made to surround the mountain with Turkish and Bulgarian troops. It has been suggested that the abductors of Miss Stone are members of the old Macedonian committee, actuated by motives of jealousy, and that they are endeavoring to accomplish the downfall of the present committee. The Bulgarian government has promised to act vigorously.

NEW YORK, Oct. 9.—(Special Telegram.)—The Japanese statesman, looked with close interest upon a Christian marriage ceremony today.

Early today James J. Hill called upon the marquis and invited the distinguished visitor to be a guest at the Hill-Slade wedding today. Although the marquis has visited America five times, he had never visited the United States before. He had accepted the invitation and gave instructions to his secretary to deliver to the bride a magnificent present, the nature of which could not be ascertained, but which is believed to have been jewels from his native land of great value.

DEATH RECORD. Dr. H. P. Tuttle, an Iowan, traveling representative of a St. Louis newspaper in this country, died here today. He was well known in every southern state.

TACOMA, Wash., Oct. 9.—Dr. H. P. Tuttle, well known as the inventor of the explosive thorite, died at his home in this city today. He was born in Iowa, December 19, 1844, came to Tacoma in 1880 and practiced medicine up to about three years ago, when he abandoned his profession to further study the subject of explosives, in which he had become interested. Thorite, the explosive which Dr. Tuttle discovered, was the result of experiments which he undertook in Tacoma in 1880 and 1881, and he discovered gold in the Klondike, when mines were in need of some explosive that could be used in the frozen ground of that region. It proved to be a wonderful invention.

C. E. Maxwell, MORILE, Ala., Oct. 9.—C. E. Maxwell, traveling representative of a St. Louis newspaper in this country, died here today. He was well known in every southern state.

HOPEFUL FOR MISS STONE

Consul General Dickinson at Sophia Pushes Negotiations.

NO FURTHER DANGER IS APPREHENDED

Government Locates Kidnapped Missionary, Alive and Well, in Mountains on Turkish Frontier.

(Copyright, 1901, by Press Publishing Co.)

LONDON, Oct. 9.—(New York World Cablegram—Special Telegram.)—Consul General Dickinson, replying to an inquiry from the World correspondent, telegraphed from Sophia at 1:10 p. m. today: 'I have no news which I feel at liberty to disclose, but I may say that the negotiations, which are necessarily difficult, are proceeding to carry on as precedents hopefully.'"

"PHILIPPOPOIS, Oct. 9.—(New York World Cablegram—Special Telegram.)—The American missionary, Haskell, passed through here today for Samaco to assist in efforts to secure the release of Miss Stone. C. E. Maxwell, MORILE, Ala., Oct. 9.—C. E. Maxwell, traveling representative of a St. Louis newspaper in this country, died here today. He was well known in every southern state.

PHILADELPHIA, Oct. 9.—More weary pedestrians trooped out of the six days' walking match at Industrial ball today, leaving twenty-five men in the contest out of the starting line. The race was kept up a rapid gait and the tiring was a difficult time in getting any of the prize money.

All the contestants are beginning to show signs of the terrible strain, but most of them are physically in fair condition. Midnight score of the first twelve men: Carl Tracy, 28; Golden, 27; Cavanaugh, 26; Messier, 25; Dean, 24; Day, 23; Hart, 22.

CROKER'S NEW JOCKEY. NEW YORK, Oct. 9.—The World tomorrow will see a new jockey, who has engaged Jockey J. McGill to ride his horses in England for two seasons. The terms were agreed upon yesterday and McGill consented to go to England and begin riding early next spring. McGill is a native of New York and has been in the business of training horses in England, will ride in France next year.

PENSIONS FOR WESTERN VETERANS. This liberal offer in made to advertise the original and reliable Diamond Dye, and the simple following of directions. With Diamond Dye it is as easy as changing the color of an old one, by simply changing the color. They are the standard home dye, making beautiful and brilliant colors that will not fade.

WAR VETERANS REMEMBERED BY THE GENERAL GOVERNMENT. WASHINGTON, Oct. 9.—(Special.)—The following pensions have been granted: Issue of September 14: William McLane, Fairbury, 85; John Nelson, Battle Creek, 88; Samuel Wheeler, Omaha, 89.

OLIVER TYPEWRITER WINN MEDAL. BUFFALO, N. Y., Oct. 9.—(Special Telegram.)—The gold medal has been awarded to the Oliver typewriter of Chicago in connection with the Pan-American exposition.

INCREASE ATCHISON DIVIDEND. NEW YORK, Oct. 9.—The directors of the Atchison railroad have declared a semi-annual dividend of 2 per cent on the common stock, an increase of half of 1 per cent over the previous declaration.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

FINED FOR WORKING SUNDAY. Missouri Farmer's Neighbors Make Sacriligious Industry of Little Profit to Him.

MEXICO, Mo., Oct. 9.—Goodfrey Winzer, a farmer, was today found guilty on two different charges of working on Sunday. His neighbors were the witnesses against him. They appeared before the grand jury and had Winzer indicted on five counts—sawing logs, whitewashing trees, stacking oats and straw and rendering land. He is convicted on the first two counts and fined \$10 for each case.

PLANS ARE SENT CARNEGIE

Pittsburg School of Technology is Drawn on Power and Only Awaits His Approval.

PITTSBURG, Pa., Oct. 9.—In developing the proposition made by Andrew Carnegie at the exercises inaugurated yesterday by the trustees of Carnegie institute today adopted plans for the erection of one of the largest and most complete schools of technology in the world.

Mr. Carnegie's proposition was that he have the privilege of engineering and maintaining technology of the highest order in the city of Pittsburg, the city to provide the site. Since then the trustees of the Carnegie institution have had experts at work on the plans and scope of the proposed school. The plans and suggestions were then collected and embodied in a comprehensive report, which will be forwarded at once to Mr. Carnegie for his approval or amendment. The proposed school will be built at a cost of several million dollars by Mr. Carnegie and he will also be asked to give at least \$2,000,000 for maintenance. The city of Pittsburg will be asked to contribute sixty acres of ground for a site.

BULLETS IN BOTH BODIES. Deaths of Aged Couple of Princeton Point to Murder and Suicide.

DAVENPORT, Ia., Oct. 9.—(Special.)—The town of Princeton, twenty miles north of Davenport, is stirred over a double tragedy that came to light this morning. Mrs. Robert McKinley was found at her home, sitting in a chair at the supper table, her body leaning against a wall. A bullet hole in her body showed she had been killed. In an upstairs room her husband lay dead on a bed, his rifle lying nearby on the floor.

The coroner is investigating. One theory is that McKinley shot his wife, possibly in a fit of jealousy, and then killed himself. Both were over 70 years of age and well-to-do, although the husband had been dependent of late because he had to quit work as a blacksmith on account of advanced years. They leave six children, all married. Only one lives in Princeton.

KILLED IN A RUNAWAY. PORT DODGE, Ia., Oct. 9.—(Special Telegram.)—Thomas Dwyer was instantly killed last night in a runaway northwest of here. In company with his brother he was driving four horses to a heavy load of hay. While going down a steep hill the wagon broke and the horses ran away. The two men jumped for their lives. Thomas called to his brother for assistance. When the brother reached him Thomas staggered into his arms and expired.

KNOT-TYING IS NEW TO IT. Japanese Statesman Sees His First Christian Wedding at Home of Magnate Hill.

ST. PAUL, Minn., Oct. 9.—Marquis Ito, the Japanese statesman, looked with close interest upon a Christian marriage ceremony today.

Early today James J. Hill called upon the marquis and invited the distinguished visitor to be a guest at the Hill-Slade wedding today. Although the marquis has visited America five times, he had never visited the United States before. He had accepted the invitation and gave instructions to his secretary to deliver to the bride a magnificent present, the nature of which could not be ascertained, but which is believed to have been jewels from his native land of great value.

PRELIMINARIES TO LAYING CABLE. VICTORIA, B. C., Oct. 9.—James Wilson, superintendent of the Canadian telegraph system; Mr. Lockwood, who has charge of the work of laying the cable, and the Pacific cable, and two engineers have started for Bamfield creek, on the west coast of Vancouver island, 104 miles from Victoria, to make arrangements for the site for the landing place of the Pacific cable.

LIQUIDATE JEANIST ESTATES. PARIS, Oct. 9.—A decree of the fifth chamber of the civil tribunal, issued today, provides that the estates of the Jesuits and Assumptionists shall be liquidated, as they have not complied with the association's law.

PROCLAIM THE NEW AMER. SIMLA, Oct. 9.—Habib Ullah Khan has been officially proclaimed ameer and the accession has been accepted by his brothers and the sirdars. All is quiet at Cabul.

TRAINING SHIP AT KIEL. BERLIN, Oct. 9.—The United States training ship Buffalo, Commander C. W. Hutchins, has arrived at Kiel from Cronstadt.

NATIONAL PURITY CONGRESS. Social Reformers Discuss Evils and Methods of Eradicating Them.

CHICAGO, Oct. 9.—Methods for shaming social evils and placing the human race on a higher level of purity were discussed in hopeful tones by speakers at today's session of the National Purity congress.

Charles L. Pymate of Crawfordville, Ill., spoke for "Practical Factors in the Problem of Life." Rev. Jesse Jones of Hurley, Mass., read a paper pointing out care for the social evils. Mrs. Minetta Tinn of Kirwin, Kan., discussed "The Purity Problem." Joseph A. Mitchell of Marionville, Mo., urged earnestly for parental watchfulness over boys in the period when their characters are forming.

WAR VETERANS REMEMBERED BY THE GENERAL GOVERNMENT. WASHINGTON, Oct. 9.—(Special.)—The following pensions have been granted: Issue of September 14: William McLane, Fairbury, 85; John Nelson, Battle Creek, 88; Samuel Wheeler, Omaha, 89.

OLIVER TYPEWRITER WINN MEDAL. BUFFALO, N. Y., Oct. 9.—(Special Telegram.)—The gold medal has been awarded to the Oliver typewriter of Chicago in connection with the Pan-American exposition.

They appeared before the grand jury and had Winzer indicted on five counts—sawing logs, whitewashing trees, stacking oats and straw and rendering land. He is convicted on the first two counts and fined \$10 for each case.

GETS TWO AND A HALF YEARS

Arthur J. Van Kuran, Formerly of Omaha, is Sentenced.

MAKES STRONG PLEA FOR CLEMENCY

Afterward Files Affidavit of Impunity and Asks for Sixty Days to Prepare Papers in Appeal to Higher Court.

SALT LAKE CITY, Utah, Oct. 9.—(Special Telegram.)—Arthur J. Van Kuran, was this morning sentenced to two and a half years in the state penitentiary for the crime of embezzling \$5,000 from the Oregon Short Line Railway company while still in the capacity of local treasurer.

Van Kuran was ordered to step forward to receive sentence, but asked that he be allowed to address the court before sentence was pronounced. He made a strong plea for clemency. He then stood up for sentence. He said he had nothing to say in his own defense, but that he had filed an affidavit of impunity and asked for sixty days to file a bill of exceptions and transcript of the evidence on appeal.

It is probably the one instance, says the newspaper, where a prepared remedy has been openly introduced by physicians of such standing. It seems that the formula of the compound has always been furnished to physicians in regular standing, and that the remedy is generally prescribed by up-to-date practitioners both here and in England and Germany, where it is quite as well known as in this country.

Many wonderful cures by the use of this famous compound are cited, one of them the well known case of Commodore Howell, of Washington.

SOMETHING TO APPRECIATE. It is the Work of the British Doctors in the Board of Trade Building Rooms 438-439.

These Eminent Gentlemen Are Giving Their Services Entirely Free to all Invalids Who Call Upon Them Before Oct. 22.

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of our patients, in this country, established a permanent branch of the Institute in this city at

Corner of 16th and Farnam streets, Rooms 438-439 Board of Trade Building.

These eminent gentlemen have decided to give their services entirely free for three months (medicines excepted) to all invalids who call upon them for treatment between Oct. 10 and Oct. 22.

These services consist not only of consultation, examination and advice, but also of all minor surgical operations.

The object in pursuing this course is to benefit our patients, and to advise and cure with the sick and afflicted, and under no conditions will any charge whatever be made for any services rendered for three months, (all who call before October 22).

The doctors treat all forms of diseases and deformities, and guarantee a cure in every case they undertake. At the first interview, a thorough examination is made, and if incurable, no further treatment is kindly told; also advised against spending your money on useless treatment.

Male and female weakness, catarrh and catarrhal diseases, also rupture, gonorrhea, cancer, all skin diseases, and all diseases of the rectum are positively cured by their new treatment.

The chief associate surgeon of the Institute is in personal charge. Office hours from 9 a. m. till 5 p. m. No Sunday.

SPECIAL NOTICE—If you cannot call send stamp for question blank for home treatment.

A Wise Woman will try and preserve her beauty. A face that will improve her beauty. A face that will improve her beauty. A face that will improve her beauty.

Imperial Hair Regenerator. Natural color of hair. A face that will improve her beauty. A face that will improve her beauty. A face that will improve her beauty.

Imperial Chemical Works Co., 22 W. 23rd St., New York.

Is your office cold in winter? If it is, the best thing you can do is to move—and move now. It may save you some doctors' bills, to say nothing of annoyance and discomfort.

The Bee Building is the warmest—best heated—best ventilated—best in every respect building in Omaha.

R. C. Peters & Co. Rental Agents. Ground Floor Bee Bldg.

AMUSEMENTS. BOYD'S THEATER. Woodward & Lothrop. FRIDAY, OCT. 11. Mr. Samuel E. Rock will present G. W. Lederer's Tremendous Trans-Atlantic Triumph-The Musical Extravaganza.

THE CASINO GIRL. The original New York and London production. Prices 25c, 50c, \$1.00. Seats now on sale.

Sunday Matinee and Night, Oct. 13th. SHOE ACHES. Prices—Eve, 25c, 50c, 75c, 1.00, Mat., 25c, 50c. Seats now on sale.

Great, Big Crowd! Great, Big Show! Mico's Tropicador. TELEPHONE 1111. MATINEE TODAY—10c, 20c. Entire Week Exceptional Saturday Evening.

ROSE SYDELL'S LONDON BELLES! The hit of the year—Two big Burlesques—Matchless Ohio—Pretty Characters—Exquisite Performances. Prices—25c, 50c, 75c, 1.00. Seats now on sale.

ORIENTAL. Telephone 1531. Matinee—Sunday, Wednesday and Saturday. Beans and Bellini Detente—Powell & Co.—The Savans—Max Millan & Shields—Memphis Kennedy—Standard Quartette—Angie Norton—The Klondike. Prices—10c, 25c and 50c.

Continuing he remarked: "A medicine that will do what Smith's Green Mountain Remedy does, doing it in this town today is certainly indicative of its great medicinal value. We have the greatest confidence in this preparation as a specific for the blood and nerves and as an immediate strength giver. That's why we look the sole agency for and that's why we guarantee it to do what is claimed for it or money refunded."

ABLEST DOCTORS IN AMERICA

Declare There is a Sure Cure for Nervous Ailments.

USE OF PAIN'S CELERY IS OPENLY ADVISED

Wonderful Results Recently Elected by Compound.

BUFFALO, Oct. 9, 1901.—An evening paper publishes a synopsis of physicians' opinions regarding the efficacy of various remedies for the cure of nervous prostration and attendant ills. Each physician was asked to express his opinion, first, whether these diseases were curable when once they had gained a hold upon the patient, and, second, whether the same remedy would be beneficial in all cases.

Without exception, the physicians interviewed declared that nervous prostration, when not too far advanced, inasmuch as rheumatism, indigestion, resulting, as it most frequently does, from deranged nerves, dizzy headaches, and most liver and kidney complaints, were absolutely curable, and that the answer to the second question was most remarkable, because, with two exceptions, all the doctors mentioned by name Paine's celery compound, a well known remedy, manufactured by Wells & Richardson Co., of Burlington, Vt., and first discovered by the eminent Dr. Edward Paine, some years ago, after a thorough investigation and the accumulation of a great deal of data, both here and in Germany.

It is probably the one instance, says the newspaper, where a prepared remedy has been openly introduced by physicians of such standing. It seems that the formula of the compound has always been furnished to physicians in regular standing, and that the remedy is generally prescribed by up-to-date practitioners both here and in England and Germany, where it is quite as well known as in this country.

Many wonderful cures by the use of this famous compound are cited, one of them the well known case of Commodore Howell, of Washington.
