TO BOND DELINQUENT TAXES

Treasurer Hennings' Suggestion of a Way to Reduce Tax Levy.

OVER MILLION DOLLARS COMING TO CITY

Payments of Delinquent Taxes Might Go Into Sinking Fund to Take Care of Principal and Interest on Bonds.

City Treasurer Hennings has a plan whereby the tax levy may be materially reduced without embarrassing the city for want of funds. The plan is to bond de-linquent taxes, permission for which would have to be secured through legislative en-

"I have been looking over the books," he, "and have found that considerably more than \$1,000,000 is due the city in taxes, the greater part of which has long been delinquent. Now, in several eastern cities it is customary to raise funds by bonding these delinquent taxes. This is true of the principal cities of Ohio. As the taxes are collected they go into a sinking fund, which takes care of the interest on the bonds and in course of time of the principal as well, and the bonds are redeemed.

Over a Million Owing.

There is now due the various city funds the following sums in delinquent taxes, ex-

Half Million Considered Good. "Of this total," says Mr. Hennings, "from \$500,000 to \$600,000 is positively good and can be collected, so the city should have trouble in guaranteeing a redemption of \$200,000 of delinquent taxes. The bonds would draw 31/2 per cent interest and we could get 12 per cent from the taxes "I think Omaha can well afford to follow the example of eastern cities in these matters. The eastern cities have had more experience than we have and they know how to take advantage of these things. What is true of the Ohio cities is also true in a general way of New York cities, the difference being that in New York the

REDELL WANTS MORE TIME

Judge Keysor Therefore Continues Hearing on Injunction Until

Next Wednesday.

Judge Keysor yesterday morning continued until next Wednesday the hearing of the application of the attorneys for John Redell, suspended fire chief, for an injunction preventing the Board of Fire and Po-Commissioners from trying Redell on

the charges filed by John W. Bruder. Redell's attorneys insist that Bruder has withdrawn his charges and that the board has not the right to proceed after such withdrawal, in proof of which they wish to offer the record of precedents, and it is to afford them this opportunity that the judge granted the continuance.

City Attorney Connell argues that even though Bruder attempted to withdraw his charges, they are still operative and the trial must proceed. He argues that otherwise the trial of a man might be begun at great inconvenience to a city and then have to be discontinued after in progress several days should the complaining witness, by reason of persuasion, honorable or otherwise, withdraw his charges.

at Tenth and Grace streets, applied to the colice for aid. She said the family was without clothing, bedding, food, fuel and the necessities of life. Officer Wooldridge was detailed to investigate the case and yesterday reported that the Ray family was in good circumstances. The husband of the woman works for an ice company and receives \$1.75 per day, owns a team, two cows, chickens and the home in which the family lives. They will receive noth-

ing from the charity fund. Officer Wooldridge discovered a family at Twenty-first and Center streets in need of assistance. The family is composed of six small children, father and mother. The father is suffering with consumption and is helpless; three of the children have the whooping cough, and in the house there was no food, fuel, winter clothing or bed elothing and it was impossible for the family to keep warm. The officer immediately returned to the house with the needed articles.

Police officers who have been detailed to leok up the destitute desire more bed slothing. In nearly every case of destitution these articles are lacking.

SHORT CUBAN TORACCO CROP.

W. C. Schutz Returns from a Trip t the Island. W. C. Schutz, vice president of the F R. Rice Mercantile Cigar Company, and F. Opp, have returned to St. Louis from a trip to Cubs, where they made many interesting observations, besides buying Ha

vana tobacco. "We did not find things as bright as we expected," said Mr. Schutz yesterday. "We found great distress, and especially in the growth of tobacco. The thing necessary for the island to become prosperous again is \$150,000,000 to replace the same amount in circulation taken away by the Spaniards when forced to retire from the island. At present no other money is coming to replace this. With the addition of this amount to the circulation, the other thing most necessary to bring the Island up to its former standard is to reduce our du-ties to the producers of the country at least 50 per cent. The time may come when it will be necessary for us to make a still further reduction, if we are to keep the islands as rich and prosperous as the Spaniards did.

'We arrived in Havana January 16, and, after buying our tobacca, we made an extensive trip through the country. The trip began in the Province of Havana, or what is known among the tobacco men as the Paratidos District of Tobacco, The dis-tressed people did not seem to have any ambition, farm hands were scarce and wages are low. The people used to raise tobacco with what was called 'merchants' money,' but that has been withdrawn, we were told, at a great loss, and, with the losses caused by the wars the farmers IN MEMORY OF THE DEPARTED have nothing with which to raise tobacco.

"Life, it is said, is far from safe in going through the country, on account of the bandits and kidnapers. As we understood it, the Cubans will not work if they can help it, and the negroes will not work

"Next we visited the Province of Pina del Rio, or what we call the greatest spot in the world for fine, aromatic tobacco, the famous Vueta Abajo. The tobacco crop in both these Provinces is very poor. In addition to the foregoing there is due | Thus the growing crop will be very small

and good tobacco will be high." The Province of Matanzas and Santa Clara, the first famous for sugar-growing, were visited. In Santa Clara the travelers found the same conditions among tobacco growers as in the other Provinces, where, they say, the crop will not reach 50 per cent of last year's crop, on account of lack of money to handle it and the bad weather.

COURT BUSY WITH GORDON CITY MISSION WANTS HOME Judge Dickinson Enters Three Orders

in Gordon Littigation in One Day.

Judge Dickinson has entered three or dors in the Gordon actions against the city, all made with the consent of the parties in open court. The first passes until February 10 the hearing on the application of Gordon for a temporary injunction preventing the payment of Louis Berka's salary as police judge for January, but restrains the council from making any appropriation for such purpose and the mayor from approving it and the comptroller from honoring it. The second order restrains until the hearing of February 10 the mayor from approving or the comptroller from obeying the council's ordinance repealing the appropriation under which warrant No. 53327 for Gordon's salary was drawn. The third order is one granting the defendants' request to withdraw their demurrer in the case of Gordon against Moores and others and to answer the petition of the plaintiff.

Directors Take Preliminary Steps Toward Securing a Permanent Location.

The directors of the Omaha City Miston association met at the Young Men's Christian · association rooms yesterday to formulate plans for the permanent continuation of their work. A committee was appointed to decide upon the most advantageous location for a permanent mission building and a circular letter to be sent to the pastors of the churches of the city setting forth the work of the organiration and asking their co-operation in furthering its interests was outlined.

Through the city union representatives will be sent to all of the young people's ocieties of the city on Sunday evening, February 23, to present the work and ask the co-operation of the various societies. An effort will be made at the next meet ng to increase the executive board from six to nine members, so that it may include representation from more of hurches of the city.
