TO JOIN CITY AND COUNTY

Edward Rosewater Discusses the Plan Before Real Estate Exchange.

HOW THE CHANGE MAY BE SECURED

Suggests that an Extra Session of the Legislature Be Called to Submit Constitutional Amendments Needed.

E. Rosewater addressed the noon meeting of the Real Estate exchange yesterday on the proposed consolidation of city and county government. He called the attention of the real estate men to the fact that he was a pioneer in the movement to consolidate municipal governments and read a constitutional amendment which he had introduced in the Nebraska legislature in 1895. amendment provided for the merging of the government of cities of metropolitan class and the government of the countles in which such cities are located. This amendment was submitted in 1896, but was overshadowed by the great war between the

gold and sliver forces and met defeat. This amendment provided that the government of any metropolitan city and the government of the county in which it is located might be merged, wholly or in part, when a proposition so to do has been submitted by authority of law to the voters of such city and county and has received the assent of a majority of the votes east in such city and also a majority of the votes cast in the county, exclusive of those cast in such city," said Mr. Rosewater. "This was one of twelve amendments which I succeeded in having submitted. It was defeated because people had no time to consider anything but the great money

Legislative Help is Needed.

"To secure the adoption of amendments when great national issues are not at stake. Governor Savage should be urged to call a special session of the legislature constitutional amendments to be introduced. This would make it possible for the amendments to be submitted to the voters a year before the next presidential election."

Mr. kosewater said that he had given many years of study to the subject of taxation and the most economical means of administering public affairs. He expressed approval of the general plans of consolidaing the city and county governments and said that this change is one of many which | ing the attention of managers and theatershould be brought about.

At the time he secured the submission of the consolidation project to the voters number, are laid in Paris, and are the most Mr. Rosewater also advocated another claborate ever seen in a melodramatic proamendment which he believes would be of duction. Chief among them are Cafe Changreat benefit to cities which strive to become manufacturing centers. The amendment authorizes cities and counties to vote bonds and give money to mills and factories. It authorizes counties to vote not more than 10 per cent of their assessed | tion by moonlight. valuation in all as subsidies for manufacturies and grants cities the authority to increase their debt 5 per cent in addition to the 10 per cent authorized for the country. A three-fourths vote is required to levy this tax.

Must Encourage Manufacturers.

"Some amendment of this sort is necessary," said Mr. Rosewater. "Other states grant factories exemption from taxation for a certain number of years and make every effort to foster industries which will build up the state. Nebraska must take some step to encourage manufacturers to locate

At the conclusion of his address the Real Estate exchange extended a hearty vote of thanks to Mr. Rosewater. President H. Green then announced that G. M. Hitchcock will address the exchange next week on the proposed consolidation of city and county governments. Mr. Hitchcock will contrast American and European municipal
