Inhuman Speculators Corner Corn Supply and Raise Price One Hundred Per Cent, Causing Intense Suffering

SAN ANTONIO, Tex., Oct. 30.-News was received here today that at Michiocau. Mex., on October 26, a bread riot occurred in which twenty persons were wounded many of them fatally.

The cause of the riot is said to have been the action of speculators in cornering the supply of corn. A corn famine has existed in that section for months and the government recently removed the import duty on

It is claimed that speculators cornered the shipments to the section and raised the price 100 per cent. The starving people, driven to desperation, attacked the warehouses, women and children leading the assault. They were shot down by the guards. Those who escaped the bullets, appalled at what had happened, fled.

The conditions in that section of the republic south of the City of Mexico are deecribed as terrible.

M. Hitchcock, F. W. Kellogg and two per sons from South Omaha be invited to address the exchange on the subject of taxaton and consolidation on such dates as may agreeable to the speakers, the addresses to be delivered after the coming election.

J. S. Knox suggested that as the exchange has invited a large number of people to meet at the city hall November 21 to discuss punicipal affairs, something should be done to make that meeting a success. It was moved by E. A. Benson that the committee on taxation-W. L. Selby, A. P. Tukey and John S Knox-represent the exchange at that meeting. It was stated that the city and county officials had all been invited to be present. The motion prevailed.

G. G. Wallace asked if anything had been done looking to the selection of assessors to be elected next week and suggested that the matter be discussed. E. A. Benson suggested that the exchange let politics alone. G. M. Nattinger said that the way the matter should be handled would be for the exchange to raise a fund and employ a man to follow the assessors and see that they do their work, holding them liable for their failure to perform their duties.

OREGON LIES HIGH AND DRY INVESTS IN A PORCUPINE

Excessive Care Necessary in Decking Fifteen Femous Fighting Vessel.

STRAINED KEEL IS IN NEED OF ATTENTION

Accident on the Rocks Renders Extraordinary Pains Necessary that it May Rest Gently on the Blocks.

SEATTLE, Wash., Oct. 30 .- The battleship Oregon is now on the government drydock at the Puget Sound pavy yard, where it was taken last Friday to undergo repairs to its keel, which was severely strained when it ran on the rocks-some months ago. Later it will be given a gen eral overhauling and painting. More than ordinary care was necessary on account of the strained keel and for many days prior to the docking extraordinary preparations were made for the reception of the big war vessel.

In order that it might rest gently on the blocks, instead of pumping all the water out of the dock, as is generally the case, only about six feet were taken out Shores were then placed in position and two divers entered the water to adjust wedges and blocks carefully about the keel before any great part of the weight of the battleship was allowed to rest. The remainder of the water has since been pumped from the dock and the damaged climbed up the wire fence and dropped off part of the hull exposed.

nesses in Trial on Perjury Charge.

Late yesterday afternoon the attorneys who are prosecuting James Callahan for perjury completed their review of the testimony given at Callahan's trial for robbery and began the examination of witnesses who were summoned to testify in

the case now on trial. Mrs. Schnelderwind, the owner of the house in which Eddie Cudahy was kept a prisoner, was the first witness called. She testified that she rented the house late in November or nearly in December to a man who said his name of J. L. Connor. Mrs. Schneiderwind was not able to identify Callaban as the man who rented the house.

Carrie Loge, a domestic employed at the home of John H. N. Patrick, testified that James Callahan came to the home of Mr. Patrick late in November and inquired who owned the Sleepy Hollow cottage, which was the first prison house selected by the kidnapers. Miss Loge's identification of Callahan was positive. Mrs. Nellie Collins, who lives near the

Schneiderwind house, testified that during the time when Eddie Cudahy was Im prisoned she noticed that the window shade was raised on one of the upstairs windows. Mrs. Butler was called to the stand. On December 16 she went to the home of Mrs. Kelly, James Callahan's sister, to look at a horse which was advertised for sale. She testified that at that time she saw the bay pony which afterward figured so conspicuously in the kidnaping and also saw Callahan and another man, whose appearance was not unlike the description given of

solders at Fort Crook. A very fast game is promised.

Meanwhile the Omaha High school team goes to Lincoln to meet the Lincoln High school eleven. These are old rivals, and the game Saturday will determine the championship of Nebraska. Last year two games between these teams resulted in no score on either side. In 1899 Lincoln won, 17 to 0.

Was not unlike the description and the description are description and the description are description.

President Reed also informed the board that he had arranged with the Nebraska Fuel company to furnish coal for the library as a part of its contract with the game as part of its contract with the stable and used the telephone. Mr. Glynn did not get a good look at the man and was unable to identify him. He got a library as a part of its contract with the city and at the same price, \$2.34 for Cherokee steam.

The application of the Mothers' club for good look at the pony, however, and had no besitation in saying that it was the bay pony which was caught near Pacific Junction

Mr. and Mrs. Eberle testified that they saw the pony tied in front of the Schnelderwind house during the time of Eddie Cudaby's imprisonment.

George F. Wittum, who lives near the kidnapers' prison house, testified that be saw men pass his home on their way to the Schneiderwind house during the time of the boy's imprisonment, but was unable Mr. Penrse Makes a Correction.

Park Board Buys Animal at Two Dollars. Marked Down from

At the regular meeting of the park comnissioners yesterday afternoon the payroll was approved, the matter of re-leasing Fontanelle park for another year was laid over one month and a porcupine was purchased for the menagerie at Riverview park at an expense of \$2. The meeting was brief. All five members

of the board were present, together with Superintendent Adams. October's payroll was light, aggregating only \$1 400. With everything paid up to November 1 next there is a balance in the park fund of \$2,195.28 and in the road fund of \$3,189.59. Henry Baumer, a farmer, has had Fontanelle park during the current year. He pays \$250 per annum rental and offers to take it again at the same price. The tract comprises 119 acres and Mr. Baumer farms portion and uses the remainder for pas urage. The reason the board postponed the re-leasing for next year was that it is considering planting the place in trees and parking it then. This will ultimately be ione with the property.

Mr. Cornish recited the interesting details of his purchase of the porcupine. A colored man came into the office with a fine specimen for which he asked \$15. The commissioner said he would give \$2. The negro he came back and said he had reconsidered, so the animal was sent out to the menageric. The last porcupine the city owned backward, breaking his neck.
