CORN CROP FAILURE IS HAVING EFFECT

Receipts of the Day Are Only Sixty. Pive Cars and Wednesday's Shorts Harry to Cover.

CHICAGO, Nov. 7.—A strong cash situation in all grams and light offerings to supply the dimand sent prices upward to-day in an active market. December corn light specified and an active market. December corn light specified and proceed unchanged to bee higher.

Lower cables had an early depressing influence on wheat, but this was soon everome when it was found that hardly any offerings were coming out and those only from a few shorts. December opened a shade lower to a shade higher at 17sc to 2c, but strightway feit the effects of buying orders with the commission houses and the strong lone in the corn put and began its upward pourney. All during the session trade was nervous and active and on a broader scale than that of either yesterday or the day better. News favored buyers with the exception of the early cables. The Hessian fly was reported in Kansas, and Duluth stocks showed an increase of only 250,000 but the week, compared with \$50,000 the week before. Outside markets also were strong in most cases higher for becember than here. Exports were fair and some business was reported done with Mexico. Cash prices were strong and December than here. Exports were fair and some business was reported done with Mexico. Cash prices were strong and December than here. Exports were fair and some business was reported done with Mexico. Cash prices were strong and December than here. Exports were fair and some business was reported done with Mexico. Cash prices were strong and December sold up to 72%, closing strong, only a shade under the top price and %c higher than yesterday. Local receipts were 11cars, nine of contract grade, Minneapolis and Duluth reported 531 cars, making a total for the three points of 642 cars, against 623 last week and 55 a year ago. Primary receipts were 156,000 bu. The scaboard reported thirty-two londs taken for export.

Last season's corn crop failure is beginning to show strongly on the corn market. Activity in this pit today centered around the seant receipts—only skyt-five cars. Traders w 110 cars; corn, 80 cars; oats, 140 cars; hogs, 23,000 head.

Wall Street Acts on Supposition that Northern Pacific Deal is Fixed. NEW YORK, Nov. 7.—Today's stock market was much broader and more diversified than that of yesterday and the aggregate dealings rose well above yesterday to near 1.250.000 shares. There was enormous realizing in the stocks which led the advance yesterday, especially in Union Pacific and St. Paul, which ruled below yesterday's closing level practically all day, falling at one time by for St. Paul and by for Union Pacific.

The heaviness of Northern Pacific preferred, which fell by on comparatively light

St. Paul, which ruled below yesterday's closting level practically all day, falling at one time 1's for St. Paul and 1's for Union Practice.

The haviness of Northern Pacific present transactions, taken to connection with the reaction in the two stocks previously named, it would be supposed, might indicate doubt as to the Northern Pacific st. terment, the more so as no authorized statement of the terms of settlement of even of its actual consummation, can be ever, remains strong in speculative drefest that the agreement is in fact perfected, aithough on the subject but acquies ensumers of vague infinations can be had from insiders. The corroboration offered by the tape is considered conclusive and also that Union Pacific and st. Paul are to such that the agreement of the settlements. The strong of the settlement of the property of the settlement of the property of the settlement of

the common and 1% for the preferred on glowing accounts of the activity in the trade.

The payments of the sub-treasury in redemption of bonds and for the deposit of Australian and Klondike gold at Pacific coast points are so far offsetting the drain on other accounts that the money question is kept in abeyance. The substantial recuperation for the week disclosed by the Bank of France also served to relieve apprehension over money affairs, as Paris has been the real center of attraction, working toward depletion of gold supplies at other points. The small increase of the bank's gold supply for the week has been supplemented by a decrease of over \$49,00,000 in bills discounted and a contraction of nearly \$8,000,000 in its outstanding circulation. The market closed easy under the influence of realizing.

The railroad bond market was active, but the reaction in Union Pacific convertible bonds made an otherwise strong market. Sales of bonds, par value, \$6,810,000, United States bonds were all unchanged on the last call.

The Commercial Advertiser's London financial cablegram says: The atock market today was merely steady, save the American department, which was strongly bulled by insiders, though the public was still apathetic. Yesterday's interest in Union Pacific spread throughout the list today, the favorites being Atchison, Chesapeake & Ohlo, Ontario & Western, United States Steel and Southern Rallway, There were heavy operations in the last named stock, which finished at 35%, or less than a point, under the best price of the year. Southern Pacific and Erle hung fire thi New York purchases in the afternoon caused a strong general close after some profit-taking, it is unto a retaiked fifty, owing to the continued American purchases; and a big bear account in Paris. The consol call of nominally £9,000,000 has been reduced to £3,500,000 as the rest has already been paid under protest. Paris cheque is 25.11 and Berlin 20,41½. Gold to the amount of £113,000 has gone out to South America. The Board of Trade returns for October show a big decline in imports. Raw cotton is waiting the crop news and American shipments of corn declined in favor of Argentine. *Ex-dividend.

LONDON, Nov. 7.—Money was in strong demand today. The uncertainty as to the future made discounts firmer. Business on the Stock exchange improved. There was little feature, apart from the rise in Americans, the approach of the settlement and the Saturday closing, checking inclination for fresh engagements. Consols and firm at about parity, influenced by the reported Northern Pacific settlement and the result of the New York election. The transactions were chiefly professional. There was no apparent public buying. After fluctuating prices closed at about the best of the day. Grand Trunks advanced in sympathy.

Bulls, veal calves and stags all changed hands freely at good steady prices.

The supply of feeders was not large this morning and as the demand was fairly liberal the market took on considerable life and stronger prices were paid for the more desirable bunches. Everything in the way of good heavy feeders or of choice yearlings was disposed of at an early hour. The commoner kinds moved without much trouble at steady prices.

There were very few western steers in the yards this morning good enough for killers. Good firm prices were paid for such as did arrive, as packers all seemed anxious for good grass cattle. Range cows were also ready sellers at strong prices. The choicer bunches could be quoted strong to a dime higher and the commoner grades steady. Good feeders were also stronger and others steady. CATTLE—Receipts of cattle today were fairly liberal, but the market ruled strong and active on all desirable grades. A noticeable feature of the receipts for this week has been the increase in the number of corn-feds and the consequent decrease in the proportion of western rangers.

There were about thirty-five cars of cornfed steers on sale this morning and the quality as a whole was verygood, rackers ain had liberal orders and as a result the better grades sold about as fast as they were unloaded. The market could safety be quoted steady to strong and active. The common kinds sold without much trouble at just about yesterday's prices.

The cow market was also active today and prices were fully as good as yesterday. The better grades in some cases sold as much as 10c higher than yesterday, as the demand, was very active for that class of stock. The medium kinds and canners sold in just about yesterday's notches.

Bulls, veal calves and stags all changed hands freely at good steady prices.

Coffee Market.

NEW YORK, Nov. 7.—COFFEE-Spot Rio, strong. No. 7 invoice, 7c. Mild. firm; Cordova. 7½41lc. Futures had a record-breaking day of it, both as regards to business transactions and fluctuations in value. The opening was steady in tone, with prices low is points higher, the advance being due to covering by trightened shorts on rumors of continued drouth in the Santos district and on buillsh European market advices. Speculative demand from the room contingent and outside investment developed on a heavy scale following the call and prices advanced a further 1910 points by midday, with offerings sca.cc. At noon a private cable from Brazil made its appearance, estimating the next Roctop at 2,500,000 bags and the Santos crop at 4,500,000 bags, a total of 7,000,000 bags, whereas from 10,000,000 to 11,000,000 bags, whereas from 10,000,000 to 11,000,000 bags had been generally expected. This cable inspired the wildest covering by shorts and heavy buying for all accounts, prices advancing rapidly until a net rise of 60915 points had been reached. Foreign houses started the buying in the moraing and were large purchasers all day, while investment support for outside account was also very heavy. A slight reaction on profit-taking occurred near the close, but final prices were 55,600 higher, with the tone steady. Sales reached the enormous total of 120,000 bags and included December at 6,3016,370; March, 6,6097,15c. April, 6,9547,50c; May, 6,7547,50c; June, 6,8547,25c. July, 6,2547,50c; August, 7,10c, September, 7,1547,55c; October, 7,75c.

FOOD MAKERS IN AN EMBRACE Seventeen of Them Form Combination to Regulate Prices and Sales Territory.

PITTSBURG, Nov. 7 .- Seventeen large preserve manufacturers of the country at a meeting in this city formed a combination to be known as the American Association of Manufacturers and Distributers of Food Products. The object of the organization is to regulate prices and sales territory and to secure a more just interpretation of the pure food laws. The companies represented at the meeting have a combined capital of \$3,500,000 and control about three-fourths of the total production of the country. A central office will be established in either Pittsburg or Chicago.

Texas Oil News.

From Beaumont Daily, Oct. 28, 1901. "The Apex Oil Co.'s well was brought in today in good shape. Its action at first was spasmodic, but soon got down to business and the flow was a 6-inch steady stream." "Spindle Top No. 2 was brought in Saturday morning with a fine 6-inch flow. Satur-The day wound up with four gushers."
"Fifty-one cars oil sold here on track to-

day. A very good day." "Over Four Hundred shiploads Beaumont oil now on the briny deep enroute to Europe to be used in the vast furnaces of the fac-

tories in the old world." "The Omaha Texas Oil Co.'s well on the Brice tract is being pushed on rapidly as possible. This is the only 121/2-inch casing

in the district at present." The good people of the United States outside of Texas cannot realize what great fortunes are canned up in our oil fields in and around Beaumont and Spindle Top Heights. Each gusher pours out on an average of 65,000 barrels per day and there are about seventy-five gushers. Total, 4,-875,000 barrels per day, and sells readily for 30 cents per barrel, which brings in an un-paralleled income daily of \$1,462,500. It seems almost incredible, yet it is all true. The Omaha Texas Oil Co. is selling a limited number of shares of stock on their holdings at the extremely low price of 25 cents per share of one dollar par value. No personal liability. Every shareholder participates in the same immense profits. Write the Omaha Texas Oll Co., Council Bluffs, lowa, for full particulars. Get their prospectus and read it carefully.
