SCHLEY CASE IN WHITE HOUSE

Will Not Be Discussed in Detail in President's Review.

CONGRESSMEN COUNSEL WITH EXECUTIVE

Speaker Henderson Assures President that Action Unfavorable to President's Decision Can Be Blocked in House.

WASHINGTON, Feb. 15.—An important conference was held in the cabinet room of the White House today. At the president's request he was joined there shortly after 10 o'clock by Senators Allison, Aldrich and Spooner, Speaker Henderson and Representatives Cannon and Grovernor. The conference lasted until a few minutes after noon.

It is something of a coincidence that those at the conference today were, with the exception of the president and Senator Spooner, the same men who took part in the famous conference a few weeks prior to the Spanish war, which resulted in the definite conclusion that congress should appropriate \$50,000,000, to be placed at the disposal of the president to prepare for war.

Not since that momentous occasion until today have the same men been formally summoned for a conference at the White House.

Previous to the conference the president breakfasted at the White House with Attorney General Knox, Postmaster General Payne and Senator Hanna. When the conference broke up those who participated in it were unusually reticent.

The fact that the senators are members of the steering committee of the senate and Speaker Henderson and other members of the house are members of the steering committee of the house, is a fact which is not generally known.

There also was an intimation that the president talked with his hearty leaders in congress about the Schley case and color was given to this surmise by a remark dropped by one of the senators. But nothing definite as to the purpose or result of the consultation could be obtained.

WAYS AND MEANS TARIFF CASE

WASHINGTON, Feb. 15.—The Post tomorrow will say concerning the conference of the president with republican leaders of the house and senate at the White House that the chief topic was the ways and means committee's bill for the reduction of war revenue taxes.

It was decided that a conference of the republican members of the committee on ways and means should be held immediately after the war revenue bill passes the house for the purpose of ascertaining how the members stood on the president's proposition for a reduction in the tariff on Cuban sugar.

DISCUSSES SCHLEY CASE

The Post will also say: The Schley case was also under discussion at the conference, the president being anxious that the disposition of the case should not be followed by action in congress.

Speaker Henderson was able to assure the president that legislation could be blocked in the house, but it was pointed out to him by the senators that the situation in the senate was different, the more liberal rules of that body allowing any resolution to be considered if it commanded a majority vote.

The president's views regarding the Schley case were generally known last night as the result of the conference. It is said that he will not undertake to discuss in his review any of the events that occurred prior to the battle of Santiago, on the ground that if Schley's conduct was reprehensible it was condoned by the Navy Department and President McKinley when Schley's promotion was recommended.

As for the battle of Santiago the president is inclined to the opinion, according to his visitors, that the victory was won by all the captains, and that the credit should be given collectively to Schley, although the latter acted courageously and with Oregon, succeeded in preventing the escape of Colon.

YOUR KIDNEYS Make Your Back Ache

And lessen all your energies, so that you do not feel like doing much of anything, when they fail to perform their functions as they should—when they are weak, torpid or stagnant. Hood's Sarsaparilla acts on the kidneys directly and peculiarly, gives them vigor, and tone, and is positively unequalled for all their ordinary ailments. It contains the best and safest substances. I was in very poor health and had kidney trouble. I had read a great deal about Hood's Sarsaparilla and decided to give it a trial. It has done wonders for me, and made me a new woman. Mrs. Frances De Barrows, Russellville, Kan. Hood's Sarsaparilla promises to cure and keeps the promise.

IRELAND CONDEMNS ANARCHY

Would Amend Constitution if Necessary to Suppress Crime.

OFFERS THREE PLANS OF LEGISLATION

Is Applauded in His Virile Denunciation of "Enemies of Liberty."

CHICAGO, Feb. 15.—In the name of liberty itself Archbishop Ireland of St. Paul tonight demanded the passage of federal laws for the suppression of anarchism, the enemy of liberty.

Speaking at the monthly dinner of the Merchants club the archbishop specified three kinds of legislation to this end, each of which he regarded as essential to the welfare of the country.

Referring to the code of procedure in the islands, Governor Taft said in reply to a question by Senator Culberson that it is an American code rather than a Spanish code.

Under the Spanish regime, said Governor Taft, the courts were not only sluggish, but notoriously corrupt, and that the first courts established by General Oritz were no better.

Referring to the petition of the federal party Governor Taft said all the cases of imprisonment referred to there were for military and not civil offenses.

Practically there are no prosecutions for political offenses at this time, Governor Taft said that the original draft of the federal party platform had been submitted to the commission and that the declaration for statehood was then more explicit than was ultimately adopted.

"My recollection," he said, "is that we said to the representatives of the party that this must be far in the future and that we could make no promises one way or the other."

"It is not the commission responsible for the formation of the federal party," asked Senator Dubois.

"No, sir, it was not," Governor Taft responded. He gave the names of several prominent Filipinos who had assisted in the organization.

They had, he said, conferred with the commission and the latter had encouraged the formation as far as possible because the party was for peace.

The promise of statehood had been no prominent part of the missionary work of the leaders.

yard to do the work, convinced that the Americans built the best that marine architecture commands.

His majesty, free from jealousy, admires American ingenuity, and as he has placed the order, he has sent his brother to witness the launching, and this unreserved action is a compliment to the Americans and the emperor alike.

The subject assigned to Archbishop Ireland was "The Limitations of Liberty."

Emperor William has ordered that a brief report of the visit be made him daily. He has also ordered Prince Henry to write a detailed report of his experiences and observations during the trip.

Prince Henry will begin the report during his voyage and will deliver it to the emperor upon his return.

Sends Apology to Dewey. WASHINGTON, Feb. 15.—The Associated Press today received from authentic sources a statement regarding the report that Prince Henry had written a letter of apology to Admiral Dewey.

The information which follows was not received from Admiral Dewey himself, but an intimate friend of his, and can be absolutely depended on.

The admiral has recently received a letter from a member of the United States embassy at Berlin, in which the writer gave a résumé of a conversation he had had with Prince Henry.

The prince's attitude in the conversation was that he was not at all sorry to have the admiral's name mentioned in connection with the capture of Manila.

In conversation the prince, referring to his having hoped to return from the east via San Francisco after his service in Nicaragua, said that he was obliged to hasten home via Suez on account of his mother's illness.

The prince admitted that he was well aware that mistakes had been made on his part, but that his relatives with America had always been of the most agreeable and pleasant character.

He sent his highest regards to the admiral and expressed his sincere hope of seeing him during his visit.

ENTERTAIN GERMAN ADMIRAL

Americans Show Count Von Baudissin Over Some of the Larger Ships.

NEW YORK, Feb. 15.—Rear Admiral Count von Baudissin, commanding the German imperial yacht Hohenzollern, left Hoboken on the government tug Narketta today, accompanied by Commander Clifford West, aide to Admiral Barker.

They first visited the battleship Illinois, on whose deck Admiral von Baudissin tomorrow morning, by Admiral Evans. A salute of thirteen guns was fired as the foreign visitor boarded the American battleship.

Admiral von Baudissin manifested particular interest in the big guns of Illinois. The officers of the ship called attention to Olympia, being close by, and the German commander looked with interest at the flagship of the battle of Manila bay.

When the admiral left the warship a parting salute of thirteen guns was fired. "There will be religious service for the crew of Hohenzollern tomorrow morning. In the evening Consul General Bueas will entertain Admiral von Baudissin and a party of his officers at dinner."

KANSAS CITY MAN INDICTED

Former Banker of the Missouri Town Charged with Bribery in St. Louis.

ST. LOUIS, Feb. 15.—Robert M. Snyder of New York has been indicted for bribery by the February grand jury which is investigating the municipal franchise scandals and this afternoon a bench warrant was issued for his arrest and turned over to Sheriff Dickman to serve.

R. M. Snyder is the promoter who pushed the Central Traction bill through the municipal assembly. Mr. Snyder is prominent both socially and in a business way in Kansas City and is well known in St. Louis, Chicago and New York financially.

George Snyder, his brother and until recently cashier of the City National bank of Kansas City, said this afternoon that he had not seen R. M. Snyder for several days and did not know where he is.

"I think he is in New York City," said he, "but am not certain."

"How did his name become associated with the St. Louis scandal," was asked.

"I do not know," replied Mr. Snyder. "I don't care to say anything about the matter at all."

R. M. Snyder has been interested in financial affairs in Kansas City for several years. He was the principal promoter and president of the Missouri Gas company whose advent was the cause of Kansas City securing dollar gas.

Previous to that he was president of the Mechanics Savings bank, a state institution that has gone out of existence.

KANSAS CITY, Feb. 15.—Robert M. Snyder left for New York City Tuesday night and is expected home some time next week. Inquiry at his home failed to elicit his address in the east.

TARIFF MEASURE IN GERMANY

Prospects of the Bill Are Steadily Growing More Liminal.

BERLIN, Feb. 15.—The prospects of the tariff bill grow more dismal. The majority of the committee continues to vote amendments, against the warning of the government. An amendment providing for the abolishment of the municipal Octroi duties, still in vogue in some towns, received an overwhelming majority of votes after the imperial secretary of state for the interior, Count Posadowski-Wehner, had announced that it was contrary to the constitution and that constitutional revision was necessary before the abolition of those duties could be effected.

The agrarians in discussing the amendment showed their anti-American animus. Count von Kanitz, the agrarian leader, again argued that the United States was putting the tariff in force as a step of the agrarians and is intensely embarrassing for the government, since it is not certain when the treaty negotiations can be concluded, and the amendment is plainly designed to compel the government to invite tariff wars, through denunciation of the present treaties before new ones are concluded.

The trial of the officers of the Treber-Trocknund company of Cassel, caused a great sensation. The newspapers filled many columns with details of the trial which brought out the history of the company's meteoric career, showing it to have been a gigantic swindle from the beginning, though Director Schmidt succeeded in deceiving the board of overseers until the crash came.

The company was founded in 1884 with a capital of 350,000 marks for utilizing the waste products of breweries. Later it purchased a patent wood distilling method which proved worthless, nevertheless, Herr Schmidt captured the confidence of the public, and was able to raise the company's capital to 20,000,000 marks.

In a dozen parties he established branch wood distilleries in all the leading continental countries, not one of which had paid expenses. Yet Herr Schmidt succeeded in launching rose-colored reports of the company's business. The overseers confessed that they were so fascinated by Herr Schmidt that they trusted him without any examination of the affairs of the company.

Never an Honest Dividend. The evidence indicated that the company never earned an honest dividend and that it was a humbug throughout, even when its shares were manipulated up to 1900. MEET IN SECRET CONFERENCE German Ministers of State Convene in Chancellor's Palace at Berlin.

BERLIN, Feb. 15.—There was a secret conference of the ministers of state at the imperial chancellery's palace this afternoon under the presidency of the chancellor, Count von Buelow. In some quarters it was supposed that the conference was connected with the trouble in the tariff committee of the Reichstag, which resulted yesterday in the resignation of its chairman, Baron von Kardorff, one of the agrarian leaders.

BANK PLUNGER AWAITS BOND Defeating Official and Former Police Commissioner Under Sheriff's Charge.

DETROIT, Mich., Feb. 15.—Frank C. Andrews, former police commissioner, was arraigned in the police court this evening on a warrant charging him with misapplying funds of the wrecked City Savings bank to the amount of \$200,000 and upward while he was vice president of that institution. His bond was \$25,000, with two sureties.

Mr. Andrews did not have bondsmen in court and he was taken across the street to the county jail by Detective Lombard. Sheriff Dickinson met them in the jail office and took Mr. Andrews to his house, which is part of the jail, where he said he would keep him for a time while his attorneys

TEETH AND FOOD. A Help in Time of Need. Sometimes bad teeth cause illness, particularly when they are not fit to masticate food. A man in Ada, O., had all of his teeth drawn. He was sick with indigestion and lack of vitality and his teeth were in a bad condition. He expected, with a new complete set of teeth, to regain his health by thoroughly chewing his food, but he had an experience that is well worth knowing of.

"Instead of improving I continued to lose strength," he says, "until I was a mere moving skeleton. I tried a number of prepared foods, but none of them helped me until I got Grape-Nuts. The flavor pleased my palate at once. I soaked the food in cream and got along with it nicely. Within a few days I noticed that I was not so tired and jaded. Gradually I grew stronger, so I left off all other foods and took only Grape-Nuts."

"My old-time vigor came back and in two months I gained 15 pounds. This was remarkable for I am of spare build. Now I sleep and feel wonderfully well."

"Inasmuch as I am doing so nicely without teeth I have concluded to wait until my gums have finished shrinking before having a set made. I believe I could have gone through the drain on my system had it not been for Grape-Nuts. There is no doubt about the life-giving and nerve-building force of that food. I talk Grape-Nuts to all of my friends." Name given by Postum Co., Battle Creek, Mich.

MORMONS INVADE DENMARK

Utah Danes Return to Native Land to Erect Temple of Worship.

COPENHAGEN, Monday, Feb. 15.—Correspondence of the Associated Press.—The Mormons are making strong efforts to gain a permanent foothold in Denmark. It is notorious that this little country has furnished a large quota of emigrants for Utah. Some of the most prominent leaders of this sect are Danes. Danish missionaries who have been sent to work in their native land have not been well received in Denmark.

Most of them have been banished from the country as soon as it was discovered that they were here to gain converts to their religion and to encourage people to emigrate to Utah. For this reason their money for this is being collected among the Mormons in the United States. About 500 Danes are induced to emigrate to Utah every year.

The Danish press is aroused and it is thought that steps will be taken to prevent a Mormon temple being built in the capital of Denmark and to rid the country of Mormonism and its propagandists.
