Speculation in Grain Continues Dull and Besitation Features Speculation.

WHEAT CONDITIONS SLIGHTLY CHANGED

Leading Cereal Closes Somewhat Higher on Account of Bullish Routine News and Winter Crop Reports.

CHICAGO, Feb. 6.—Speculation in grain was duil again today and the markets were characterized by much hesitation. At the outset the sentiment was bearish, but with the advance of the session traders seemed to be ready for a buil turn and prices reacted well. May wheat closed %6% higher, May corn %c up and May oats %c advanced. Provisions late took a good spurt and closed %60c to 17%0 higher.

atis %0 advanced. Provisions late took a good spurt and closed Tighte to 1746 alger. Conditions for wheat traders were little thanged. Cables were only slightly lower, arrly reports of the conditions of the prowing crops were rather favorable and May opened with some selling, %c lower to unchanged at 17% to 77%c and dipped to 71/49/77%c. Profit-taking by shorts set a soon after the opening and speculators began to change front. A prominent tradepage reported the growing plants unusually susceptible to weather conditions, which had some bullish effect. May gradually sold up and fluctuated very marrowly. There was some fear that the market night be oversold, but small advices in the outside markets and a slightly better cash situation, as indicated by a better export business at the scaboard, probably helped most in the late spurt. Receipts were so limited, only one car today, that bulls began talking of tenacious holding by first hands, but, though there was some effect from this factor, the reports that shipments would be good if cars could be had neutralized this influence. May at one time was selling at 78%c and closed after another dip firm and %6%c higher at 75%(75%c. Minneapolis and Duluth reported 27 cars received, a total for the three points of only 118, against 341 last week and 337 a year ago. Sales of 200,000 bushels since years of the seaboard and 24 loads at New York were reported. Primary receipts were 231,000 bushels, compared with 466,000 bushels last year. Seaboard clearances in wheat and flour equaled 122,000 bushels.

ances in wheat and flour equaled 122,000 hushels.

Gorn worked much the same way as wheat. There was some little bearish sentiment on lower cables. Fluctuations were limited to a range of 4,0%c, following largely the lead of wheat. Stocks, both at Kansas City and St. Louis, were reported rapidly diminishing. Receipts were very small and the tremendous discrepancy of this year's exports was shown in the report of the total seaboard ports of only 5,885 bushels, compared with 62,000 a year ago. Shorts covered to some extent and on the upturn May sold at 63% EMc. Receipts were 20 cars.

Oats had another comparatively flat day. The early support came largely from wheat and corn, though later there was some small show of independence. Trade was narrow and of a local character. The opening was slightly bearlah, but toward noon the bullish sentiment held sway and May sold up to 44% EM46c, closing firm and %c higher at 44% C. Receipts were 41 cars.

Provisions were dull until just before ng firm and %c higher at 44%c. Receipts were 41 cars.

Provisions were dull until just before the close. The start was slightly better on a better hog market and some commission house buying. Late in the session ackers bought liberally and after a digrom the early firm prices products sold up strongly. May pork closed 17%c higher at 316.02%, May lard 7%chiloc up at at 39.55 and May ribs 10c higher at 38.57%.

Estimated receipts tomorrow: Wheat, 7 lars; corn, 65 cars; oats, 55 cars; hogs, 0,000 head. ,900 head. The leading futures ranged as follows:

MOVEMENTS OF STOCKS AND BONDS. Considerable Increase of Animation

NEW YORK, Feb. 6.—The stock market showed considerable increase of animation today and the dealings were much better distributed than for some time past. Southern Pacific was largely in the hands of the same speculative interest which has been dealing in it recently, and the movement in Pennsylvania was also attributed to this operator. The Vanderbilts as a group were all strong and the Toledo, St. Louis & Western stocks moved in sympathy with the group on rumored absorption in the Vanderbilt interest. The gains in these stocks reached up to 6 points, Lake Erie & Western preferred showed the latter figure. United States Express made a further advance of 7% The rise of 7% in Third Avenue was due to comparison with its price with that of Motropolitan, with an ultimate guarantee of 7 per cent. Illinois Central also was strong on the general consideration of its price level, as comparied with other equal dividend payers. There were a number of lower-priced and less prominent stocks whose special strength was attributed to increasing dividend prospects. Profit-taking made the closing somewhat irregular, but the inroads on prices were not extensive.

The bond market was active and broad and showed general advances. Total sales, par value, 4,655,000. United States 2s decilined 50 on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market today was cheerful on the more favorable war news from South Africa and on the reduction of the minimum rate of discount on the Bank of England from 3½ to 3 per cent. South African stocks were particularly active. American issues are stagnant, but turned harder with Southern Pacific, the feature on New York buying. The stock here is reported scarce. Coalers were also bought. Rio tintos were sold at 45% on the rise in Amalgamated. Copper sold at £55 the ton. Discounts fell to 2½ per cent on the fall in the bank rate. Money is scarce.

CATTLE—There was not a heavy run of cattle here today, so that the market was fairly active and prices steady to strong on all desirable grades of killers. Buyers were out early, and it was not long before the bulk of the offerings had been disposed of. There were quite a few beef steers included in the receipts this morning, but the better grades sold freely at steady to strong prices as compared with yesterday. The commoner grades were not in quite as good demand, but still they sold without much trouble at about the same prices as were paid yesterday.

The cow market took on considerable life this morning, and anything at all good sold at steady to strong prices. Buyers all seemed to be anxious for the choicer grades, and as offerings were limited there was considerable competition. The medium grades and canners did not show much change from yesterday, but as a rule selleve did not find it a difficult matter to sell out at fully steady prices.

change from yesterday, but as a rule sellers did not find it a difficult matter to sell out at fully steady prices.

There was not enough change in the prices paid today for bulls, veal calves and stags to be worthy of mention. Anything good sold freely, while common kinds were neglected.

Stockers and feeders were in rather light receipt this morning, so that steers of good weight and quality sold readily at firm prices. There was no improvement, however, in the demand for the common and lightweight stockers, and prices were uneven, the same as they have been all along. Sellers are obliged to take whatever they can get, as it is hard to even get a bid on common stockers. The demand from the country is almost entirely for the good to choice heavyweight cattle, and for that reason speculators are very slow about buying the common grades. Representative sales:

STOCK COWS AND HEIFERS.

HOGS—There was a liberal supply of hogs on sale today, but the market opened fully so higher and active. Packers all seemed to be raxious for the hogs, and as a result was not long before the bulk of the offerings had changed hands. The good weight bogs sold largely from \$6.25 to \$6.35, and as high as \$6.45 was paid. The medium-weights sold from \$8.10 to \$6.30, and the lighter loads went from \$6.10 down. Along toward the last end of the market the feeling was not so good, and on the extreme close the advance was practically all lost and the last few loads sold slowly. The hogs that were left until the last, however, were mosty lightweight and of common quality. Representative sales:

8HEEP—There was a lively sheep market here today, as the demand was evidently in excess of the supply. There were only about 11 cars on sale, and they changed hands as rapidly as they were offered at an advance over yesterday's prices of about a dime. Ewes sold as high as 34.40, and fair lambs sold as high as 34.40, and fair lambs sold as high as 34.40, and fair lambs sold as high as 35.65. There were no prime lightweight yearlings on sale, but a bunch of heavy-weights sold at 5.35, and another bunch at \$5.25. Everything was sold and weighed up at an early hour.

Preserving Indian Language. BERKELEY, Cal., Feb. 8.—A young chief of the Yuki tribe of Indians is on his way from Mendocino county to the University of California in order to help the ethnologists to record the manners, customs and beliefs of his people. He is a full-blooded Yuki, but speaks and writes English furently. At one time the Yukis were the forcest Indians in California. The language of the tribe will be recorded and preserved in the university by means of the phonograph.

Funsion Accepts Invitation. DENVER, Feb. 8.—Governor Orman has received a letter from General Funston accepting the invitation tendered by the governor to become the guest of Colorado at a banquet to be give. to Generals Funston and MacArthur at some future date. General Funston says he is unable to set a date, as he cannot say when he will be released from the hospital, where he has just undergone an operation. It is expected the banquet will occur some time in March. Indict City Treasurer.

BUFFALO, N. T., Feb. 6.—Phillip Gerst, former city treasurer, was arrested today charged with miszppropriation of \$77,000 of the city's funds. Gerst was removed from office in December last by Mayor Diehl, He was charged at that time with misconduct in office and during the investigation of the charge admitted misappropriating \$59,000.
