NAMES LONG LIST OF HEROES

Army Board Honors Soldiers for Distinguished Services.

PRESIDENT APPROVES ALL BUT ONE

Giwa Brevet Rank to Those Recommended, excepting Only Colonel Theodore Roosevelt for Brigadier General.

WASHINGTON, Feb. 14.—Adjutant General Corbin today made public the report of the army board, which General Arthur was president, appointed to consider and report the names of officers and enlisted men of the army who distinguished themselves during the recent campaigns in Cuba, China and the Philippines, so as to entitle them to the award, either of medals of honor or certificates of merit.

The officers recommended for brevet rank for specially meritorious services during the same campaigns that had been nominated to the senate by the president. Mr. Hattie stated President Roosevelt has approved all the recommendations made by the MacArthur board for awards of brevet, medals of honor and certificates of merit with the exception that Colonel Theodore Roosevelt be given the brevet rank of brigadier general for services at the battle of San Juan hill.

The list of brevet will be made public when it is sent to the senate. Medals of honor will be awarded in thirty-three cases, of which ten go to commissioned officers and twenty-three to non-commissioned officers and privates.

Only one medal was awarded on account of service in the Cuban service, two in the case of the Chinese campaign and thirty in the Philippine war. The medal list shows few names of persons familiar to the public, perhaps the most notable one being those of musician Calvin P. Titus, who was the first to scale the wall at Peking and who afterward was sent to West Point, and Lieutenant A. M. Skton, who commanded the Macabete scouts.

The certificates of merit are all awarded to non-commissioned officers and privates, and of the total number of fifty-six, four are on account of the Cuban campaign, forty-five on account of the Philippine campaign and seven on account of the Chinese trouble. The medals of honor list is:

MEAN TEMPERATURE IS LOW. Records Show that Weather for First Half of February Has Been Unusual.

The records of the weather bureau for the first half of this month show that winter has had a pretty firm grip on the situation. The mean temperature has been several degrees below the normal.

The mean temperature for February is 25 degrees, based on data extending over twenty-five years. The mean temperature for this month is 23 degrees. Excepting during the last four days, at no time has the temperature reached the normal.

Even during the record-breaking month of February, 1896, the maximum temperature during the first fourteen days was 45 degrees.

This year February came in with the thermometer at 3 degrees below. This was followed by 8 below, then 3 below and then a plunge to 11 below on the 4th. The frigid grip was relaxed slightly on the 5th and 6th, when it was 3 and 8 degrees above, respectively. Zero was registered again on the 7th and dropped to 2 degrees below on the 8th and 9th.

Then Forecaster Welch believed he saw conditions leading to more moderate weather and Saturday evening last he formally predicted the severity of the cold would about reach its limit and that Monday would show a rising thermometer. It did, too, for on Monday the highest temperature of the month thus far, 35 degrees, was reached, followed by 29 on the 12th, 26 on the 13th and 26 at 3 o'clock yesterday afternoon.

The mean temperature for the entire month from 1877 to 1901 inclusive ranged from 15 to 30 degrees, the official record being as follows: 1877, 27 degrees; 1888, 30 degrees; 1895, 15 degrees; 1900, 15 degrees, and 1901, 23 degrees. The minimum and maximum for the last six years are as follows: 1897, minimum, 15 degrees; maximum, 43 degrees; 1898, minimum, 2 degrees below; maximum, 52; 1899, minimum, 2 degrees below; maximum, 45; 1901, minimum, zero; maximum, 44.

RABBI SPEAKS OF A MESSIAH. Says Christians and Jews May Come Together Within the Present Century.

At Temple Israel last night Rabbi Simon spoke of the great Messiah, who, he said, would come from the German tradition of Frederick Barbarossa a writer in the course of time may say that the Germans had an idea of a Messiah and that he came in the person of Bismarck in 1872.

It seems from the writings of the fathers that the Messiah must be a particular person, but a leader who would relieve the people from oppression and restore the nation. In the period of a nation's misery, with the people suffering, it is not surprising that there were hundreds of false Messiahs.

"We Jews in this land," said the rabbi, "can say, so far as political life is concerned, our Messiah has come; that it came when the Declaration of Independence was written and Washington wrested the land from England. But we are beginning to think that the Messiah must be more than political freedom. We have spiritualized the old idea and we believe that there will come a time when peace will rule the world. The Messiah will come—he is always coming—if you obey God."

When he had finished his address he said that the conception of the Christians and the Jews as to the Messiah is the same.

"When I see the desire for intellectual freedom shown by Dr. Pierson, Dr. Briggs and others, when I see dogmas cast aside and when I see the same men by using the name of Judaism, I think that the next 100 years will see a coming together on the meeting ground and that ground will be the religion of Jesus."

FOUND GUILTY OF LARCENY. Jury Convicts Reed Yates and William Reed for Robbery of Henry Regal.

Reed Yates and William Reed have been found guilty of larceny from the person by a jury that was out from 11:20 yesterday morning until 10:30 last night. They had been arrested on charges of larceny from the person for which they were in the penitentiary for about five years, who were divided among themselves, finally compromised on this verdict, which means a sentence of from one to seven years. The alleged victim of the robbery, Henry Regal, was seen in the saloon of the elder Yates and the Saturday of the holidays and ordered drinks that cost more than he had in pocket. When he assured Reed Yates that he had money in a trunk at the Weber street depot, Williams, a colored man, was sent with him to bring it to the saloon. Arriving there he opened it and pulled \$275 from an old rubber boot. It was this money that Yates and Reed are said to have taken before kicking the old man into the street.

Obviously one cannot afford to employ a life insurance company with its necessarily high expense rate, to act as his savings bank nor to regard his policies, however phrased, as real investment bonds, nor to have his life insurance on which his family depends exposed to the caprices of the market.

It is precisely along these lines that the business is most sought today, and the companies that have the heaviest expense rate, and the business is secured in part at least by nonparticipating dividends. The expense is concealed from the policy holder for long periods of years, with the expectation that meantime many forfeitures will occur for the benefit of those who outstay the period; the "5 per cent bond" sells through concealment of its real cost and of the fact that for the same money one pays for a \$10,000 "bond" he could have instead \$1,000 of bonds, and companies turn themselves practically into savings banks.

And yet one of the most striking features of the experience of the companies competing by these methods for great growth is that, notwithstanding the enormous expenses and forfeitures which have occurred and which they have depended on for their usual profits to those who outstay the period, the deferred dividend period, the companies have not even approximated the estimates upon which the business was secured.

It is because there is but just the one thing that life insurance can do that no other institution can do, and because, at best, its necessary cost is relatively high, and because any other financial operation can be better and more cheaply done by some other institution organized for its own specific purpose, and because life insurance company cannot do anything that other institutions specifically undertake except at a disproportionate and excessive cost, and yet more because any other thing which is undertaken by life insurance is a specific aim, method and incident in conflict with and more or less destructive of the proper aims, methods and results of life insurance and its administration.
