Summer Session of Normal.

Announcements are being circulated for the summer session of the Nebraska State Normal school, which will open in Peru May 25 and close July 4. During this six weeks' term credits may be made in the prescribed work of the regular courses. The term is designed to meet the wants of three classes of students—those who have never taught and who wish to spend a short time in getting a more thorough knowledge of some of the common branches preparatory to examinations before county superintendents, those who wish to take up secondary subjects in extension of general scholarship and those experienced teachers who wish to combine a review of the branches they are teaching with a critical study of educational aims and methods in a well-organized teachers' institute.

An Ideal Medicine

A New Discovery Which Cures All Forms of Catarrh.

The tablet is the ideal form in which to administer medicine, but until recently no successful catarrh tablet had ever been attempted. There is now, however, an excellent and palatable remedy for catarrh in tablet form, known as Stuart's Catarrh Tablets and sold by druggists, composed of the most recent discoveries in medicine for cure of catarrh and results from their use have been highly gratifying.

The old time treatment of catarrh was in the form of inhalers, washes, douches, sprays, etc. Later on internal remedies were used with greater success, but being in liquid or powder form were inconvenient to use and like all medicines in liquid or powder form, lose their medicinal properties when opened or exposed to the air.

Stuart's Catarrh Tablets contain highly concentrated antiseptics, Red Gum, Blood Root, etc., which kill the catarrh germs in the blood and mucous membrane, and in this respect are strictly scientific and modern, because all antiseptics are now agreed that catarrh is a constitutional blood disease, and local applications can have only a transitory effect.

The use of inhalers, douches and sprays is a nuisance and inconvenience and can be wisely compared favorably with the same antiseptics given in tablet form internally, where they can reach the stomach and blood and kill catarrh germs right where they are produced.

A prominent lawyer and public speaker of Pittsburg, says: "I have been troubled with catarrh of the head and throat for twelve years. In this climate it seems impossible to get rid of it. The continual dripping of mucus from the nose into the throat caused irritation and hoarseness, seriously interfering with my public speaking. It took me an hour or more of coughing, gagging, expectorating and sneezing every morning before I could settle down to work and this condition gradually brought on catarrh of stomach causing loss of appetite, poor digestion and a foul breath, which annoyed me exceedingly. My physician advised me to try Stuart's Catarrh Tablets and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach and I have no hesitation in recommending them. They are not only pleasant to take, but they seem to get at the very root of the trouble, because since using them I have had no trace of catarrh."

Druggists sell Stuart's Catarrh Tablets at 25 cents for full sized package. They can be carried in the pocket and used any time and as often as desired, since they contain no cocaine, mercury or any other injurious drug.

The amended petition leaves the first term of office and the first set of bondsmen out of the consideration, naming only the second set of bondsmen as defendants and suing them for an alleged shortage of \$1,000. DID NOT KNOW SHE HAD KIDNEY TROUBLE

Thousands Have Kidney Trouble and Never Suspect It.

Gertrude Warner Scott Cured by the Great Kidney Remedy, Swamp-Root.

(Gertrude Warner Scott.)

(Special.)

DR. KILMER & CO., Binghamton, N. Y. Gentlemen—In the summer of 1893, I was taken violently ill. My trouble began with pain in my stomach and back, so severe that it seemed as if knives were cutting me. I was treated by two of the best physicians in the country, and consulted another. None of them suspected that the cause of my trouble was kidney disease. They all told me that I had cancer of the stomach, and would die. I grew so weak that I could not walk any more than a child a month old, and I only weighed sixty pounds. One day my brother saw in a paper your advertisement of Swamp-Root, the great kidney remedy. He bought me a bottle at our drug store and I took it. My family could see a change in me, for the better, so they obtained more and I continued the use of Swamp-Root regularly. I was so weak and run down that it took considerable time to build me up again. I am now well, thanks to Swamp-Root, and weigh 145 pounds, and am keeping house for my husband and brother, on a farm. Swamp-Root cured me after the doctors had failed to do me a particle of good.

Women suffer untold misery because the nature of their disease is not correctly understood; in many cases when doctors, they are led to believe that womb trouble or female weakness of some sort is responsible for their ills, when in fact disordered kidneys are the chief cause of their distressing troubles.
