# MEADE DEBATE STARTS LAUGH

#### Colonel and Lauchheimer Discuss the Etiquette of a Host Counting the Fingers.

NEW YORK, Nov. 29 .- The judge advocate today closed the case for the government against Colonel Robert L. Meade of the marine corps at the trial by court-martial of that officer in progress at the navy yard, Brooklyn, and the defense at once began the submission of testimony. Lieutenants Beaumont, Hooker, Fryer, Dykman and Sullivan of the marine corps all testified that Colonel Meade was sober on March 1f and April 30 last.

The testimony of Colonel Meade before the court of inquiry was then read and it provoked an amusing debate between Colonel Meade and Major Lauchheimer as to the propriety of a host observing the size of drinks taken by a guest. The drinks in question were those taken at Meade's quarters by Lauchheimer on June 18 last.

The representatives of the intervening government in Cuba are already aware that their duty requires them not merely to be strictly impartial in the electoral contest in Cuba, but to refrain from interfering in any manner whatever with the free ex-pression of the wishes of the Cuban people. They have not violated this rule in the past and will not in the future. They will have nothing to do with the electoral con-test, except to efforte the electoral law prescribed by the constitutional conven-tion and promulgated by the military gov-ernor on October 14 last. This will be done impartially and effectively. It is quite unnecessary to assume that the officers of this government will be less faithful to their duty hereafter than they have in the past, or to recommend or di-rect that they shall perform a duty which bit of harroless easir applied.
