Markets Have Wheat Bayers to Thank for

ONLY SUSTAINING INFLUENCE ON BOARD

Statistics Are Strongly Bearish and Sudden Buying Activity Has to Overcome Natural Inclination to Sag.

CHICAGO. Nov. 18.—Heavy trading in wheat counteracted the weakening influences of strongly bearish statistics and steadiod other grains today. December wheat closed 15c lower, December corn a shade higher and December outs 15c higher. Provisions closed 125galac to 30c higher.

Wheat cables were lower, in sympathy with yesterday's decline here, and as a result December opened a shade to 15c depressed at 715galac to 716gc. Receipts, both northwestern and primary, were large; the increase in the world's visible supply as reported by Bradstreet's was 19,170,000 bu., against last year's increase of 1,500,000 bu., against last year's increase of 1,500,000 bu., against last year's increase of 1,500,000 bu., awas reported that Duluth would send 1,000,000 bu. to this market shortly. Clearances were very small and the early demand was small. All these factors depressed the market. December soon sold down to 715gc, but at this figure and around 75c for May buyers sprang up in great numbers. Liquidation had been liberal early but soon the trade developed to greater proportions than for months past. This offset the bearish statistics and brought stronger undertone to the pit, though in general bulls were somewhat distrustful. The cash situation sagged materially in favor of options. Local receipts were 111 cars. Minneapolis and Duluth reported 1,255 cars, making a total for the three points of 1,359 cars, against 530,000 last year. Seaboard clearances in wheat and flour equalled only 170,600 bu. The scaboard reported cleven loads taken for export.

Trade in the corn pit was an indifferent affair, casy in tone and following close after wheat. Stocks were reported as decreasing. The spot situation was depressed yesterday and the outside markets were buying at higher prices than Chicago, and though the weather favored shipment, estimates of receipts were small. There was a fair demand at times that suggested operations by the provision crowd. This was spasmodic, however, and largely sympathetic with wheat. December, which star

Oats opened slow and in sympathy with other grains. The trade throughout the greater part of the session was dull, though toward the close the cash demand improved and there was some buying by commission houses. The selling was scattered. December sold between 39%c and 39%c and closed firm, ½c higher, at the latter figure. Receipts were 319 cars.

Provisions opened slightly higher, on a good hog market, and quickly gained a firmer tone than it has had for some time, Shorts covered freely and there was a fair amount of investment buying and a better cash market. January pork, which opened 2½c up, closed 30c higher at \$15.90. January ribs 12½gibc advanced at \$7.87%.

Estimated receipts for tomorrow: Wheat, 50 cars; corn, 80 cars; oats, 160 cars; hogs, 45.000 head.

NEW YORK STOCKS AND BONDS. Minnesota Governor Rises Like

Specire on the Street.

NEW YORK, Nov. 19.—The stock market today was under the continued influences and factors which depressed values yesterday and discouraged speculation for an advance. Probably the outward movement of gold was the most effectual of these factors, but the expressed determination of the executives of northwestern states to use their influence to contest the operation of the Northern Securities company was an obvious influence, especially on the stocks of the transcontinental group. Union Pacific and St. Paul were especially affected. The argument that such opposition to the company was expected, owing to the statutes of the northwestern states intended to prevent consolidation, and that eminent legal counsel had co-operated to evade these prohibitions, was not very convincing in quieting apprehension, based on the assumption that the residents of those states are earnestly opposed to the spirit and purpose of the new company, leaving only the question open as to their ability to prevent by law its operation.

The bears sold the market actively on the announcement of the engagement of \$1,000,000 additional gold for export on Thursday, but there was a large demand to cover later in the day, when half of this engagement was cancelled and when the money market was seen to be unaffected. A jump of 2 centimes in the sterling exchange rate at Paris, a decline in the private discount rate there and a slight reaction here in exchange rates, both on London and the continent, reflected the relaxation resulting from yesterday's outgo of gold and aroused the hope that the largest part of the requirements are satisfied. There is still confidence expressed that the offerings of government bonds for redemption will maintain the ease of the money market, even if more gold goes out. It is not improbable that the selling of sovernment bonds comes indirectly apart from the interests who have to remit in payment of foreign obligations. It is evident that the exchange market is connered to a certain extent and ev Spectre on the Street. volves the retirement of circulation to the amount of the par value of the bond, off-setting that far the supply of money to the market. Such withdrawals of bonds have already reached the legal limit of \$1,000,000 per month for the present month.

There was some special strength shown today by individual stocks, notably American Car and International Power, on the urgent demand for railroad equipment of all kinds, and the express companies stocks, on account of the general business activity of the country. There were strong spots among the coalers and the local tractions. The market closed steady at a substantial raily from the lowest.

Railroad bonds were only moderately active at slight recessions. Total sales, par value, \$2,600,000. United States refunding 2s declined \$4 on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market today was inclined to duliness. Consols were heavy on a report that this week a New Zealand loan, varying from \$2,500,000 to \$2,600,000, is to be issued. American stocks were lifeless and very narrow, with not enough business to sustain the rise. New York gave no support and the close was dull, save Reading and Erle. The former touched record prices, \$250. They are talking of dividends on the second preferred, through the road's connection with New Jersey Central. Paris exchange is \$2,441.

The following are the closing prices on the New York Stock exchange:

LONDON. Nov. 12.—Money was in fair demand today and abundant. It is believed the government has been disbursing freely lately. The large exports of gold from New York have caused an easier tendency in discounts. Though the gold is going to the continent the market is confident that it will soon find its way here. The tone of the Stock exchange today was unsatisfactory. Most departments were dull. Consols opened a fraction better, but were afterward easier on the talk of a new loan. They ultimately recovered. Giltedged securities were strong on easier money. Americans opened dull, in eventually with the closing prices of New York yesterday, but were afterward steadier and then easier. The tendency at the closing was quiet. Readings were exceptionally strong, in expectation of a good October statement.

BERLIN, Nov. 18.—Locals and banks were active and strong today on the bourse owing to covering and speculative pur-

chases due to the coke syndicate fiving the new price higher than anticipated. Inter-nationals were firm. Canadian Pacifics renationals were firm. Canadian Pacifics reacted slightly.
PARIS, Nov. 15.—Business on the bourse today opened hesitating, but prices improved until the close. A rally in rentes stimulated foreigners, especially Spanish 4s, which were in good request. Russians were in demand. Thomson-Houston, Tramways and others substantially recovered. Rio tintos began firm on satisfactory fortinghtly statistics, but declined owing to English offers. The private rate of discount is unchanged at 2 13-16 per cent.

hands.

There was very little change noticeable today in the prices paid for bulls, calves and stags.

There was a liberal demand this morn-There was a liberal demand this morning for heavyweight feeders showing quality, and as there were not very many answering to that description in the yards good strong prices were paid. Prime yearlings also commanded fully steady prices. The medium weights, however, were slow and barely steady. Anything on the commonish order moved very slowly and in most cases sold lower. Common stockers in particular were a drug on the market, as no one seemed to want that class of cattle. Salesmen in a good many cases said they could hardly get a bid on their common stockers or on their common calves, and as a result they sold considerably lower.

The supply of range steers good enough for killers was very light today and the market was strong and active. Range cows also sold fully steady and so, also, did good to choice stockers and feeders. The common kinds, however, were dull and lower, the same as is noted above for the natives. Representative sales:

ST. LOUIS. Nov. 19.—WOOL—Firm; medium grade. 13@18c; light fine. 13@18c; heavy fine. 9@17½c; tub washed. 14@24c.

BOSTON, Nov. 19.—WOOL—There has been a very tair business in the wool market here this week, although not so large as the two preceding weeks, but dealers appear well satisfied with the trade. Values are fully as firm as a week ago and dealers continue to taik of a strong and firmer market. The stock of wool offerings on the market is materially reduced by the trading of the last three weeks. Some lines are narrowed down considerably, this is noticeable in quarter-blood Ohio and stable territory wool. Buyers who went west after the heavy sales here for the purpose of replenishing stocks did not succeed in purchasing much wool, as they found prices too high for them to land wool here and dispose of it at a profit. The outlook for the market here is considered very favorable. Foreign markets continue strong and wool selling here cannot be replaced from any other country. American Firm Gets Contract.

American Firm Gets Contract.

PHILADELPHIA, Nov. 19.—The American Bridge company of this city has secured a contract for the construction of twenty steel bridges along the line of the Uganda raliroad in East Africa. The amount of the contract is about \$1,000,000, Several English and continental firms offered bids, but that of the Philadelphia company was not only the lowest, but guaranteed the completion of the work in a shorter space of time than its competitors. The new bridges will replace wooden structures which were built several months ago and found to be inadequate.

NEW YORK. Nov. 19.—It is stated at the office of the National Salt company that the president of the new National Salt company will be E. L. Fuller, now president of the Retsof Mining company. A. S. White, the former president of the National Salt company, will be chairman of the board of directors. Both these companies are to be included in the International Salt company. The full board of directors to be elected has not been selected.

NEW YORK, Nov. 19.—Among the passengers who arrived today on board the steamer Allegheny, from Savanilla, were General Diego de Castro, special commissioner of Colombia, and his secretary, Antonio L. Armenta. General de Castro says his mission is to purchase war material and to prevent the purchase of such material by the revolutionists. He will go direct to Washington to consult the Colombian minister. THE REALTY MARKET.
