Dullness Characterizes the Dealings in the Pits. CORN SHOWS PRONOUNCED WEAKNESS

Wheat Has a Dull and Narrow Market, but Visible Supply Decreases - Oats Are Slow

and Provisions Dall.

CHICAGO. Feb. 12.—Corn showed propounced weakness for a time today and worked against a fairly good tone in the other grains. Duliness still hung over all pits, however, and at the close may wheat was a shade higher, May corn "grain ower and May oats "grain on the tone was fairly firm. News was generally bearish, but an unexpected firmness in Liverpool cables, based on talk of a grain import duty and on cold weather, nelped the market here materially at the opening. Trade was principally among the locals, with some buying and covering early. St. Louis was a selier here and though there was some improvement in the export situation, a bearish feeling developed on the corn slump and depressed prices. May opened unchanged to "go up at 75½ grain advance of Bradstreets" world's available report, but the liberal professional selling and reports of liberal offerings in the southwest worked against an advance. May closed steady, a shade up at 75½ grain, against 240 last week and 442 a year ago. Primary receipts were 48 cars, two of contract grade, and Minneapolis and Duluth reported a liberal movement, 323 cars, making a total for the three points of 430 cars, against 240 last week and 442 a year ago. Primary receipts were 485,000 bu, compared to 425,000 last year. Seaboard clearances in wheat and flour equalled 144,000 bu. The world's visible supply decreased 1,785,000 bu, compared to 426,000 last year. Seaboard clearances in wheat and flour equalled 144,000 bu. The world's visible supply decreased 1,785,000 bu, compared to an increase last year of 1,000,000 bu. The seaboard reported forty-two losds taken for export.

Lower cables and professional selling there was a fair undertone and a good deal of interest shown early. The corn bords, however, worked against the steady feeling and in the absence of an active trade price

Provisions were dull and closed s'eady, after a fairly strong opening. Hog receipts were lighter and influenced higher prices at the yards and at the pit. But the grain weakness caused a loss of most of the early gain. May pork closed 2½c up at \$15.90, May lard a shade higher at \$3.47½ and May ribs a shade up at \$8.50.

Estimated receipts for tomorrow: Wheat, 10 cars; corn, 70 cars; cats, 65 cars; hogs, 62.000 head.

NEW YORK STOCKS AND BONDS.

Market Turns Downward, and Level of Prices Slips Lower. NEW YORK, Feb. 18.—The restrictive influence upon trading of yesterday's storm was lifted today, yet the volume of trading was only about 500,000 shares. There was a show of strength during the morning hours, but it dwindled during the day and the market generally turned downward. Some stocks which had the advantage of early advances did not suffer materially on the day, but the general level of prices at the end was lower than yesterday.

ward. Some stocks which had the advantage of early advances did not suffer materially on the day, but the general level of prices at the end was lower than yesterday.

The disinclination to trade in stocks of the greater railroad systems and especially those of the transcontinental group, was very marked. It might have been due to the efforts making the revision of the transcontinental freight rates, or might be explained by the growing inclination to await next Monday's session of the aupreme court and a possible decision in the Northern Securities case before venturing upon speculative commitments in this group of stocks which have so much at stake in the decision of that case. Speculative opinion is in a perplexed state as to the merits of the Metropolitan Street Railway plan. The machinery of the plan is so complicated and the bearings of its operation so obscure that little can be made of it, and the general public is inclined to look askance at the securities invested. The interest of insiders in supporting the price of the stock pending the completion of the plan is obvious, but the price ran off more than a point in the late dealings today. This had a deterrent influence on speculation elsewhere. The same was true of the weakness of Amalgamated Copper, which lost 2% on the day's dealings.

The futility of the efforts to advance Southern Pacific and Sugar were additional influences in the same direction. The same development of interest among stocks seldom active or of little general importance continued to be a feature, but other stocks of the same class recently advanced here from profit-taking. Buying was conspicuous in Reading second preferred and in New York, Ontario & Western Lackawanna made a spurt of \$ points, but reacted 4. Profitable demands on the coal companies are said to be more than they can supply, and there are surmises of further proposed consolidation of the ownership of these roads. Another group active and strong was the southwesterns in spite of decreases in gross earnings for the s

in the market was due in part to this development. The closing was irregular, but there were only slight railies.

Wabash debenture Bs constituted the bulk of the bond market, but they lost practically all of their gains. Total sales, par value, \$5,300,000. United States bonds were all unchanged on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market was weak on the continuance of forced sales of Kaffirs by plungers, but the resumption of the rise is expected soon. Investment shares were dull on the announcement that the Leeds corporation is about to offer the public a bond issue of £2,000,000. The American department was the only healthy spot in the whole market, the shares being hard throughout. New York came a buyer of the low priced coalers. London sold United States Steel, but America absorbed our offerings. Rio tintos sold at 45%. Money rates are unaltered. The market was compelled to renew all bank loans. The new Imperial Tobacco company has been subscribed twice over.

LONDON, Feb. 18.—Money was in active demand today, rates were firm and supplies had not increased. Business on the Stock exchange was generally dull and irregular. The dealings were small. Giltedged securities were disposed to recede. Home rails were mostly lower. Americans were inanimate and mostly at parity. Atchisons were below parity. Denvers were firm. Later general tendency was better and prices closed steady. Rio tintos were firm. Copper opened weak at 55 and closed steady at 55%. Grand trunks declined on disappointing traffs returns. An increase was expected. Kaffirs were dull and there was expected. Kaffirs were dull and there was ittle doing in those securities. De Beers and Chariffeds were weak. There was no report of trouble in the Kaffir mar-

was little doing in those securities. De Beers and Charifreds were weak. There was no report of trouble in the Kaffir market today which would tend to confirm the rumor circulated in the failure in New York of large operators here in Kaffirs, though there was considerable liquidation. Failure announcements are made only on settlement day.

PARIS, Feb. 18.—Prices on the bourse today opened weak under the influence of a sharp reaction in Kaffirs on London advices. Later the realizations ceased, but no inclination to transact business prevailed. Toward the close the selling was renewed, which depressed the market generally. Bentes were dull. Industrials were weak. Spanish is were affected by the Barcelonia strike riots and rumors of dissension in the Spanish cabinet. Argentines declined on London advices. Metropolitans were well maintained. Thomson-Houston was freely offered. Rio tintos started firm and finished easier. De Beers were weak. The private rate of discount will today decrease to 29-16 per cent.

BERLIN, Feb. 18.—Home funds and internationals were firm on the bourse today. Spanish is were easier, owing to the strikes at Barcelonia. Canadian Pacifics were harder on satisfactory weekly traffic returns. Mines were maintained. Banks were strong on eastern buying.

Buyers all seemed to be anxbut they were mostly of only fair quality, the same as has been the case for some little time. Buyers all seemed to be anxlous for supplies, and as a result they were out early and bid good, strong prices for the better grades. The cattle changed hands freely and it was not long before most everything desirable was disposed of. Even the commoner grades soid without much trouble at fully as good prices as were paid yesterday.

The cow market also took on considerable life, and packers were particularly anxious for the better grades of both cows and helfers. As will be seen from the sales below, there were a number of good bunches in the yards. The market on the better grades could safely be quoted strong and active, and some sales looked higher. The canners and medium grades did not show much of any improvement so far as the prices paid were concerned, but they moved a little more freely than they have of late.

moved a little more freely than they have of late.

Bulls, veal calves and stags were in good demand this morning at fully steady prices. Receipts of stockers and feeders were limited today, so that the cattle of good weight and quality commanded good, strong prices. Owing to the scarcity of those kinds the commoner grades were in better demand than they have been for several days, but there was little or no improvement in the prices paid. Representative sales:

8 EHEEP—There was a fairly liberal run of sheep and lambs here today, but the market opened just about steady and fairly active. Lambs sold as high as \$6.40, year-lings brought \$5.75, sheep and yearlings, mixed, sold up to \$5.65 and ewes sold at \$4.65. Later in the morning, however, owing to less favorable reports from Chicago and other points the market here became less active and closed slow and lower, particularly on lambs. Sellers did not like to take off and as a result it was rather late before a clearance was made.

There were a few feeders included in the offerings this morning, but as the demand was in good shape the market was active and fully steady.

Kruger Still Has Faith.

Bruickhulsen, who has arrived in this country in the interests of the Boer cause, says that in an interview which he had with Paul Kruger previous to leaving Holland, Mr. Kruger said he felt confident that God will yet crown with success the cause of liberty in South Africa, and that he will return to his native land as president of a free people. Rev. Dr. von Bruickhulsen was pastor of President Kruger's church in Pretoria previous to the breaking out of the war.
