Nevertheless, the feeling is somewhat more confident. A favorable factor was the buying of coal and iron shares for foreign account. It is asserted that considerable French money was invested in such securities during the week, especially in coal shares, upon the expectation of a coal strike in France. From 100,000 to 200,000 marks were invested in Harpener coal for Paris account Wednes-day. There has also been some British buying. A number of inquiries were re-ceived from abroad regarding German in-dustrials making good investment. Never-theless, coal shares generally were neg-lected, domestic investors being influenced by American imports of coal and the im-pending reduction in prices. The improvement in coal and iron shares reached four points on the week. The coke market is described as "very feeble." Btocks are accumulating and it is con-sidered certain that the syndicate must increase the restriction of the output to 50 per cent.

increase the restriction of the output to by per cent. American railroad shares were the strong-est feature. Northern Pacific preferred was heavily bought for New York, gaining 412 points yesterday. For the week the gain was 6.82 points, the closing quotation being (04.62. Foreign rentes were generally strong, particularly the Chinese loan, owing to the signing of the peace protocol. Italians were strong upon the fail of the gold premium, but Spanlards were weak. In consequence of the condition of the money market, domestic loans were weak. Inperial 3s loat, 065 and Prussian 3s .05. There was much short selling of both. Foreign holders also sold. Another cause of weakness was the rumor of new loans and the belief that the government con-tinues to sell the loans privately, anticipat-ing the issue. It is now regarded as cer-tain that considerable new loans will be floated after the new year, both imperial and Prussian.

tain that considerable new loans will be floated after the new year, both imperial and Prassian. Private discount advanced on the week 5 of a point to 3 per cent, which was main-tained. The impulse to this was chiefly the scarcity of money in Paris. Considerable French paper was offered here for dis-count. Another cause was the Reichsbank's returns for the week, which proved some-what unsatisfactory. It is said that the bank has been compelled to prolong a number of bills in order to prevent insolv-encies and other difficulties. The bourse gave considerable attention to the negotia-tions between the Aligemeine Elektricitaets-Gessellchaft of Berlin and the Schuckert Electrical company of Nuremburg fo-establishing a community of interest, ar-ranging prices and saving expenses in reli-ing. The shares of the latter compary improved strongly in consequence. German works are now securing ord r-for locomotives in India. This is explained by the possibility of more rapid delivery owing to the fact that the British works have heavy orders ahead. The Prussian railway authorities will soon order 49 loco-motives. The super syndicate has decided to re-

Tailway authorities will soon order vo loco-motives. The sugar syndicate has decided to re-duce production next year, owing to the low prices and the actions of stock. The alcohol syndicate has reduced prices 4 marks per hectolitre in the case of crude alcohol.

STOCK EXCHANGE IS DULL

Stagnation in London Market Due Chiefly to Situation in

South Africa.

LONDON, Oct 20.-The Stock exchance hast week was dull and professional. Vari-ous causes contributed to the stagnation, among them the industrial depression in Russia. Germany and France, the Amer-ter and the stagnation of the stagnation way developments and lastly and cheft, the South African situation. Exporters do not look for any serious break in the mar-ket, for the speculative public, whole timidity usually resuricts the pace, is un-usually quiet at present, but they think it will be a long while before there is any decidedly favorable reaction. The unusually good traffic reports made on home rai road mares were the most favorable feature of the week, but these had no effect upon the seneral list.

the week, but these had no effect upon the general list. Money is still easy, but unless there s a prompt increase in the open market rat-gold shipments to Paris and Berlin will soon be inevitable. Mines were hard, with a general duliness characterising that section. The recent at-tempt to boom Kaffir's has failed, despie the permission of the authorities for the starting of lifty additional Rand stam s and mining shares all closed fractionally lower.

Wool Market

ST. LOUIS, Oct. 19.-WOOL-Easter and unchanged: medium grades, 124/2017/sc: light fine. 12/214/sc; heavy fine. 9/2/2014/sc; tub washed, 20/21/c.

will increase, but just when they tannot state. Turpentine advanged 1 cent per gallon last week, ruling quotations now being 425 cents. There has been no change in white lead or mixed paints. The demand for both window and plate glass is very good, as this is the time of year when a great deal of repairing is done. The mar-ket remains unchanged.

Dry Goods a Little Quiet.

Leather Goods Firming Up. Immediate business with boot and shoe jobbers is not exceptionally large, as the weather so far this fail has not been of the kind to make retail business very ac-tive. Stocks in the country for that rea-son are quite complete as yet, so that merchants are not placing many duplicate and sizing-up orders. There is, however, fully as much buying as could reasonably be expected under present conditions. Traveling men are now working hard on advance orders for spring and are meeting with very flattering success. Merchants are ordering more liberally than they gen-erally do this early in the season, which would indicate considerable confidence in future business. The fact that spring san ples were out at least two weeks earlier than usual makes the present situation all

han usual makes the present situation all

Fruits and Produce.

There has been a good steady demand the last week for fruits and vegetables, but prices have changed very little, as a glance at the quotations in another column will show. Prunes, peaches, pears and grapes are still offered on the market, but they are being gradually replaced in popular favor by apples. The cating apples now on the market are very choice and are selling at 3.0663.50 per barrel. The new crop of nuts is now offered and the quotations are given in another col-umn.

the quotations are given in another col-umn. Bulk oysters have eased off a little, the change to take place on Monday of this week. Bulk Standards will then sell at \$1.2001.25 and bulk Extra Selects at \$1.600 1.65. Canned oysters remain unchanged. Poultry has been coming in quite freely, but still the demand has been sufficient to take all that was offered at good, firm prices. Eggs are higher than they were a week ago, fresh stock now being worth 16 \$317 cents. Butter is quoted the same as it was a week ago, but prices are firm.

the more encouraging.

Totals 5,880 25,579 5,039

common of the week, but later on improved and at the close values are about a dime lower than they were at the close of last week. Fair to good butcher cows are sell-ing around \$2.5063.59 and the canners and common kinds sell from \$1.59 to \$2.75. Bulls, calves and stags sold fairly well all the week where the quality was satis-factory and prices are now not much differ-ent from those in force a week ago. Choice bulls will sell from \$1.50 to \$4.25, but the general run are quotable from \$2.00 to \$2.00, with the common kinds at \$1.7567.200. Veal calves are selling from \$4.50 to \$5.00. There has been a good, liberal supply of stockers and feeders on this market and the first of the week prices broke consider-ably. Toward the last of the week, how-ever, the tendency was upward and the good to choice stockers, as well as the loss to choice stockers, as well as the factory end the last of the week, how-ever, the tendency was upward and the good to choice stockers, as well as the factory feeders are quotable at \$3.75674.40, medium cattle at \$3.0073.75 and common kinds at \$2.4073.00. Stock heifers are selling from \$2.50 to \$2.40. Western cattle of course made up the bulk of the receipts this week. There were quite a few steers included in the receipts that were good enough for killers and the first of the week prices broke a little. The latter part of the week the loss was fully regained on the good kinds fand in some cases the market is a little higher. The common cattle, however, were rather slow sale. Good to choice westerns are selling from \$4.40 to \$5.10, fair to good at \$3.50 down. Cows met with ready sale most of the week and prices closed up about a dime lower than the week before. Choice westerns will apply to the west-erns also. HOGB-Conditions were sgainst the sell-ing interests today and as a result price-became the more frequent. The choice loads wold mark the holk of the the page sold mark \$2.50 to \$6.225 and \$5.272, and toward the close the latter price became the more frequent. The choice loads

BUTTER—Creamery, 16%2@19c; dairy, fancy, 14@16c.

everything was out of first hands in good season. The supply of hogs on this market has not been heavy the last week, though an increase is noted over the previous week. As compared with the corresponding week of last year there is a marked falling off. Prices have fluctuated back and forth to some extent and the week closes with prices just a shade higher than they were at the close of last week. Representative sules: No. Av. Sh. Pr. No. Av. Sh.
