Shortage of Cucumber Crop Causes Searchy and Dealers Are Unable to Supply Trade.

Omaha wholesale grocers are having a hard time to meet the demand for cucumber pickles. The complaint in this respect is general. The cucumber crop was a failure in a large part of the country, but in Wisconsin it was up to the average, if not slightly above. The result is that Wisconsin is called upon to supply pickles to the

The pickling works in that part of the country cannot supply orders as fast as they are received and are from three weeks to two mosths behind. Omaha jobbers are selling directly from the car and have back orders which will take half of the goods received yesterday.

Everybody's Store

T his store is watched by everybody, by customers for what it sells, by merchants for what it undersells.

Common consent makes it the standard for this trading community. We accept the distinction and are glad to be of service to anybody besides our customers.

Nebraska Clothing is Good Clothing

Our customers wouldn't be satisfied with just as good as elsewhere—they expect and find it a little better for the money than any competition can offer them.

Circus methods of advertising seem to be in favor of late by merchants who pick up the driftwood of salvage from commercial wrecks and unload it upon the community as new fall styles, etc. Will you or will you not? Our selection of Men's Fall Clothing has been made with particular care and particu-

lar reference to the tastes of our trade. "A stock well bought is half sold," says the proverb, and you can appreciate to some extent our pleasure when confidence in our goods gives us assurance that they have only to be seen to be appreciated and eagerly purchased.
