

MISS ANTHONY IS HONORED

Flower in Woman's Suffrage Given Tribute by Associates.

EIGHTY-SECOND ANNIVERSARY OBSERVED

In Responding to Warm Words from Her Comrades the Aged Worker Gives Way to Tears.

WASHINGTON, Feb. 15.—Interest in the National Suffrage association meeting today was heightened by the fact that it marked the eighty-second birthday of Susan B. Anthony. She was the recipient of many congratulations and was feelingly referred to in the invocation by Miss Laura de Meritt. Many floral tributes also were received by her.

The following message of greeting from the foreign delegates was received by her and read from the platform: We, the undersigned, foreign delegates to the first International Woman Suffrage conference, gladly take the opportunity of your eighty-second birthday to express to you our love and reverence, our gratitude for your life long work for women and our rejoicing that you have lived to see such great steps toward the equality of the world at large in the direction in which you led.

GIANT OIL COMPANY FORMED

To Carry on Extensive Operations in Development of Western Oil Fields.

SAN FRANCISCO, Feb. 15.—The Post this evening says: Resultant upon extensive operations carried on in development work by an expedition of the Standard Oil Company, formed by Joseph Chasler and C. A. Canfield, of the Standard Oil Company, and A. E. Butler, the largest interest in the accumulation and transfer of western oil properties ever undertaken, has just been consummated and is now announced for the first time.

The transaction involves 105,000 acres of oil land in Wyoming, Utah and Colorado, 35,000 acres of which are proven, are turned over to the Standard Oil Company, a combine of syndicates controlled and managed by the oil business in Chicago, Omaha and California, for the sum of \$5,000,000. San Francisco will be the source of supplies and the corporation has already established a branch office here.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Hodge and Tar.

Protest Regulation of Vice.

We protest against the government regulation of vice in our new possessions and we urge President Roosevelt, who has been for years an outspoken opponent of such regulations, to put an end to it. It is the sense of this convention that no set distinction should be made in regard to the franchise in our new possessions. We point with satisfaction to our four equal suffrage states, containing more than 100,000,000 American citizens, and to the United States senators and nine congressmen, who represent constituencies of

BILLY WEST'S LONG SUCCESS

T. K. Heath Reviews Remarkable Career of Noted Minstrel.

MAN OF ORIGINAL AND BRIGHT IDEAS

Makes Over Half Million Dollars on Minstrelsy, in Which He Never Scores a Failure in Quarter of Century.

The news of the death in Chicago Saturday morning of William H. West, the veteran minstrel, doubtless caused more genuine regret on the part of the theater-going public and theatrical people in general from the Atlantic to the Pacific oceans than that of any theatrical personage who has passed away in recent years. While the death of Mr. West is mourned and admired by his friends and admirers who have known for some time that he was suffering from cancer—a malady that was sure to result fatally within a very short time—yet the news comes as a shock to all.

William H. West has been before the public as an entertainer for more than a quarter of a century and was one of the most prominent exponents of the art of minstrelsy this country has ever had. It would be hard to estimate the number of people that he has furnished entertainment for during his career, but it is safe to say that there are few men or women in the country who have been attendants upon places of amusement any time during the last twenty-five years who have not enjoyed the jokes, songs and variety "stunts" furnished by Mr. West and his company. In the world of minstrelsy he was an originator, never imitating or copying anybody. Not only were his performances and ideas prize-worthy for their merit as novelties, but for their artistic worth as well.

Discoverer of Ballad Singers.

He was particularly noted for discovering and bringing out male ballad singers. It was he who first discovered Raymond Moore, the famous tenor, who was found working as a clerk in a small eastern town. Later he found Richard Jose working in a blacksmith shop in California, from which he took him to join his company and to later develop into one of the greatest contraltos this country has ever known. Numerous other well known vocalists are indebted to Mr. West for the opportunity in the theatrical and musical world.

OMAHA A SUNDAY FAVORITE

Traveling Men Find Many Attractions Here on Their Day of Rest.

"Omaha is getting to be one of the best Sunday towns in the country," remarked L. A. Caddington at one of the hotels last night. "I used to come here on Sundays and would actually get lonesome because there was no one around the hotels. There were rooms to let in every hotel in the city. Since I have been sitting here tonight three or four men have been turned away because there were no rooms for them. One of the men said he had been to two hotels before coming here. Omaha is a good place for traveling men to spend Sundays and you bet whenever we are in reach of the town, we always come in. The art gallery is one thing that attracts me. I love art and every Sunday that I can I come to Omaha and if you want to see me in the afternoon, you will find me right over at Linger's. Others come to the theaters and others because they like the town and are well treated here."

Mrs. Lillian M. LaCamp

Secretary and Treasurer of the Kansas City Lodge, Order of the Eastern Star.

NEW women get sufficient rest. The care of young children, the duties of their homes and in many cases the demands made upon them by modern society keep them awake hours after they should be in bed. This constant straining of the nerves is killing hundreds of thousands of women. One of the first results is that the delicate menstrual function is upset. This terrible drain is sapping their lives—wearing away the nerve tissues that sleep cannot replace.

Mrs. Lillian M. LaCamp, No. 215 East Fourteenth Street, Kansas City, Mo., is the secretary and treasurer of the Kansas City Lodge of the Order of Eastern Star, which is composed of the wives and daughters of Masons. Her position is one of great trust, for in her keeping are the secrets of the order and the money which the members pay for its support. Her word carries great weight with everyone who knows her. In writing this testimonial she is in line with her daily duties—helping those who are in need. When she can tell them of a great remedy like Wine of Cardui, who have a better claim on her time and consideration than the hundreds of thousands of her suffering sisters? Mrs. LaCamp says this for Wine of Cardui: "I have used Wine of Cardui for my nervousness and I feel that I can never again be so nervous as I was before. Wine of Cardui is certainly a boon to worn out and tired women. I have never known a medicine that would so quickly and permanently restore a woman suffering with the many diseases peculiar to her sex. I have tried it myself and know whereof I speak and I have recommended it to dozens of mothers, suffering with scanty, profuse and painful menstruation, kidney or liver trouble, and I have yet to know of a case which was not greatly improved by its use. Because of this I am pleased to endorse it, feeling assured that it will not disappoint any."

Mrs. LaCamp is positive that Wine of Cardui will give relief to weak and suffering women and she does not hesitate to say so in strong terms of commendation. And she hopes that thousands

Why did YOU quit Coffee?

It probably comes to every thoughtful person at times that there are plenty of common, mediocre people, and that if one determines to be or she can press to the front, pass the crowd, and win position, fame and gold. It is largely a matter of determination and health. Many a determined character with brilliant possibilities is held back by ill health. Some find that bright, keen thought refuse to come to their brains, and wonder why.

Why did YOU quit Coffee?

The kind of brain work that makes successful professional men makes heavy draughts on the filling of the minute cells of the body, said Billing, being composed of a grayish sort of material which

must be replaced day by day, or the brain and other parts of the body will not act properly.

Coffee is a hidden but powerful enemy to one's progress in life. Its subtle, narcotic poison weakens heart, interferes with digestion and has a definite and destructive effect on the nervous system. People who are content to load themselves with impediments to progress, who refuse to supply body with food and drink of the kind needed to make up for the daily disintegration of nerve and tissue, must stand aside in the race for pre-eminence.

The ones who are properly fed, will surely win the laurels.

Postum Food Coffee furnishes the gluten and phosphates of grain needed by Nature to nourish brain and nerves with food. It does not narcotize and tear down. It is frequently misjudged on first trial, because of improper preparation, but it will be found to be a most delicious beverage if, after boiling commences, be allowed to continue boiling for 30 minutes. This is necessary to extract the food value and flavor.

There are those who are entirely careless as to what goes into the stomach, but the one who would make all his movements tend towards health and possible greatness, cannot afford to risk adulterated food or drink or even coffee.
