exception of 1899, when over 90,000 head ar

vember has been very liberal, and in fact is the heaviest in a period of years with the exception of 1899, when over 10.000 head ar-rived. The demand for the better grades of cat-tie has been in good shape all the week at this point, and particularly for good to choice cornfed steers. As was noted a week ago, the range of prices is constantly grow-ing wider, as choice cattle are advancing while common and half fat cattle are going down and are very slow Fale. The top price of the season so far is 7.25, so that good to choice cattle may be quoted from \$600 to \$7.25. The situation for the week can, perhaps, best be described by calling the better grades steady to strong and active, and undestrable grades slow and unevenly lower. Good to choice cows and helfers are 10% is higher than they were a week ago and in good demand. Cornfed stock is now beginning to arrive and a good bunch of long-fed cows would probably sell as high as the better grades all on good quality. It takes a choice bunch of cows that have not been fet to sell up to \$5.50, where they are fat and of good quality. It takes a choice bunch of cows that have not been fet to sell up to \$5.57. The canner market has also picked up a little this week, and are up on the sa steady for the week. Canners are selling from \$1.75 to \$2.25, and medium grades from \$2.25 to \$3.00. Buils, calves and stags are just about steady for the week, no particular change having taken place. The better grades of stockers and feeders have been in good demand all the week at just about steady prices. A choice bunch of heavyweight feeders will bring right around \$4.00 and prime yearlings sell in about the same notches. The less desir-able grades sell from \$3.75 down. The better grades of stockers and feeders have been in good demand all the week, but still packers are not as anxious for that class of calle as they were a short time around \$4.00 and prime yearlings sell in about the same notches. The less desir-able grades sell from \$5.75 to \$4.00. Repre-sentative sales

quoted a triffe higher, while rice and beams have eased off a triffe. Regarding the condition of trade local jabbers say that the demand during the last month has been surprisingly large and much better than they expected. Retailers have been very heavy buyers all the fail and as their purchases continue larger than usual it is good evidence that the goods bought earlier in the season have gone into consumption. When wholesalers compare the trade they have been having this fail with that of a few years ago they find a good example of the way people can economize even in groceries when it is necessary. It is evident from the lines that are in demand and the smount that is going into consumption that people out through Nebraeka and surrounding states have plenty of money with which to sup-ply their wants and that they are not afrid to spend it. St. Joseph Live Stock Market.

Steel Goods a Little Lower. The most important change in the hard-ware market was the decline in steel goods, ranging from 15 to 20 per cent. Some times declined even more than that, while the average is between 15 and 20 per cent. The change takes effect at once, but, of course, it does not effect immediate busi-ness to any extent, as there is not much of that class of goods going out at the pres-ent time. Local jobbers are of the opinion that class of goods going out at the pres-ent time. Local jobbers are of the opinion that the prices now in force will hold good during the coming season. In other lines the market is practically the same as it was a week ago and the general market may be said to be in a good, healthy con-dition. The demand for strictly cold weather for such lines as barbwire and builders' material. The mild weather makes is pos-sible to carry on all kinds of out-of-does work, so that jobbers are doing a good a little neglected. Dry Goods Market More Active. ST. JOSEPH. Fruits and Produce. It has been a long time since the Thanks-tiving trade moved along as smoothly in the produce district as it did this year. There was not a particularly heavy de-mand, but at the same time it was large enough to take what was offered without any mater'al change in prices. A number of fancy lines were affered and they also sold at very satisfactory prices. As com-very few fluctuations that are worthy of held steady up to Thanksgiving and the supply was so well cleaned up that there was no break the last of the week. Com-mission men look for s good steady mar-ket for another week at least, unless re-ceipts should be much heavier than they anticipate. Butter and eggs are also steady with the quotations of a week as an advance. The only change in fruits is an advance in apples amounting to about 50c per barrel. The demand is heavy all over the country and present indications point to high prices at al desirable. 17c. EGGS-Strictly fresh slightly more plenti-ful; market steady, fresh Missouri and Kaneas stock quoted on change at 21c doz, loss off, cases returned; country held stock.
