PARK COMMISSION PROVIDES FOR RINK

tanelle Park to Be Greatly Improved.

Children living in the vicinity of Miller park will have a free ekating pond this winter. At a meeting of the Board of Park Commissioners yesterday afternoon instructions were given the superintendent to make an outdoor rink near the creek that runs through the park.

This action was taken in response to a petition for such a place, received by the board. It was signed by scores of school children. They stated that the youth of the city near Bemis, Hanscon and River-view parks all had pends for skating, and these northenders wanted one also.

The board voted unanimously to grant the request. It will be done by flooding the excavation, which is about 100 feet east of the creek. This is about 200 by 250 feet filling about some bridges. By a little cutting down in one corner and filling in anpther the place can be completely flooded with a maximum depth of water not expeeding fifteen inches, so that it will be

To secure this water eight-inch piping will be run from the creek, which has a steady and sufficient flow. It will be necessary to dam the stream about two feet and a half high in order to get the water over into the pond.

Other action taken was the refusing to lease Fontanelle park any longer and provision for having Tawee, the dead buffalo, stuffed and placed in the museum at the city library. Fontanelle park comprises about 100 acres and has been used for farm purposes thus far. It will now be planted in trees and grass and preparations made for future improvements. The Millard Rifles were given permission to drill in Mil-

MODERN CHEMISTRY AND LIGHT

Enity Club Listens to Papers and Sees Some Practical Demonstrutions.

The Unity club met at the office of City Electrician Shurig last night and listened erick Warde in a new role. So finished was presented by W. H. Low. The speaker pathetic one, he received four curtain calls traced chemistry to the alchemists, who, in and was forced to make a speech, which he their search for the "philosopher's stone" and the "elixir of life," first made diswere later applied to the practical business of life.

In all the arts and sciences chemistry plays its part. It has succeeded expensive stances and has given to the world many new practical materials.

The second paper, "Modern Methods of Producing Light," will read by E. F. Bhurig and was illustrated by demonstrations, the electrician having provided for the instruction of his hearers the latest invention in electric lamps.

Taking up the subject of illumination lamp, the kerosene lamp, the gas burner when the tide turned in his favor. Warde and the earlier electric lamps to the latest | can sway an audience at will. lamp-that invented by Prof. Nernst of

He brought out the fact that the dis-

In explaining the Nernst lamp the speaker raid that its high efficiency was due to the peculiar construction of the "glower," which is composed of metallic oxides, which are not destroyed when rendered incandescent in open air, thus obviating the necessity for a vacuum.

In his demonstration it appeared that the "glower" became incandescent much more slowly than the carbon loop in the ordinary incandescent lamp, but the light was more powerful and perfectly steady, combining the best features of the arc and incandescent lamps. The new lamp is operated with an alternating current, which preserves its efficiency longer than when a

direct corrent is used. The speaker said that the future development will probably be along the line of the vacuum tube, the experiments of Geisler by Kuhn & Co., druggists. and Crooke encouraging investigation along those lines, while the experiments of Nicola Tesla with alternating currents of high frequency and a paper read by McFarlan Moore on the subject show the hope of the experimental electricians.

Every one is in danger who neglects the warnings of declining health. The warnings are not as startling as the sudden shrick of a locomotive, but they are just as ominous. When the body begins when the check is hollow and the

that the body is failing of proper nourishment. It is a condition of "weak" stomach, and "weak " stomach soon involves other organs. Dr. Pierce's Golden Medical Discovery cures diseases the stomach and other organs of digestion and nutrition, and cures through the stom-

ingly remote, but which have their origin in the disease of the stomach and

its allied organs.

There is no alcohol in the "Discovery" and it is absolutely free from opium, cocaine, and all other narcotics.

Before I commenced to use your medicine I was in a bad condition (for eight years), and four doctors treated me," writes Mrs. Bettle Askew, of Garysburg, Northampton Co., N. C. "They, of course, gave me at the time some relief, but it did not last long. I was some days in my bed and some days I dragged about the house. I have used five bottles on the 'Golden Medical Discovery' and five of the 'Pavorite Prescription' and four vials of the 'Pellets.'
Now I feel like a new woman, and I want the world to know it."

Dr. Pierce's Medical Adviser, 1008 large pages, paper binding, sent free on 21 one-cent stamps to pay expense of mailing only, or at stamps for it in cloth binding. Address Dr. B. V. Pierce, Buffalo, N. Y.

Charged with Trying to Extort Money from C. W. Wells, & Braughtsman.

Patrolman Thomas Norris was relieved from duty yesterday afternoon by Chief of Police Donahue, pending a hearing before TOLEDO FIRM SPEAKS FOR ANOTHER ISSUE the Fire and Police board of charges of blackmail preferred by C. W. Wells, a draughtsman in the employ of H. J. Cow- Buys the Last and Makes an Offer for

According to the story told by Wells, Norris has been attempting since last Saturday night to hold him up for a sum of money as the price of freedom from arrest Wells became involved in a quarrel with a pegro on Sixteenth street near Jefferson square between 10 and 11 o'clock Saturday night. As Patrolman Norris was about to arrest Wells the latter claims to have said, "Don't arrest me and I'll fix it with you." Wells says that the officer then escorted him to his boarding house at 511 North Eighteenth street. He also claims that the officer came to his place of business on Tuesday evening and again on Wednesday

evening and demanded \$20. Patrolman Norris denies Wells' charges not responsible for what he says. I went to his office at his invitation, but no money was offered, I asked for none and would have taken none. I am entirely innocent and was made when earth was secured for and I welcome the investigation which Chief Donahue has set on foot

cial Territory.

Arthur C. Smith and Ward Burgess espectively the president and vice president of the M. E. Smith Dry Goods company, have returned from California, where they opened a branch of the house at San

"We had long been of the opinion tha California was as much the territory of Omaha as it is of any other town in the country. For several years we have come into competition with ocean freights in our business in Washington, Oregon and Utah and found that, taking all things into consideration, we could successfully compete We had sold manufactured with them. goods in California before, but have never pened up a general line for that state. Mr. Freindlich is now located in San Francisco. with an office, and will work both north and south from that city as far as he can. More men will be put on as the development of the territory warrants. California is good territory and we expect to do a

SPECIAL SESSION OF COUNCIL

good business."

Mayor Moores Calls It to Act on the Union Pacific Con-

Mayor Moores last evening issued a cal for a special meeting of the city council to be held at 11:30 this morning. The session was stated in the call as being "for the purpose of introducing ordinances, considering and reading ordinances the first and second time, and referring any such ordinances to committees."

The matter to be brought up is the ordinance containing the Union Pacific contract with the city, which is now completed. It was thought by some that the second ordinance granting the Northwestern railway right-of-way along Eighth street would be considered, but that would be on third reading, and the verbiage of the call forbids the discussion of such documents and any action upon them.

City's Credit is Good with the Bond Bayon at Present.

the Maturities of Next Year-Proposition Considered

a Good One.

The recent issue of South Omaha refunding bonds has been purchased by Spitzer & Co. of Toledo. This issue is made up of \$35,344 special district bonds wherein the courts have declared the improvement tax illegally levied and \$24,536 in general indebtedness refunding bonds. Word was received by the city clerk yesterday that Spitzer & Co. would take the issue at 6 per cent and the offer was immediately accepted. Along with the acceptance came an offer to purchase all of the maturities absolutely. He said: "This man Wells is of the city for 1902 at the same rate of interest. As soon as Mayor Kelly returns there will be a conference and it is thought that the city will be glad to make the sale at the premium offered. If the sale is made at this time there will be no need for the finance committee to worry next year and no maturities will go by default. as has been the case during the last twelve months. Councilman Ed Johnston and Treasurer Koutsky are now engaged in figuring up the next year's maturities in order to submit the histories to the Toledo bond company.

In speaking of this proposition yesterday a well known banker said that he considered the proposition a good one. "If the bonds of the city are not allowed to de fault for a whole year the credit of the city will be high and when the 1903 issue becomes due there will be no trouble in disposing of the securities."

The members of the council who have read the Spitzer proposition are favorable to it, as they desire to escape the trouble and annoyance of having to borrow money each time issues of bonds become due. There is little doubt but that the proposition will be accepted by the city.

That Warrant Call.

The holders of the overlap warrants are greatly interested in the coming decision of Treasurer Koutsky as to whether he will call the overlap warrants when he makes a general call in January. A business man who handles large num

bers of city warrants in the course of a assert that they are Treasurer Koutsky's Koutsky has no bond. The bond he filed prior to the new charter was never approved by the mayor, although the council pealed and Koutsky has never furnished the issued by the main office to the broker, and distressing conditions at home. Her mother bond provided for in the charter as it now this plan will be adopted by the company in being sick of pneumonia. I told her that I exists. Waiters' Union Has So Objection to the Negro and is Willing to Organize Him.

Fred Bauman, business manager of the Waiters' union and organizer of that union. takes exception to a recent report which has gained currency to the effect that the union had resolved to make war upon the

colored waiters of the city.

"I wish to deny this report," said he. "The Waiters' union does not desire to make war on the colored waiters and the National union stands ready to organize a union of these men as soon as they express a wish for such action. In organizing the restaurants and hotels of the city the union left a class of houses which employ a large number of colored waiters out of any attempt to force the employment of union waiters. We recognize the fact that the colored waiters are entitled to employment and no attempt has been made to take them from the regular hotels. I must say, however, that the last attempt to organize the colored waiters in this city was a failure, as from the first there was a clash as to the officer who would handle the funds, and when the organizer decided that all funds should be paid to the financial secretary and by him to the treasurer, the recording secretary left the hall with the books and no more meetings were held.

'Another report is that the union opposes the formation of the union of restaurant and botel men. This is a mistake. In many places we have found that such a union is of benefit not only to the employer, but to the employe, as the employe can deal with his employer as a class and not with individuals. By union the employer is brought to see that the interests of employer and employe are identical and have no reason to oppose the

WORKER TELLS SOME FUNNY STORIES

Personal Experiences with the Needy Show a Peculiar and Not Uninteresting Phase of Human Character.

The noonday feast throughout the city Thursday by no means constituted the en tire Thankselving among the city's poor As a matter of fact those who were engage in the distribution of food and clothing were kept busy all afternoon and over at the City Charities station, at Eighteenth and St. Mary's avenue, the work was still

in progress yesterday. The work this year was conducted some what differently than usual, the general distribution being done chiefly by organizations in which men had the supervision, and according to a group of youngsters who ought to know, if experience counts for anything, "'Twasn't no Thanksgivin' 'tall th' jist giv's some close and some stuff to lug home to cook, septin' down to the Voluntees!" The same estimate of what really constitutes Thanksgiving was evidently shared by some of their elders as well, for there was no little comparison among them between the substantial, wholesome though uncooked food given out to them and the baked chickens and other prepared food which was so generally supplied last year. In speaking of the work, Mrs. T. F. Pearman, superintendent of the City Charities, and one of the most experienced workers in

the city, said: "Of course, many of them are unworthy but that cannot be helped and we feel that we have reached most of the deserving ones, having supplied over 500 families, most of whom we know. It is a difficult matter to discriminate, for these people are possessed of a common characteristic that to the un-Boyd from the manager of the St. Louis experienced would mark them all as unoffice of the Boyd Commission company in- grateful and unworthy. AN OPEN LETTER

Addressed to Women by the Treasurer of the W.C.T.U. of Kansas City, Mrs. E. C. Smith.

"My DEAR SISTERS: - I believe in advocating and upholding everything that will lift up and help women, and but little use appears all knowledge and learning if you have not the health to enjoy it.

"Having found by personal experience that Lydia E. Pinkham's Vegetable Compound is a medicine of rare virtue, and having seen dozens of cures where my suffering sisters have been dragged back to life and usefulness from an untimely grave simply by the use of a few bottles of that Compound, I must proclaim its virtues, or I should not be doing my duty to suffering mothers and dragged-out housekeepers.

"Dear Sister, is your health poor, do you feel worn out and used up, especially do you have any of the troubles which beset our sex, take my advice; let the doctors alone, try Lydia E. Pinkham's Vegetable Compound; it is better than any and all doctors, for it cures and they do not."-Mrs. E. C. Smrth, 1212 Oak St., Treasurer W. C. T. U., Kan-

MRS. E. C. SMITH.

What is left for the women of America after reading such a letter as the above, but to believe. Don't some of you who are sick and miserable feel how wicked you are to remain so, making life a burden for yourself and your friends when a cure is easily and inexpensively obtained? Don't you think it would pay to drop some of your old prejudices as Mrs. Smith says, and "Try Lydia E. Pinkham's Vegetable Compound, which is better than all the doctors for cures?" Surely, the experience of hundreds of thousands of women whom the Compound has cured should con vince all women of the wisdom of taking the advice that Mrs. Smith offers in her letter above published.

Read What Mrs. Burnham says: "DEAR MRS. PINERAM: - Words fail to express how thankful I am to you your advice, and I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound. I was sick for three years with female weakness: I bad dizzy spells, headache, backache, feet and hands were cold all the time, would get tired and faint very easy I also had dropsy and was troubled with leucorrhea. I suffered for two weeks before each menstrual period and my

ovaries would swell very badly. I took lots of medicines from doctors, but received no benefit. To please my husband I tried Lydia E. Pinkham's Vegetable Compound, and I am now a well woman, and your Compound alone did it."—Mrs. H. W. BURNHAM, Russell, Mich. (Jan. 31, 1901). Follow the record of this medicine, and remember that these thousands rought about by "something else," but by Lydia E. Pinkham's Vege-

table Compound, the great Woman's Remedy for Woman's Ills. Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want — a cure. Moral — Stick to the medicine that you know is Best. Write to Mrs. Pinkham for advice.

REWARD. — We have deposited with the National City Bank of Lynn, \$5000 which will be paid to any person who can find that the above testimonial letter are not genuine, or were published before obtaining the writer's special per mission.

HEAD NOISES CEASE IMMEDIATELY.

Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours.

F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and YOU CAN CURE YOURSELF AT HOME at a mominate cont. INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL. .
