CITY OFFICIALS' ESTIMATES
Expenses Next Year Will Conform with Mayor's Retrenchment Policy.
HENNING'S GIVES CREDIT TO HIS FORCE
Treasurer Says He Will Require Same Number of Employees as He Had This Year to Continue Crusade Against Delinquents.
Estimates which have been furnished to Mayor Moore by heads of various departments of the city government show that city officials believe they can carry on their work with less money than was set aside for their use last year. Only part of the city officials have complied with the mayor's request that estimates be furnished him upon a basis to base the levy for 1902.
City Treasurer A. H. Hennings estimates that he can conduct his office during the coming year for \$24,700. Of this sum \$22,930 is for salaries and the remainder for stationery and supplies. This estimate is \$1,320 less than the entire amount spent by his office in 1901.
In setting forth the needs of his office Mr. Hennings says that it will be impossible for him to carry on his active crusade against delinquent taxpayers unless he is granted funds enough to maintain an office force practically as large as he had during the year which is coming to a close. During 1901 Mr. Hennings collected personal taxes to the amount of \$241,745.45, or \$200 more than the entire personal levy for the year.
Where Expenses Pay.
Mr. Hennings says that his success in collecting taxes is due largely to the care exercised by his office force and he believes that any reduction in the number of his employees would result in a loss to the city many times as great as the saving which would be made in the salary roll.
Building Inspector R. B. Carter believes that his department can be maintained during the coming year for \$4,100, the amount of its appropriation for 1901. Mr. Carter will finish the present year with a surplus of more than \$100 in his fund.
The city controller has asked for an appropriation of \$10,282 for the coming year. Of this sum \$9,030 is for salaries and \$1,250 is for stationery and other supplies. These amounts are the same which Mr. Westberg's office spent during the year which is just closing.

LAWYERS MAY BE TOO HASTY
Objection to Naming Candidate for Judge at Saturday's Meeting.
FULL REPRESENTATION IS DESIRABLE
Action of Comparatively Few Douglas County Lawyers Would Not Blind Those of Other Counties in the Judicial District.
"The call for a meeting of attorneys made in the name of the Douglas County Bar association to recommend a successor for Judge Baker contemplates the attendance of all members of the bar in this, the Fourth judicial district," said a prominent attorney yesterday. "There are about 400 attorneys in this district and of the number I doubt if more than 100 have received notice of the meeting. In my opinion any action toward naming a candidate for Governor Savage's consideration would be hasty and ill-advised at this time."
"It seems to me that the matter should be done in a calm and dignified manner, without unseemly haste or the use of the methods of the war politicians. The Saturday meeting should be merely preliminary and a day should be set later for the selection of the candidate. A committee of representative attorneys who are not candidates should be appointed to take charge of the election. It should be conducted on the Australian plan and every aspirant should be given the opportunity to have his name placed upon the ballot."
"If the Saturday meeting, with an attendance of 100 or so, names a man and insists upon its action as being binding upon the attorneys of the entire district, including those of Burt, Washington and Sapp counties, it will pave the way for much trouble. It might mean that effective protests would be lodged with the governor, who could then take the matter entirely out of the hands of the bar association and make an appointment to suit himself."

WANTS TO ENFORCE THE LAW
Deputy Labor Commissioner Will Ask Indictments Against Violators of Fire Escape Statute.
C. E. Watson, deputy labor commissioner of the state, is in the city to appear before the grand jury to show the evasions of the law regarding the maintenance of fire escapes on buildings of three stories and higher. The jury has so far taken no action on the cases in which Mr. Watson is interested, but he believes they will be considered today.
"If the grand jury does not indict," said he, "I intend to take the matter up on my own responsibility. I will have information filed and every person arrested who has not complied with the law. I do not propose to be a party to any such evasion of the law and I feel that I would be in that position should I fail to do all in my power to enforce the provisions of the act."

Laura Trumbull's Troubles
She Says Her Husband's Married Daughter Took Away Household Paraphernalia.
Laura Trumbull, who married Benjamin Trumbull at Marysville, Kan., on September 23, 1897, and now asks for a divorce, says in her petition that "two weeks after said marriage a married daughter with whom he had lived moved away and took with her all the kitchen, dining room and other furniture and the defendant refused to buy any more furniture and made it no unpleasant for plaintiff that she was forced to leave the place. Some time during last April defendant coated plaintiff back to Australia plan and every aspirant should be given the opportunity to have his name placed upon the ballot."

UNIVERSAL LANGUAGE—MUSIC—
Understood by all nationalities—appreciated by both man and beast—is played so accurately articulated as when produced on the keys of instruments—the piano. Then the more perfect the piano the more correct the speech—hence the preference of the celebrated "Kimball." Its beautiful bell-like tone is perfect—its action never fails to carry the intelligence from the brain of the performer to the storing of the piano. Own a Kimball and enjoy the musical literature of all nations.

Do You Feel Like Eating Candy—
Today? Do you want some delicious confectionery? You can get it as fine as is made from us and it will not cost you as much as poor candy would. The way our candy is done up does much to sell it to those who are guided by appearance. Our boxes are as tasteful as such things can be. But we want our confectionery judged upon its merits—a taste is all the test you need to make—and you find our candy even more than we claim for it.

We Picked Up This Ax—
To chop off a few prices—you see, it's this way—the past few days stoves have advanced 10 per cent—but that don't matter much to us—we've got to get rid of our big stock of ranges and cook stoves—so between us and the tax we've chopped off 20 per cent on these lines. There ain't much use telling you about the good qualities of our Favorite Steel Ranges—cause you know pretty much all about them—and you also know they ain't no better range made than the old, reliable Favorite—so if you are in the humor to buy a range or cook stove you better come in and talk with us.
