OUTSPOKEN VIEWS OF THE STATE PRESS

What People Are Saying About the Shady Transactions by Which Patrimony of the Schools Has Been Milked.

The explanations of the shady school fund bond deals offered by and for Treasurer Stuefer are not regarded as satisfactory by the people and more especially by republicans...

Grand island independent (rep.): State Treasurer Stuefer would, it is promised, explain the Cumula county deal, in which the Bee stated Stuefer's business associates had bought \$50,000 worth of refunding bonds...

Governor Savage, too, is apparently not taking the people into his confidence. He says he does not know that any charges have been made against Stuefer...

However, with charges of such gross manipulation as have been made by the Bee, answered by an "explanation" that will be unsatisfactory to everyone who reads carefully the disbursements...

Central City Nonpareil (rep.): To put it charitably, there is something that looks very shady about State Treasurer Stuefer's methods of converting the state school funds into bond investments...
