Trade Not Brisk, but Higher Cables and Scanty Offerings and Good Commission House Orders Stimulate Leading Cereals.

CHICAGO, Jan. 29.—There was a return of buil conditions and buil feeling in the grain market today. Nervousness resultant on the recent raid on oats seemed to be dissipated and all markets closed near the top prices. May wheat gained 13-614c. May corn 14-62c and May oats 25-62c. May corn 14-62c and May oats 25-62c and this pit became the leading speculative market. General builted conditions prevailed. Cables were much higher, though there was a fair export business and the southwest had bought well of red winter wheat. Northwestern and local receipts were very small and local offerings were scanty. Coarse grains were well up, especially in the western markets. Commission houses had very good buying orders and scapers were the only ones who sold early. May opened 26-62c up at 78-66-8c, and mounted steadily, with but slight setbacks up to 79c. Kansas City reported little movement of wheat to market, because interior mills were paying higher prices. May closed strong, 14-62-62c higher, at 78-66-79c. Local receipts were only eight cars, one of contract grade, and Minneapolis and Duluth reported 180 cars, making at total for the three points of 177 cars, against 316 last week and 299 a year ago. Primary receipts were specific were said to be damaged and local receipts were sone of contract grade, and Minneapolis and Duluth reported 180 cars, making at least the feel of the second of Trade today. The traders had a number of things to influence a return to buillah sentiment. Calles were higher, there were reports of foreign buying, the Argentine crop was said to be damaged and local receipts were series of the second of the series of the second of the series of the series of the series of t

PARIS, Jan. 29.—The strength of Kamrs, the rise in Rio tintos and the substantial recovery of Spanish 4s imparted firmness

yards was out of first hands in good season.

There was also considerable competition in the cow trade, and sellers had no trouble in disposling of what they had at steady to strong prices. The better grades, of course, moved more freely than the commoner kinds, but still all grades sold for fully as much as the same kinds brought yesterday.

There was a good demand for bulls, veal calves and stags today at steady to strong prices.

Very few stockers and feeders were included in the receipts this morning, the same as has been the case all the week. Fleshy feeders of good quality were in active demand and could be quoted strong. Fair to good cattle also sold without much trouble, but light stockers of poor quality were neglected, the same as they have been for several weeks past, and were hard to move at any price. Such kinds could not be quoted any more than steady. Representative sales:

BEEF STEERS.

525 2 00 HEIFERS.

SHEEP-There was not a SHEEP—There was not a heavy run of sheep and lambs here today and packers bought up the ewes and wethers at just about steady prices as compared with yesterday. The market was not what would be called active, but still the bulk of the offerings was out of first hands in good season. The lamb market, however, was not in as good shape and the prices paid were all the way from weak to a big dime lower than yesterday. There has been a weak feeling on lambs for several days and today there was no mistaking the fact that prices were lower. Although the market was lower, buyers and sellers agreed on terms and most everything was sold in good season.
