LOSS OF FIFTY THOUSAND DOLLARS

Firemen Do Good Work, Despite the Failure of City and Private Water Plants to Give Good Pressure.

Fire at the Cudahy packing plant in South Omaha yesterday caused a loss of not less than \$50,000, but the insurance carried on the building and stock amounts to \$60,

The fire originated in the pepsin dry room and was under good headway before an alarm was sounded. When the whistles blew for a general alarm the packers and the Stock Yards company sent fullyequipped departments to assist the city department.

Fifteen lines of hose were laid as rapidly as possible, but there was a lack of pressure, and to make matters worse the Cudahy pumping station failed to work. This gave the fire a good headway.

Superintendent Collins of the Omaha Water company secured additional pressure by telephoning, and then the pumping engine was repaired, so that there was from ninety to 100 pounds of water pressure.

By hard work the firemen kept the flames confined to the pepsin department. This building is now a total loss, although the walls are still standing. The inflamable contents of the building made a great smoke and caused the impression to prevail that the entire Cudaby plant was on fire. No Financial Loss.

In speaking of the fire E. A. Cudahy said that a large stock of extract of beef and prepared pepsin was destroyed. There would be no financial loss to the company, neither would there be any delay in filling orders now on hand, as stock would be secured from the other Cudahy houses. The building which was destroyed was

erected about fourteen or fifteen years ago Mr. Cudahy paid his compliments to Chief Etter, Assistant Chief Holland and the packing house firemen and invited all to supper with him when the fire was extinguished, at 6 o'clock.

While considerable excitement was caused by the blaze, the fact that it was confined not say positively, but he had no reason to to one building shows that the fire-fighting believe that the meeting would not be force did good work.

Hundreds of people gathered around the way interfered with the work of the de

partment. About seventy-five people will be thrown out of employment temporarily while a new building is being erected.

Reports that Mr. Mellen would resign have been periodic for more than a year Mr. Mellen disregarded them until tonight when he dictated the following resume of and with the beginning of the new year the situation:

There is no foundation in the statements recently made in the press that I have either resigned or that I am contemplating such action. The Northern Pacific is being operated independently of other railways now, as it has been during the time I have been connected with it, and I have no knowledge of a contemplated change in its policy or curtailment of the plans here-tofore used to me.

To my mind it is extremely unfortunate, both to the railway and the public, that so much agitation and apprehension is being indulged in regarding the Northern Securities company and its relation to this property. Practically the same parties own the stock as have for several years and no more disposition is manifest today to interfere in its policy than during the whole period of my official connection with the company.

FIGHTS AMERICAN FEDERATION OF LABOR

President Compers May Be Forced to Put Paid Organizer in Missouri Valley Territory to Protect His Organization.

The Western Labor union has decided to will be at work organizing unions of the different trades at Missouri river points. Word was received from Denver yesterday that J. B. Armstrong, a special organizer of the Western Labor union, had started from Denver and would be in Council Bluffs Friday to institute unions which will affiliate with the western organization. Armstrong is commissioned as a regular organizer of the United Association of Hotel and Restaurant Employes, and it is understood that for this trip he has been given power as general organizer of the Western Labor union, to organize all trades in this jurisdiction.

There are in Omaha a number of the members of the various trades who are not members of the unions and it is expected that these men will be brought together and organized into rival unions by Organizer Armstrong before he returns to Denver. Labor representatives say that if this is done it may mean the reduction of wages in the different trades and possibly the destruction of many of the unions.

what is the matter with you-feel all out of sorts. Are constantly troubled with sick headaches--you're not up to things and are cross and irritable. Bilious too, perhaps, and constipated. Your breath is offensive; you have a bad taste in your mouth and don't enjoy your food.

You have bad attacks of "the blues" -nothing seems worth while and you are altogether miserable in mind and body. Probability is you are taking headache powders for your headaches they allay them for the time, but only for the time. Then you are taking pills and strong cathartics for your constipation and breath sweeteners for your bad breath.

None of these things get at the seat of the trouble and as the days go on you get worse instead of better and you will continue to get worse on this treatment. You are trying to cure effects instead of causes-the trouble is all in one place

Fact is when you sift the whole thing down, disorders of the stomach are responsible for nine-tenths of the ills that human flesh is heir to and if you will keep your stomach right you can be pretty sure of good health.

Gure your stomach and you will cure the rest. Get it in good condition and keep it so and you will be able to stop all the dosing and constant physicing that seem necessary to you now.

There is only one thing for this purpose-a gentle, corrective laxative that assists nature (does not force it), puts the stomach in its normal condition, aids digestion and tones the whole system up. It is a carefully prepared compound of efficacious remedies made according to the formula of a prominent and successful physician, and used by him for many years in his regular practice and is known as
