COUNCIL BLUFFS.

# TO SETTLE BRIDGE QUESTION

This Afterneen.

BELIEF THAT COST CAN BE REDUCED

Property Owners Suggest Plan of Opening Street by Which Demand for Bridge Will Be Obviated.

The city council will meet this afternoon in adjourned session to take final action in the matter of the Mynster and North Main streets bridge. Since the submission of the bide which were referred to the city englneer for tabulation several of the aldermen have been figuring on the less costly plan of opening Mynster street by opening the thoroughfare through the purchase of the property on the north side of Indian creek. It is conceded that the purchase of this property by the city would be the least expensive.

While the agents for the property have asked \$3,500 for the ground necessary to open the street, it is believed that if the city would seriously consider this proposition the property could be purchased at a much lower figure.

At the lowest bid for a steel cylinder bridge the city would have to expend close upon \$4,000, while the ground necessary to open the street without such a structure would, it is believed, not exceed \$2,500, prowiding the city was to make a definite bid for it.

The opening of the street as suggested by the owners of the property at the northwest corner of Main and Mynster streets would obviate the necessity for constructing a bridge and afford all the facility for ordipary traffic at a much lower cost.

## Christian Home is Prosperous.

The annual report of the Christian Home in which so many people of this city take an active interest, shows that the institution is in an unusually prosperous condition.

The total number of persons in the inetitution on January 1, 1902, was 213, of whom 185 were children and twenty-eight were helpers and aged. During the last six months of 1901 thirty-seven children were received into the home and homes were found for thirty-four children. During the year there were nine deaths in the home. The financial report of the institution for 1901 shows that the total receipts were \$24,069,53, and that the expenditures were \$4,500.29 in excess of the receipts. The January receipts, however, were sufficient to clear off the deficiency and place a balance to the credit of the improvement and contingent fund.

The receipts and expenditures by months were as follows:

1901. Receipts. January \$ 3,437.67 February 465.97 March 1,606.91 April 5,267.83 \$ 8,543.74 6,267.83 578.00 390.60 1,225.69 5,428.18 512.85 728.13 699.38 3,639.32  $1,740,46 \\ 1,628,05 \\ 1,814,72 \\ 1,771,86 \\ 1,688,75 \\ 1,395,89$ August September October November December 2.188.00 1.544.88

phine about 3 o'clock yesterday morning and the services of a physician were necessary to prevent his death.
