Endorsement of Paine's Celery Compound

Thousands of Such Cases-Mr. Storms' Letter.

A medical journal, says a writer in the Boston Traveler, has the names and addresses and full histories of hundreds of cases of chronic and acute rheumatism that have been permanently cured by the wonderful remedy which has recently been attracting wide attention since Governor Yates of Illinois publicly endorsed it.

Nothing else has ever been known to have failed this marvelous remedy for blood and nerves has made sick people well.

All who try it will find strength and freedom from disease in Paine's celery compound, which corrects unhealthy nerve ac tion, and supplies the veins with pure, more abundant, more vigorous blood. Paine's celery compound is almost universally prescribed by physicians-who differ on many other things, but who estimate at its proper worth this greatest of all remedies for the prevention and cure of disease. It is no exaggeration to say that every week brings hundreds of letters from those who have used Paine's celery compound and have been benefited by it. Above is the picture of Representative G. H. Storms, one of the cattle kings of Kansas, who says: "I regard Paine's celery compound as the most beneficial and valuable of remedies. especially during the fall months." Because the democrats and populists could not come to an agreement last night. there are two more school board tickets in the field this morning. The new tickets are alike as far as three of the candidates are concerned, the populists having encure like obstinate cases. When all others dorsed that number of the democratic nominees, perhaps with the hope that the democratic central committee will induce the other two democratic candidates to withdraw in order to make a complete fusion

No member of the school board should use his official position to further his private business. This practice should be stopped.

Mr. O'Connor said that he believed the board was paying out about \$2,500 a year for insurance premiums, while the only fire loss sustained on school property during the past ten years amounted to only about \$1,000. Ed Howell spoke in opposition to the amendment, saying that toms that sooner or later result from hurry, as he understood that the board was only carrying eleven policies of \$5,000 each, of which he had one. The Second Ward Republican club met last night at 1213 South Thirteenth street with a large crowd in attendance. No business was transacted, the meeting being turned over to the speech-makers. With satisfaction have we seen the democratic county convention nominate a straight democratic ticket. The Omaha newspapers have reported some acts of so-called "leaders of the democratic party" prevailing on some of the regularly in convention nominated candidates to withdraw from the ticket in order to substitute populists in their places.

We condemn such action as outrageous and hold the democratic county central committee as a whole the only and proper power to fill any voluntary vacancies and such places can and should be filled by nominating democrats.

Mc-Donald, W. J. Hunter, George McBride, P. A. Edquist, George Fox, Dr. H. F. McCoy and Sam Finlayson. Arrangements were partially completed for a grand republican rally in the town hall shortly before the coming election. Elaborate preparations for the affair are in progress.

CITY COUNCIL PROCEEDINGS Market Location Brings Contesting Delegations Before Municipal Body.

A merry war is on relative to the location of the city market.

Wholesale men whose places of business are within earshot of the market place are urging removal to-well, just any other locality. Retail grocers and commission men are arrayed on the opposite side. They are of the opinion that the market should remain where it is. Wholesalers in dry goods, clothing and other lines that do not enter into the stomachic welfare of people who have money to spend declare the market a nuisance. Retail grocers and commission merchants, whose mission is to feed and not to clothe, say the market is a blessing to the neighborhood.

Contesting delegations appeared before the city council yesterday afternoon for the purpose of ventilating the existing contrary opinions. Arthur C. Smith and a number of others interested in wholesale houses located along Howard street assured the council that if the market location is not changed steps will be taken to have the courts move it from its present location.

Jobbers Enter Protest.

The following wholesale firms located within a block of the present market place have petitioned to have the location changed: Carpenter Paper company, W. V. Morse company, Byrne & Hammer Dry Goods company, Gate City Hat company, M. E. Smith & Co., F. P. Kirkendall & Co., Voegele & Dinning company.

George F. Munro and Robert Smith acted as spokesmen for the retail grocers and urged that the market be allowed to remain where it is. The grocerymen contended that it is a great convenience to have the market and the commission houses together.

The council took the location of the market under advisement and the mem- gation. In the opinion of many only the bers will reserve decision until they have made a personal inspection of the pro posed sites

VOTE FAVORS DR. SARGENT

Effort to Remove Pastor of St. Mary's Avenue Congregational Church Fails.

DISSATISFIED MEMBERS IN MINORITY

Meeting of Church Society is Held for Discussion Pro and Con of the Present Pastor's Administration.

Dissatisfied members of the St. Mary's Avenue Congregational church were forced to the conclusion last night that Rev Dr. C. S. Sargent, pastor of the church isn't as unpopular as they had believed. A meeting of the church society was called to discuss the strong and weak points of the pastor and to consider the advisability of severing Mr. Sargent's con-

nection with the church. But all discus-

sion was thwarted and a resolution re-

questing the advisory board of the church to consider the release of Mr. Sargent was tabled by a vote of 19 to 23. About fifty members of the church society attended the meeting, several of the persons who were present not being members of the church. In the Congregational church persons who attend services and contribute to the support of the organization are considered members of the church society, but only those who have subscribed to the faith of the church are considered full-fledged members of the congre-

vote on matters pertaining to the spiritua welfare of the congregation John D. Ware presided last night. As soon as he had called the meeting to order Thomas W. Blackburn introduced a resolution setting forth the fact that there was dissatisfaction in the congregation and requesting the advisory board to make an investigation and take steps to sever the pastor's relations with the church.

deemed necessary to restore harmony. Question of Jurisdiction.

This resolution brought forth objections from members, who insisted that the church proper, and not the society, was the body to take action on such a measure The chair decided that the society could act on the resolution. An appeal was taken and the vote stood 23 to 23. The chairman stated that he regreted that a tie vote called upon him to decide the matter and ruled that the society might consider the

question. Edwin L. Huntley then moved that th resolution be laid on the table. Several members attempted to protest, but the thair called them to order, as discussion was out of order, and submitted the mo tion. The resolution was tabled by a vot of 19 to 23. A motion to adjourn wa adopted immediately and the meeting came

to a verr sudden end. Dr. Sargent was called to St. Marv's Avenue church from St. Louis about two years ago. For some time members of the congregation have been dissatisfied with his preaching and have attempted to bring his pastorate to an end. At a meeting several months ago an attempt to have the advisory board investigate the dissatisfaction in the church was defeated. Dr. Sargent disregarded the complaints, as he was assured that the fault-finders were in the minority. There are 400 members of the St. Marv's

Avenue congregation and 500 members of R. S. the society. Among the younger members of the church the pastor is said to be

especially popular. Persons who maintain that the society had no right to consider the dismissal of a pastor will probably call a meeting of the church within a few days
