Republican Press Comment on Governor Savage's Candidacy

Albion News: The republican party of Nebraska is just now in a critical position. It is evident that there is an organized clique, composed of Savage, Bartley and their of the Symths, Meserves and Porters. friends, that is determined to use the republican party for its seifish purposes. It is inconceivable how they expect to accomplish their purpose, taking into account the feeling throughout the state. It is probable their organization is more extensive and complete than is at present all the state and federal patronage it means that it will require active and persistent effort on the part of the rank and file to frustrate their plans. It behooves every republican who is in favor of a clean and

reputable party to watch closely the developments of the next few months.

Alliance Times: Governor Savage makes the statement that he is a candidate for renomination as governor. Pop party organs will spend the time between now and next fall in lauding the governor with the hope that he may be nominated. Savage would be a "dead easy" mark for the pops. Hence, they want him nominated. Many of the old-time Bartley politicians are said to be organizing in Savage's behalf with the idea that his election can be forced. Those who have the general welfare of the party at heart should formulate plans to bring before the people at the next election a candidate whose record is unassailable. Governor Savage has shown weakness by an act in opposition to the demands of his party, and the republican party can afford no experiments.

Ainsworth Star Journal: Savage has announced himself as a candidate for governor. He is not satisfied with the disgrace he has brought upon the high office he holds and with the humiliation he has brought upon the republican party in Nebranka, but like every other impurity seeks to contaminate all with whom he comes in contact. We do not for one moment believe the man Savage could secure such nomination, but even the fact that he had enough following to give him a showing before the convention would to that effect and in so far be condemnation of the republican party in Nebraska. Savage should not, in justice to the party, be allowed to place his name before the convention and if it were should be received with the silence of contempt, while no voice should be so low as to do him reverence. And, further, if by any chicanery he were to receive such nomination, the masses of the people would bury him so deep in the bowels of oblivion as to forever put a damper on the hopes of criminals and their siders and abettors in high places.

Broken Bow Republican: The self-announcement of Governor Savage that he will be a candidate for re-election may be all right as a bluff, but we believe that Governor Savage is too loyal a republican to insist on his renomination against the will of the majority of the party that elevated him to his present position. The success of the republican party and its principles are paramount to the personal ambitions of any man in the party. No true republican will urge his candidacy for any position to the detriment of his party, knowingly. D. E. Fremont Tribune: The Lincoln Journal has obtained from Governor Savage an authorized statement that he will be a candidate for nomination for governor. Whether or not he would stand for the place has for some months been a disputed question. When he paroled Bartley it was pretty generally agreed that he had destroyed all tope of making a successful contest for a nomination. His party in its state convention rebuked his action by a vote of 998 to 168. The convention passed a resolution absolving the party from any sympathy with that official act. Undoubtedly the feeling of resentment toward the governor manifested then had, as is usually the case, been somewhat, allayed during the succeeding months. It was merely because of the lapse of time. Had the governor permitted the Bartley affair to rest where the convention left it he might have had some chance left, for the convention regarded the mistake of a parole more in sorrow than in anger. But when he granted an unconditional pardon to Bartley on New Year's day he elapped his party in the face and bade it defiance. Now that the governor has declared himself, the issue is made plain. It will be Savage and anti-Savage based largely upon the Bartley incident. It is well that this is so. There has been a good deal of maudlin sentiment about the Bartley matter, not in the state convention, has announced his candidacy for governor to be sure, but expressed by those who to succeed himself. The new novel by E. W. Hornung, which fresh from the press, is entitled "At Large," a name suggestive of the Australian bush which the author has made so interesting in former stories. As a matter of fact the scene of this story is principally England, though the stirring adventures here related have their beginnings in Ausing to England after making his fortune in Australia, finds another man, also from Australian bushranger and outlaw, "at large" in England under an assumed name, is accompanied by the complicating discovery that this same outlaw is one to whose friendly act, years before, he owed his fortune, and to whom therefore he feels himself bound in gratitude. The world has always judged pretty harshly the union of George Eliot and George Henry Lewes; not for itself, but for its influence upon others. The early life of George Eliot and the nature of her intimacy with Mr. Lewes and the strong personality of each are feelingly discussed in the March Delincator by Clara E.
