LIQUIDATION FACTOR IN THE CORN PIT

Weak Tone in Onts, Closing Easter and Lower-Provisions Fairly Steady but Dull on Grain Wenkness.

CHICAGO, Oct 21.-General liquidation in wheat on a dull and heavy market depressed grains today and December wheat closed %994c lower, December corn %936c depressed and December oats 4934c down.

visions closed a shade to 5c lower. Traders had expected a bull day in sheat, partly on the rumor that a line of short wheat would be covered for the acterday. Liverpool cables were up to start with and December opened 14714c to %c sedvanced at 7114c to 7114771%c. A little early covering even advanced the price 71%c, but a sharp decline in cables set mmission houses and prominent professionals selling long lines and the only sup-port left was a little scalping by pit trad-There was more bulish Argentine news but that had only a short-lived inice. Local recelpts were 156 cars, none of contract grade; Minneapolis and Duluth reported 1 631 cars, making a total for the three points of 1.187 cars against 1,000 last week and 1.270 a year ago. Primary recelpts were 1.294,000 bushels, against 1.557,000 bushels a year ago. Scabbaard clearances in wheat and flour equaled 516,000 bushels. The increase of the world's visible supply was reported at 1.185,000 bushels. The amount of breadstuffs on passage had decreased 1.472,000 bushels. World's shipments were 8.732,000 bushels against 7.706,000 bushels last week and 6.981,000 bushels against 7.906,000 bushels 9.906,000 bushe

Liquidation was the principal factor in the corn pit, following upon the depressing influence of the sar in wheat. Indifferent cables, fair receipts and a sluggish cash demand induced holders to let go and with the slump in wheat came the only buying, which was for a few scattering short accounts. December started unchanged to a shade higher and gained the carly. From this it dropped to 150 cand closed weak, \$60 colored to 150 colored weak, \$60 colo

NEW YORK STOCKS AND BONDS. Speculative Sentiment Continues Du-

bions Throughost the Session.

NEW YORK, Oct. 21.—Speculative sentiment continued profoundly dubious today. Last week's transactions on the Stock exchange fell below the corresponding period of last year for the first time during the present calendar year. This fact and today's dullness, which was even more marked, are striking evidence of the uncertainty which has overcome speculation, due immediately to the emergence of the Northern Pacific problem, and the disclosure of the fact that the actual terms of a settlement still remain to be agreed upon. While the incumbency of conclusion in board of directors of course affords a strong guaranty against the outbreak of the quarrel again, the members of that body seem to have practically the whole task yet before them of finding a plan which will be acceptable as a final settlement to both parties and relieve the strained condition growing out of the load of securities carried for control now by means of bank loans. Incoming foreign mails disclose that the importance of this problem is fully recognized throughout the financial world and its state of suspension acts as a repressive influence on speculation. The continued uncertainty of the money market outlook is another doubtful factor.

Railroad bonds were very dull and about bious Throughout the Session.

Coffee Market.

NEW YORK, Oct. 21.—COFFEE—Spot Rio, strong; No. 7 invoice, 7c; mild, steady; Cordova, 1½milc. Great excitement prevailed at the Coffee exchange. Prices were decidedly higher and business was enormously active. The opening was officially described as steady in tone, at an advance of 20 to 35 points on general buying, while the selling was scattered and chiefly by parties who were satisfied with their profits. The principal factor in creating this upward movement was the further testimony from Brazil indicating a crop shortage, with some reports having it that the total Sant s crop was a failure. European markets were also excited and decidedly higher, as Havre closed 3 francs higher and Hamburg 2 to 2½ pfgs. above Saturday's close. Locally everybody bought, led by the "metal clique," Wall street and a prominent spot house. Sales on the initial call were 22,55 bags and the total for the day was swelled to a matter of 157,000 bags, which represented one of the largest day's business in years, and included October at 8,30c; November at 6,20%6,40c; December at 6,30%5,25c; January at 6,40%6,65c; February at 6,55% 6,65c; March, 8,60%8,55c; May, 6,80%7c; June, 7%7,10c; July, 7%7,15c; August, 7,20; September, 7,15%7,36c. The supply of cow stuff was very liberal this morning, but trade ruled fairly active and right around steady prices were paid. The better grades moved more freely than the comon stuff, but still there was very little change noticeable in the prices reald.

very little change noticeable in the prices paid.

Bulls, caives and stags also sold in practically last week's notches.

The greatest activity today was in the feeder trade. Speculators were all anxious for cattle and as a result anything at all good was picked up in good season at steady to strong prices. Heavy cattle and choice yearlings were very ready sellers, but stock caives also sold at stronger prices. The cattle that were neglected the most were the medium weights. Common cattle while not active sold for fully as much as the same kind brought last week.

Desirable grades of western beef steers were scarce today and the market on such kinds can safely be quoted steady. The common kinds, however, were rather slow sale today, as packers did not seem at all anxious for them. Cows sold freely at steady prices and stockers and feeders were steady to strong and active. The demand, however, was equal to the occasion and as a result the market was active and steady to strong all around. Sheep and yearlings sold as high as \$3.55 and lambs brought \$4.50. It was a good active market and everything was disposed of in good season that was at all desirable.

Feeders were also ready sellers this morning and strong prices were paid. Choice feeder lambs seemed to be a little higher, as \$4.00 was paid for a bunch weighing fifty-mine pounds which is the highest in some time.
