

OVATION TO GENERAL ALBAN

Conservatives Welcome the Victor with Loud Demonstrations.

TO CROWN HIM WITH HIGH OFFICIAL HONOR

Triumph at Colon May Result in Placing Alban in Most Exalted Service of the Republic.

COLON, Nov. 30.—The town is full of troops from Baranquilla. Over 700 soldiers landed from the gunboat General Pinzon last night. These belonged in the interior of Colombia and are fine, able-bodied men and veteran troops, having taken part in many previous engagements. Among them are a few of the female relatives of the soldiers. General Alban returned to Panama yesterday afternoon. On Thursday, by cutting a passage through the wood, unknown to Colonel Barrera, who occupied a small hill at Buena Vista, a detachment of the government forces attacked Barrera's troops in the rear. A cross-fire in both front and rear resulted in disaster to the attacked and the ultimate surrender of the town. The government lost in the Buena Vista engagement Captain Juan Episcopo and several other officers.

From Panama comes the news that the surrender of Colon to the government struck the liberals like a thunderbolt and that they are still unable to realize the fact that the city is again in the hands of the federal authorities.

High Honors for Alban General Alban's Colon triumph, with the aid of the troops from the gunboat General Pinzon, is regarded here as an achievement that may possibly lead him to the highest honors in the service of the republic. He was welcomed at the railway station last night by a large crowd. He went from the station to the barracks under escort of a searchlight procession, headed by a band. Along the line of march many "vivats" were heard and there was much firing of rifles. The restaurants were open until 10 o'clock in the evening for the first time in many months.

The recapture of Colon is admitted to be almost a deathblow to the liberal cause in this department. There is no doubt that guerrilla warfare will be resumed in the mountains, but stronger forces and better organization are considered essential requisites for the liberals if they intend to resume the struggle seriously.

Both Panama and Colon are quiet. Trains on the railroad still carry armed American guards and are running on time. The German man-of-war Stein arrived at Colon last night.

Lillian temple of Rathbone Sisters is notified of the death of Sister Irving at the Presbyterian hospital, on Saturday at 8 p. m. Notice of funeral later. Anne Forby Coy, R. E.

MR. RALPH BINGHAM,

Philadelphia's Most Popular Singer and Entertainer, Pays High Tribute to

DR. BULL'S COUGH SYRUP.

PHILADELPHIA, Pa., Sept. 11, 1901. Gentlemen: In my work as a monologist, singer and entertainer, I frequently find the strain on my throat so exhausting as to practically make it impossible for me to continue without resorting to a tonic. A long lecture often leaves me with a very sore throat, and in such cases I find that Dr. Bull's Cough Syrup simply invaluable as a soothing and strengthening remedy. I think of this remedy that I am never at home without a bottle of it, and on my tours throughout the country never fail to include Dr. Bull's Cough Syrup in my grip. In fact, it is as essential to my success as my songs, stories or violin. Very truly yours, RALPH BINGHAM.

Watch Our Windows ESPECIALLY THIS WEEK—There are things there that will interest you. The NECKWEAR we show at \$2.50 is not the kind usually shown for this price.

DR. MCGREW (Age 63) SPECIALIST. Diseases and Disorders of Men Only. 25 Years' Experience. 15 Years in Omaha.

VARICOCELE cured in less than 10 days. All Blood Diseases cured. SYPHILIS and all other venereal diseases cured. OVER 20,000 cases cured of nervous and all unnatural weaknesses of men.

OHARCES LOW. Treatment by mail. P. O. Box 104. Office over 25 S. 14th street, between Farnam and Douglas Sts., OMAHA, NEB.

AT ELKS' LODGE OF SORROW

Services at the Boyd This Morning Will Have a Beautiful Program.

The lodge of sorrow to be held by the Elks' lodge of Omaha at Boyd's opera house this morning will be one of the most attractive and imposing seasons ever held on a similar occasion in this city.

The musical numbers are especially strong. The instrumental numbers are in charge of E. Norden and will be rendered by the Boyd theater orchestra, beginning with the song, "Auld Lang Syne," including Sullivan's "Lost Chord," Rubenstein's "Melody in F," Handel's "Largo," and closing with "The Priests' March" from "Athalia."

Other musical features will be a contralto solo, "At the Old Cathedral Door," to be sung in Omaha for the first time by Miss Clara Edna Street of Plattsmouth. The words of the song were written by Mrs. Letitia E. Burton of Plattsmouth and the music by Miss Kittie Cummins of the same city. Those who have heard the song pronounce it excellent, and in their home city both the writer, the composer and the soloist enjoy high reputations.

Other musical numbers will be "Lead, Kindly Light" and "The Vacant Chair," by the Elks' quartet, consisting of Clinton Miller, J. V. Wisneman, Walter C. Nelson and Thomas F. Swift. Mrs. Estella Blank will render, as a solo on the harp, with piano accompaniment, "The Holy City" and a "Reverie." Mrs. Cora Lathrop Patterson will sing "Save Me, O God" and "Some Sweet Day." Mrs. John C. Drexel will sing "Trusting in God" and Mrs. W. E. Hitchcock will render a contralto solo, "Face to Face," while in the opening and closing of the lodge and audience will be led by the quartet.

Two orations will be delivered, one by Ed. P. Smith and the other by John L. Webster. A. Elliott Miller will act as chaplain. A stellar attraction of the first class was secured by the Elks' memorial committee yesterday afternoon. The committee, accompanied by George Vidsonhaier, the ex-lord ruler of the Omaha lodge, waited on Mr. Frederick Ward, the eminent actor and enthusiastic Elks, and cordially invited him to talk on "Elksdom," a subject which is very near and dear to his heart. Mr. Ward is a member of St. Louis lodge of Elks and holds an honorary life membership in ten different lodges throughout the northwest, where he is known as "the father of the Elks." His talk will follow the contralto solo, "At the Old Cathedral Door." Manager Traill of the Frederick Ward company is a member of New York lodge No. 1 of twelve years' standing, and there are several other Elks in the company. They will all join with the Omaha Elks at the lodge room at 9 a. m. and proceed with them thence to the theater. The women in the company will occupy one of the boxes.

The public is cordially invited to attend this service. Fifteen ushers will be in attendance to seat all who come. No tickets are required. Strangers to say, some people had an idea that a collection would be taken up for charitable purposes. Nothing of this kind is ever done by the Elks. Every dollar that they give in charity comes from the annual benefit and from the members of the lodge.

AUDITORIUM GRADING IS DONE

Excavation Complete and High Board Fence to Be Erected.

Grading for the Auditorium building was completed yesterday afternoon and a temporary fence was built around the ground. The board of directors will immediately advertise for bids for construction if the proposed change in the articles of association is authorized by the stockholders at the meeting to be held December 15. The subscriptions now aggregate about \$140,000, and it is expected that the balance of the articles are amended according to the proposition of the board of directors the company will have power to incur an obligation of approximately \$83,000, which, with the amount of money which can be collected as the building progresses, will be sufficient to complete the building.

Each Indian brave who took part in the recent football game was given an Auditorium brick as a souvenir of the occasion.

WRECKS A PUZZLE SWITCH

Northwestern Switch Engine Mixes Up the Union Pacific Block System.

A Northwestern switch engine went into an open switch in the Union Pacific freight yards just east of Thirteenth street at noon Saturday and caused much damage to the interlocking switch and signal system. The engine wrecked a complicated "muzzle" switch and blocked traffic in that portion of the yards for the remainder of the day. It required the work of a large gang of men all afternoon to place the tracks in condition to run over, while the repairs to the interlocking switch system will require much longer. It is estimated that the damage to the system alone will reach \$200.

Medical Batteries

We carry a complete line of Batteries for Family, Physicians and Hospital use. We have a good family battery for \$2.50. Call and see us. No trouble to show goods.

The H. J. Penfold Co.

Medical and Surgical Supplies. 1425 Farnam St. OMAHA.

Fire, Smoke, Water Sale

In the art department the stock damage was light—mostly smoke—which was easily removed, (except where paintings were entirely destroyed.) The insurance adjusters made the allowance big enough so that we will sell all Framed Pictures at one-half price.

A. HOSPE, Music and Art. 1513-1515 Douglas.

ALASKA HAS ITS ADVANTAGES

Not a Barren, Ice-Covered Desert by Any Manner of Means.

CLIMATE AND RESOURCES ARE VARIED

Great Need of the Region Just Now is a More Compact Form of Local Government.

G. C. Hazlett of Alaska is in the city, the guest of George A. Mead. Mr. Hazlett has been interested in the Copper river in Alaska since 1898 and speaks in glowing terms of the country. Those who imagine that Alaska is a barren, glacier-covered region will be surprised at the story of Mr. Hazlett, made after five years' experience in that possession of the United States.

"Alaska," said he, "contains more square miles of land than all of the United States east of the Mississippi river, so when one speaks of that country he has to use general terms, for what is true of one part may not be true of all, but so far as known one thing is true of the entire region, and that is that gold deposits exist in varying quantities wherever it is possible to develop them. Gold has been found in the Klondike, English territory east of the Alaskan line. Gold has been found at Cape Nome on the western coast. Gold has been found on the Copper river and is being mined at Circle city, in the northern part of the country. On the Yukon river, between these points gold has been discovered at several places and the ground has not been more than scratched in any place. A large part of Alaska is south of settled portions of Norway and we have the Japan current along the shore which greatly modifies the otherwise Arctic temperature. At Valdez, the metropolis of the main land of southern Alaska, the thermometer never falls below 10 degrees below zero, while a few miles away, just across the coast range of mountains, temperatures of 40 and 50 degrees below are not uncommon, but with this low temperature the air is dry and there is little wind. Last winter a force of men lived in tents north of the mountains from November to March, working every day, and suffered little discomfort.

Woman's Work in Club and Charity

The third of the series of lectures arranged for the English literature department of the Woman's club this season will be given at 10 o'clock on Thursday morning in the auditorium of Creighton university by Rev. Father W. P. Rigge, his subject to be "Newton and His Works." He will speak especially of the great discovery of the law of universal gravitation, giving accounts of the various systems proposed before the time of Newton, and will illustrate the work of Newton in placing our knowledge of planetary motions upon a secure mathematical basis. The subject, though mathematical in its nature, will be illustrated by experiments and brought down to the understanding of the non-professional mind, and promises to be one of the most interesting that has yet been given. There will be no admittance charged and a general invitation is extended to all who are interested in the subject.

With Christmas so near at hand, so less than a dozen women's societies are giving, or about to give bazaars, fairs, oyster suppers and like affairs for the benefit of their work, and the general public who have not time to make their own Christmas gifts. The list for this week includes several really unique affairs that are a wide variation from the old formula by which the society derived the greater share of the benefits.

On Thursday and Friday of this week the women of the First Congregational church will hold a bazaar and at 6 o'clock on Friday evening will give an oyster supper at the club.

On Friday the women of St. Mary's Avenue Congregational church will conduct a Christmas market which they assure their friends is to be an innovation. To be sure, there will be fancy things for sale, but they are to be "shown" after the manner of the country store, which method they propose making a most interesting and amusing feature.

low zero, while a few miles away, just across the coast range of mountains, temperatures of 40 and 50 degrees below are not uncommon, but with this low temperature the air is dry and there is little wind. Last winter a force of men lived in tents north of the mountains from November to March, working every day, and suffered little discomfort.

Corps Are Proliferous. Wheat, oats, barley and similar grains mature in that country and along the valleys of the interior the native grass is abundant. This grass is the greatest fattener of stock I have ever seen. Within two weeks after cattle are turned upon it they are ready for the butcher, and they can be grazed, ordinarily, from May until the middle of September. The yield of grain is remarkable. Of course, the quick-growing varieties must be planted. Near our camp on the Copper river, 200 miles north of Valdez, we have raised all kinds of small vegetables, such as radishes, lettuce and onions, and potatoes mature in that valley. There is no doubt that a large part of Alaska will be self-supporting as soon as the people there realize what can be done in an agricultural way.

In addition to agriculture there are other industries which can be developed. A Minneapolis syndicate and an English syndicate this year purchased large holdings on Kenai peninsula, near Cook's inlet, and will develop the petroleum and coal fields which have there been discovered. This coal, it is believed, will solve the question of American coal for American ships on the Pacific coast.

Need Better Government. What Alaska needs is a change in the form of government. We should have a delegate in congress to provide for the territory. At the present time every industry pay a direct tax to the United States, part of which is set aside for the school fund and the remainder turned into the general treasury. The United States pays all of the governmental expenses, but we Japanese current along the shore which greatly modifies the otherwise Arctic temperature. At Valdez, the metropolis of the main land of southern Alaska, the thermometer never falls below 10 degrees below zero, while a few miles away, just across the coast range of mountains, temperatures of 40 and 50 degrees below are not uncommon, but with this low temperature the air is dry and there is little wind. Last winter a force of men lived in tents north of the mountains from November to March, working every day, and suffered little discomfort.

Woman's Work in Club and Charity

For weeks the members of the Young Women's Christian association have collected and contributed "things" for a bazaar to be held during the holidays. The Parish Aid of Trinity Cathedral will give a musical on Monday evening at the residence of Mr. and Mrs. Herman Koutz to which over 200 invitations have been sent out.

The women of St. John's Episcopal church at Twenty-sixth and Franklin hold their bazaar on Thursday evening. There is demand among the members of the Young Women's Christian association for a current topics club and it is probable that one will be formed soon. The members of the Margaret Fuller literary club of the South Branch met as usual on Monday evening and went in a body to the home of Mrs. W. P. Hartford, where Mrs. Hanchett delivered the address on "Literature in the Home," the first of the series of parlor talks to be given for the benefit of the members this winter. The delegation numbered seventeen. The regular meeting will be held tonight.

A small but enthusiastic meeting was held at 2 o'clock yesterday afternoon at the Chapel of the Carpenter, Second and William streets, for the purpose of organizing an auxiliary to the Omaha Woman's club. In the absence of the president, Mrs. T. H. Dumont, the vice president, Mrs. J. H. Dumont presided. The active work of organization was deferred until next week, yesterday's meeting being chiefly preliminary. The women were addressed by Mesdames Dumont, Towne, Jaynes, Tong and Furman.

The regular December meeting of the Woman's Christian association will be held Tuesday, December 3, at 10 a. m., in the parlors of the Young Men's Christian association.

A Water Proof Shoe

For women is decidedly new and can only be had from Drexel L. Shoeman. We had them made to our order so that we could give the women just such a shoe as we have been giving the men—This is not as you might suppose—a clumsy shoe—on the contrary, they are neat, dressy, lightweights—the masculine last and toe, with wide extension soles and vital kid uppers, treated by a new patent process that makes them absolutely water tight—an ideal shoe for winter service, combining grace and comfort—sizes 3 to 8—width A to E—\$4.

Drexel Shoe Co.

Our Gold Medal

Chocolate bon-bons are pure, fresh and delicious. No where will you find so pure a line of choice candies as at our store. The test of the pudding is in the eating. We would like you to apply this test to our delicious candy. Nothing so dainty, so elegant and so acceptable as a fancy box of Balduff's fresh bon-bons or chocolates put up in novel and useful packages, such as work-baskets, glove boxes, handkerchief cases and many other forms. Take home a box with you today.

W. S. Balduff, 1520 Farnam St.

so. Until a few years ago there were no correct charts of the Alaskan coast. Today the coast is surveyed as far as Valdez and the survey will be continued around the west coast. Captain Ateromble of the army is opening a military road from Valdez to Eagle City and has the road opened, after a fashion, to the Tanana hills two-thirds of the way across. When this road is completed by the Yukon river we will be able to go over the country on American soil. A line of telegraph is being extended by the government from Valdez to Eagle City and another line from Eagle City to Nome, thus opening up a considerable portion of the country. With more attention paid to Alaska by the government that country will become one of the richest possessions of the United States.

TO CHECK CONTAGIOUS DISEASE

County Commissioners Make Plans for Better Control of Epidemics.

At a meeting of the Board of County Commissioners held yesterday morning the commissioners discussed the care of contagious diseases and drafted resolutions advising that greater care be exercised in quarantining persons suffering with any contagious or infectious disease. The board declared that public funerals for persons dying with such diseases should be prohibited.

The committee on courthouse and jail was instructed to order files and cases for the equipment of the vault in the office of the county judge. A Good Cough Remedy. (From the Gazette, Toowoomba, Australia.) I had Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockner. This is the opinion of one of our oldest and most respected residents and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

DO NOT NEGLECT YOUR KIDNEYS

Because if Kidney Trouble is Permitted to Continue Fatal Results are Sure to Follow.

Thousands Have Kidney Trouble and Never Suspect It. To Prove what Swamp-Root, the Great Kidney Remedy, will do for YOU, every reader of the "Bee" May Have a Sample Bottle Sent Free by Mail.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. Your other organs may need attention—but your kidneys most, because they do most and need attention first. If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

The mild and immediate effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root will set your whole system right, and the best proof of this is a trial. Dear Sir: I had been suffering severely from kidney trouble. All symptoms were on hand, my former strength and power had left me; I could hardly drag myself along. Even my mental capacity was giving out, and after I wished to die. It was then I saw an advertisement of yours in a New York paper, but would not have paid any attention to it, had it not promised a sworn guarantee with every bottle of your medicine, asserting that your Swamp-Root is purely vegetable, and does not contain any harmful drugs. I am seventy years and four months old, and with a good conscience I can recommend Swamp-Root to all sufferers from kidney trouble. Four members of my family have been using Swamp-Root for four different kidney diseases, with the same good results. With many thanks to you, I remain, Very truly yours, ROBERT BERNER.

You may have a sample bottle of this famous kidney remedy, Swamp-Root, sent free by mail, postpaid, by which you may test its virtue for such disorders as kidney, bladder and uric acid diseases, poor digestion, when obliged to pass your water frequently night and day, smarting or irritation in passing, brick-dust or sediment in the urine, headache, backache, lame back, dizziness, sleeplessness, nervousness, heart disturbance due to bad kidney trouble, skin eruptions from bad blood, rheumatism, diabetes, bloating, irritability, worn-out feeling, lack of ambition, loss of flesh, sallow complexion, or Bright's disease. If your water when allowed to remain undisturbed in a glass or bottle for twenty-four hours, forms a sediment or settling out, or has a cloudy appearance, it is evidence that your kidneys and bladder need immediate attention.

If you have the slightest symptoms of kidney or bladder trouble, or if there is a trace of it in your family history, send at once to Dr. Kilmer & Co., Binghamton, N. Y., who will gladly send you by mail, immediately, without cost to you, a sample bottle of Swamp-Root and a book containing many of the thousands upon thousands of testimonial letters, received from men and women cured. Be sure to say that you read this generous offer in the Omaha Sunday Bee.

Swamp-Root is pleasant to take and is free for sale the world over at druggists in bottles of two sizes and two prices—fifty cents and one dollar. Remember the name, Swamp-Root, and the address, Binghamton, N. Y.

THE GREAT WATER DAMAGE SALE

Crowded the store to its utmost capacity. Monday the great sale continued on main floor and in basement. The slightly soiled stock must go, cost and value not considered. DON'T MISS THIS SALE.
