Sentence was deferred for one week. The parties live in City-Off.

The Shaws of Jersey, in charge of St. Charles, have bought the George Wheeler apartment at 225 Harmony street, where they will establish a home for young people whom they expect to open the home January 1.

Gulf Ports Get Business.

The trading south began to bid for the business, and the shippers found that by sending their grain to Council Bluffs and then reshipping to Kansas City, whence it was taken to the gulf ports for shipment to Europe, they could make better rates than by shipping to the Atlantic ports.

This enabled them to pay a higher price for the grain in Iowa and the farmers have been in consequence receiving 2 cents a bushel more than heretofore.

The Milwaukee, while accepting shipments to Council Bluffs, refused to switch or make transfer of any of its cars here to the Union elevator, holding out for the long haul to Chicago and thence to New York. Several cars loaded with grain which the McCaul-Webster company wants switched to the Union Pacific for delivery to the elevator are standing on the tracks of the Milwaukee, awaiting the result of the suit.

The same company recently had a similar suit against the Chicago & Northwestern, but the latter backed down from its position and the matter was settled out of court by the Northwestern agreeing to transfer cars wherever desired by the grain company.

If the railroad company wins in this suit Monday it will practically put an embargo on the shipment of grain to Council Bluffs, as the shippers cannot afford to transfer the grain from the Milwaukee's tracks to the elevator by wagon.

New Elevator at Stake.

The McCaul-Webster company has for some time contemplated building a large elevator in this city, but if this suit is decided against it, it will, it is said, abandon the project. This would prove an immense loss not only to Council Bluffs, but the farmers of that section of Iowa from which the company buys a large part of its grain.

The Village Parson's will be at the Dolany tonight. The piece is not only a well-told story, wherein human emotions and mischievous ways are graphically told, the plot is laid, has a high moral tone. The mounting is new and beautiful and is a picturesque production away from the stage. The company will be performing throughout. The company will be found a most capable one in every respect, each member being especially selected for his part.

The biggest bargains in stoves to be found in the city are at the Iowa Furniture and Carpet company's store, 14th Street. There are large variety of stoves among them being the famous Acorn Oak; also Hot Blasts and fine ranges. Prices cannot be beat. They also sell curtains, window shades, valances, Indian rug, etc., at very low prices. A large line of double and single doors have just arrived, will go to great lengths. Another line can be found in this store.

N. Y. Plumbing Co., telephone 250.

Davis sells paint.

Council Bluffs Churches.

Sunday school at 9:45 and morning services at 11:00 is the schedule at Grace Episcopal church.

**Mariage Licenses.**

Licenses to wed were issued yesterday to the following persons:

Name and Residence. Age.

P. Hansen, Omaha..... 36

Doule Miller, Omaha..... 27

Charles A. Smith, Lincoln, Neb..... 26

Nellie L. Morrissey, Lincoln, Neb..... 21

### MEANS MUCH TO FARMERS

That French had threatened to shoot his wife and had even gone so far as to draw a revolver on her. She said she was afraid that unless he was placed under bonds to preserve the peace he would carry his threat into execution. French denied drawing a revolver on his wife or threatening to shoot her. He admitted that he had had a quarrel with her, but said all of his family troubles arose from too much mother-in-law. He gave ball for his appearance Thursday.

**New Elevator Also at Stake.**

The mandamus suit of the McCaul-Webster Grain company of Minneapolis against the Chicago, Milwaukee & St. Paul Railroad company, to be heard before Judge Green in district court Monday, means much to the farmers of northwestern Iowa. On the determination of this action will depend much for the farmers can get 2 cents more for their grain than they are getting now.

The suit is to compel the Milwaukee railroad to switch cars in which grain has been shipped over its line for transfer to the Union elevator in this city. The McCaul-Webster Grain company alleges that the railroad company refuses to allow the cars in which grain has been shipped to be removed from its tracks and that in order to transfer the grain to the elevator wagons and teams have to be employed. This is claimed, is such an expensive manner of transferring the grain that it practically puts an embargo on the shipment of grain to Council Bluffs.

Until within the last few months most of the grain bought by dealers in northwestern Iowa and Dakota was shipped to Chicago and from there to the Atlantic coast. The Chicago-New York trunk lines increased their rates on grain 2 cents per hundredweight. This caused the shippers to seek another route for their grain.

**Gulf Ports Get Business.**

The suit is to compel the Milwaukee railroad to switch cars in which grain has been shipped over its line for transfer to the Union elevator in this city. This is claimed, is such an expensive manner of transferring the grain that it practically puts an embargo on the shipment of grain to Council Bluffs.

At the trial, the court will be asked to determine whether the railroads can get 2 cents more for their grain than they are getting now.
