State Board of Health Urges Most Stringent Quarantine - Bryan Arranges for Campaign

Speeches.

(From a Staff Correspondent.) LINCOLN. Oct. 12 .- (Special.) - The pay roll of the Nebraska National guard for service during the ten days' encampment in Omaha exceeds the total appropriation by 2333.92. Vouchers for \$17,333.92 have been presented to the auditor, but they are eing held for further consideration. The legislative appropriation of \$17,000 was for twelve days' encampment during the biennium. It has been customary to hold a five or six days' encampment each year but Adjutant General Colby thought more good would result from one ten days' encampment than from two of a shorter dura-

There is some question as to whether the entire amount appropriated can be used for the ten days' service, when the law contemplates twelve days' service. the state officers and a decision will be given next week. Certain it is, however, that all soldiers will not receive full pay counted, the soldiers will be given vouchers for the balance due and these would be referred to the next legislature. The military department has not completed the financial statement of the expenses of the encampment and it is believed that there may be a shortage in the item of trans portation. The appropriation for moving ments provided for is \$4,000. Whether of not this amount will cover the expense is a matter of conjecture, the claims of the rathread companies not having been pre-

To Stamp Out Smallpox.

In view of the possibility of a smallpor epidemic Secretaries Balley, Johnson, Brash and Somers of the State Board of Health met in special session with Governor Savage this afternoon and prepared the follow ing statement, urging the exercise of every precaution, both by physicians and citi-

During the last two years there has been a steadily increasing epidemic of smallpox throughout the United States. Many cases have been mild, but it has been amply demonstrated that from these mild cases have often developed malignant cases. Present indications fhreaten, for the coming winter in Nebraska, a more widespread and serious epidemic than has been known in the state for many lears. It can readily be centrolled by proper quarantine and isolation. That it may be possible to locate every case promptly the State Board of Health has this day, in special session, resolved that it demands of every practitioner of medicine in the state of Nebraska that he of she shall report by letter every case of smallpox coming under his notice within twenty-four hours of his knowledge of said case, such report to be addressed to

ine in Nebraska of the party failing to make such report.

The board further insists that county boards of the several counties be organized, as provided for in chapter ly, article vii, section 5, of the Compiled Statutes of Nebraska.

any disturbance. H. T. Dobbins on Divorce.

H. T. Dobbins of this city has added his opinions to Labor Commissioner Watson's symposium on the subject of divorce legis-

"The laws of Nebraska relating to divorce place a premium upon conjugal infelicity. In theory they are wrong, in that they permit of decrees being obtained on grounds that are comparatively trivial, and in practice they are utilized as the media to perpetuate many frauds upon the courts. There is no real or ethical ground for making non-support a ground for divorce. Abanfonment ought not to be one unless the applicant can conclusively show that he or she was not to blame. The Nebraska divorce laws should provide that in default cases the county attorney enter an appear ance, investigate and fully inform the court. Make the divorce laws more stringent. Make it more difficult to secure a divorce and you lessen the number of hasty. ill considered marriages. Reform can be brought about only by concerted action of those really interested in the work. I would suggest that sometime between now and the next meeting of the legislature a commission be named, by whom it is immaterial, but preferably by the governor or someone in authority, to revise and amend the present chapter on divorce and to secure the enactment of a new code by the next legislative body."

TO COMPEL TRUSTEES TO BUY Grand Island Lodge of United Work men Institutes Mandamus Proceedings.

GRAND ISLAND, Neb., Oct. 12 -- (Special.)-In the district court yesterday Judges Thompson and Paul presiding, the mandamus proceedings of the local Ancient Order United Workmen committee against the trustees of the grand lodge, Ancient Order United Workmen, for the purpose of compelling the latter to carry out the instructions and orders of the grand lodge in the matter of the purchase of the Ancient Order United Workmen building of this city and the location of the permanent headquarters here, was taken up. Attorneys St Claire of Kearney and Hall of Holdrege represented the trustees and Horth & Rvai of this city the local committee.

At the session of the grand lodge held at Nebraska City last May, the lodge decided to permanently locate the headquarters of the grand lodge in this city and to purchase the Ancient Order United Workmen building at the stipulated price of \$11. 000, after a vigorous fight, the principal contestants being Grand Island, Lincoln and Omaha. The committee was instructed to execute the transfer and pay over the money from the general fund of the lodge. It appears that protests were made and the trustees at their next meeting failed to carry out the instructions of the lodge on the ground that they might be personally responsible, it having been set forth that the grand lodge constitution and by-laws did not authorize the lodge to take such action as it had taken at the session at Nebraska City. It was then-several months ago-decided to resort to a suit in court, through a mandamus proceeding. compelling the trustees to carry out the

instruction of the grand lodge. The position taken by Attorneys St. Claire and Hall was that the grand lodge was not authorized by the constitution and by-laws to purchase real estate and that the building was not what it had been pur-ported to be. The applicants for the mandamus maintained and showed that the architect of the grand lodge had inspected the building and found it perfectly satisfactory and all that it had been represented to be and that there was no provision in the constitution and by-laws of the order pre- them. venting the organization from owning real estate. That was a right inherent in every person, association of persons, company or corporation-to own the real estate necessary for the transaction of its business.

The evidence was taken yesterday and last evening it was completed. The plaintiffs were then given ten days in which to file their briefs; in lieu or oral argument the defendants were given a succeeding ten days to answer and the plaintiffs were given another five days in which to reply to defendants' answer.

BEATRICE, Neb., Oct. 12 .- (Special Telegram.)-The Fulton bloodhounds which were taken to Narka, Kan., yesterday to trace the bank robbers who successfully robbed the bank at that place early yes terday returned to this city this morning The dogs traced the robbers to Hubbell Neb., eighteen miles from the place of the robbery, where it is presumed they boarded the early Burlington train for Denver. I is hard to ascertain just how much the robbers secured, but it is thought here that the amount will reach close to \$20,-000, as the bank officials offer a reward of \$5,000 for their capture and conviction. It is the opinion of the bankers and the officers who traced them that the robbery was perpetrated by experts from Denver who had their escape planned according to railroad time tables, and there seems to be little or no hope of ever apprehending

GOVERNOR HELPING DALTON

Jenkins of Oklahoma Asks Stanley of Kansas to Pardon the Imprisoned Outlaw.

TOPEKA, Kan., Oct. 12 .- Governor Stanley today set November 15 as the date for hearing the application for a pardon for Emmett Dalton, the outlaw, who is serving for participating in the Coffeyville bank robbery in 1893. Much opposition was made to setting a date for the hearing by those who opposed granting the pardon, and the action may be considered a victory for Dalton's friends. Governor Jenkins of Oklahoma, has written to Governor Stanley asking that the pardon be granted. Emmett Dalton is the youngest of the Dalton gang, which terrorized southern Kansas and

Ranges of Wyoming.

CATTLE AND SHEEP MEN JUBILANT

More Attention is Being Paid to the Breeding of Horses on Account of Demand for Cavalry

CHEYENNE, Wyo., Oct. 12 .- (Special.)-Reports from the stock ranges of Wyoming are very encouraging. In all parts of the state there seems to be an abundant supply of grass, late rains having placed the ranges in prime condition for winter feed-

Cattlemen say the ranges of the state are in better shape at the present time than ever before and they are taking advantage of the conditions.

Sheepmen are jubilant over the outlook for instead of being compelled to ship their sheep to market on account of a shortage of range food, as in fermer years, they can hold on and feel safe that their flocks will not want for food during the winter. The plentiful supply of range feed and the fact that larger quantities of hay were harvested this year than ever before, has resulted in fewer lambs being sold to Colorado feeders. Last year almost every flock, master in the southern part of the state sold off his lambs to the feeders, but this fall they have enough hay, both alfalfa and native, to fatten what lambs they wish to ship and also keep their hold-overs in

prime condition. Cattlemen, or those that have been on the market with beef stock, feel greatly encouraged over present conditions, and there seems to be a stronger market in sight for those that are late in going to market. The prospect of higher prices in the spring will result in many cattlemen holding over until then before marketing. Rising prices for horses has caused the ranchmen of Wyoming to pay more attention to the animals that formerly were permitted to run at large and rustle for themselves. A better grade of horse flesh is being raised now than formerly and as there is a home demand for draft horses many ranchmen are importing thoroughbred stallions and will breed up on this class of stock. Then the demand of the English and home governments for cavalry horses has had a stimulating effect upon the industry and the Wyoming horse of the future will command much higher prices and will

return to the grower handsome profits. Wyoming Doctors Elect Officers.
