

CONDITION OF OMAHA'S TRADE

More Buyers Arrive on the Local Market Than for Some Time Previous. That for Some Time Previous.

SPRING GOODS IN ALL LINES MOVE FREELY

Collectors Reported as Exceptionally Good and All Indications Point to Brisk, Healthy Markets.

More moderate weather last week gave new impetus to spring trade with Omaha buyers and manufacturers as a result they are all feeling greatly encouraged by the outlook for future business.

It has been a long time since the grocery market has been so active and in fact better than it was a week ago.

Prints are a little higher than they were a week ago, owing to the fact that about 80 per cent of the goods produced in the country are now being sold in a very strong position.

The most important change in the dry goods market has been in the price of prints in print cloths amounting to 1c.

Hardware jobs also report spring trade as having shown considerable improvement last week.

Leather goods jobs also report spring trade as having shown considerable improvement last week.

There was a better demand last week for fruits and vegetables than for some time past.
