SEEKS TO ROUT COUNTY TREASURER

Alleges that Wright Used Unlawful Practices to Secure Nomination—Pre-Election Promises and Cigars are Specified.

BEATRICE, Neb., Dec. 3.—(Special Telegram.)—Contest proceedings were filed in county court this evening, signed by J. S. Rutherford, chairman of the democratic county central committee, against W. W. Wright, successful republican candidate for county treasurer.

The petition alleges that Wright used unlawful practices by which he received his nomination, alleging that Wright tendered the deputyship to James P. Saunders, who was then the leading candidate in the convention, at a stated salary of \$1,800 in return for Saunders' support in the convention which made Wright the candidate.

The petition further alleges that Wright promised to make C. B. Henley of Wyoming his deputy in case of his election and charges Wright with giving away, through W. S. Tilton, chairman of the republican county central committee, and his associates on the committee money and property to promulgate his election as treasurer of Gage county.

Wright is also charged with buying 500 cigars and giving 200 of these cigars to James Leary to give to voters on election day.

The contestant winds up his lengthy petition by asking the court to declare the office of treasurer of Gage county vacant. The document was filed by Attorney Fred McElroy, who, with E. O. Kreitsinger, will look after the contestant's side of the case. Owing to the lateness of the filing time for hearing has not been set.

NEED BETTER LAWS

(Continued from First Page.)

case and in the Brundage case, and this appeal is being taken to the supreme court in appreciation of what Mr. Reed has done in spending his time and money and in jeopardizing his methods of breeding the stockmen of this country, it seems to me that it would be the proper thing for this association to make a public statement as an honorary member of this great organization.

I wish to call attention, on behalf of the horse breeders of the United States, to the necessity of entirely rewriting the rules of the War department with reference to the purchase of horses for service in the cavalry. There should be no discrimination between mares and geldings; both should be acceptable.

The American stockman throws his influence with the farmers in support of the agricultural colleges throughout the United States; he is a firm believer in and indorses the management of the liberal and practical disseminators of ideas to the youth of the land.

There is no one agency more potent for good to the stockman than the live stock show. Every stockman needs to know where his methods of breeding are not up to the standard.

This association has been advised from Boston that an effort will be made in the present congress to strike down the duty on hides and free hides. The United States is free wool and free hides. It is not to our credit that the American people deem it expedient to maintain a tariff duty on hides.

Free wool and free hides sound well from the mouth of a manufacturer of some of our outputs are strongly protected by tariffs. The great fear comes from the wool and the hides, will see to it that if an assault is made on the tariff on hides, it will be met by the wool and the hides, and that we do not propose that the ranching and the wool and the hides shall be freed by the protected manufacturers of the east.

The report of Secretary Martin, which followed the president's address, was devoted to the work accomplished during the last year by the different committees and the officers of the organization. The membership is increasing and the finances more satisfactory than ever before.

Rotation of Crops.

Hon. James Wilson, secretary of agriculture, spoke of "Mixed Live Stock Husbandry," saying in part: "A well arranged system of rotation contributes greatly to maintaining the uniform fertility of the soil and is also one of the readiest means by which to get rid of insect pests."

The department of agriculture is searching the world over for plants that may be useful in the several states and territories of the union, to be used as features in systems of rotation. Where a locality comes addicted to the habit of growing one crop year after year, the average soil deteriorates and the habit of growing one crop year after year, the average soil deteriorates and the habit of growing one crop year after year, the average soil deteriorates.

It is found profitable in some parts of the United States to grow rye and alfalfa together. In other localities the mangel wurtzel is most in favor. Cabbage, potatoes and other vegetables are useful along this line when their price is low. The sugar beet has been tried and gives a very satisfactory tonnage.

It does not think it needs demonstration to show the wisdom of growing something of this kind to feed to domestic animals in winter. On the coast of the northwest, in both humid and irrigated localities, rotation can be conveniently practiced. A crop of sugar beets can be grown in a field of corn or oats or alfalfa, to feed on the farm; then the land can be seeded down for two or three years with rye and alfalfa, and the fertility of the soil restored by the growth of the previous crops.

The department of agriculture is trying to find markets for the products of the dairy, and for many other things, in foreign countries. Wherever we go, whether west or south, we meet representatives of European countries as competitors in the market for the products of the dairy and for many other things, in foreign countries.

It is a transfer of plant food from our country to other countries, and it is a matter that we lack either the skill or the enterprise to use our raw material to the best advantage.

HEREFORDS TAKE THE LEAD

Outstrip Rivals of Angus and Short-horn Classes at Chicago Exposition.

CHICAGO, Dec. 3.—Hereford is the grand champion of all breeds in the fat cattle division of the International Live Stock exposition this year. Chief interest for breeders centered today in the winner of the grand championship for steer or spayed heifer of the show. There were three competing breeds, Hereford, Short-horn and Angus, but in the final judging the Short-horns were eliminated. The winning animal is Wood Princeton, a pure-bred yearling, shown by George F. Henry of Goodenow, Ill. This animal weighed 1,545 pounds.

The result of the contest in the first-class Hereford bulls, 3 years old or over, was a surprise to those who had expected Professor F. A. Naves' entry from Attica, Ind., which had won the championship of England, to be a dangerous rival for native entries. But Mr. Naves' fine animal won no better than fourth place. Improver, the entry of T. F. B. Sotham of Chillicothe, Mo., which won third premium at the Kansas City show last fall, was first.

Dandy Rex, shown by Gudegill & Simpson of Independence, Mo., and recorded first place at Kansas City, got second prize. Mark Hanna, shown by H. R. Smith of Compton, Quebec, got third money.

Other first prizes in the cattle division were awarded as follows: Hereford bull, months old and under 1 year, Good Knower, shown by H. R.
