In our histories it is the martial glory of the revolution which we read most. The heroic sacrifices, the Valley Forge, the triumphs of Saratoga and of Yorktown...

Development of Federation. The federal idea, the second great civic result of the revolution, followed from the first...

work performed by Washington in educating the people to a realization of the need of uniting the states into a nation...

The writer in closing dwelt on the part Washington took in securing the ratification of the constitution by the states, and called attention to the fact that the almost absolute certainty that Washington would be the first president under the new constitution was a powerful factor in the contest for ratification.

AFFAIRS AT SOUTH OMAHA

City Attorney Lambert Reports on Law Suits Won by City.

LIST OF VICTORIES TO HIS CREDIT

Trial of John Henry Lochner expected to begin in District Court on Monday-Magistrate City Gazette.

At the request of Mayor Kelly, City Attorney Lambert has prepared a statement of certain suits won in the courts by the city since November 1, 1900.

One of the first suits of importance tried was that of Peter Lenagh, city garbage master, who presented a claim for \$3,350. This was not allowed by the council and Lenagh brought suit. The case was contested and the city won. Then there was the grading tax case of V. Coetka for \$1,500, and again the municipality won. For personal injuries alleged to have been sustained by Thomas Broadner brought suit for \$10,000. In this he was defeated. Herman Zeller wanted the city to pay him \$20,000 for breaking an arm and receiving severe bruises by reason of a defective pavement. This case went against Zeller, because witnesses swore on the stand that Zeller was intoxicated at the time. Anna Zeller also sued for damages alleged to have been caused by a change of grade of Twenty-third street. She wanted \$2,500, but the court and jury decided against her. Fred Lehner had a personal injury claim filed and wanted \$2,000, but the jury decided that the city was not to blame. A number of tax cases were tried and won. The total amount of the suits mentioned which were won by the city amounted to \$47,700.

In two cases the city won without going to trial. One was brought by W. C. Hickson for \$5,000 and the other by Jennie McGregor for \$4,500. When these cases were called no appearance was made by the plaintiffs, and it is asserted that this was because of an evidence being closely looked up at the time.

In addition to this City Attorney Lambert has brought suit to recover judgments obtained and paid by the city in four cases against the Omaha Gas company. These suits aggregate \$10,287 and represent outlay of the city for personal injuries alleged to have been caused by neglect of the Omaha Gas company when laying trenches. At the time the city granted a franchise to the gas company a bond was given indemnifying the city against loss in case of this kind, but under legal procedure it was deemed advisable for the city to confess judgment and then sue the gas company on the bond given at the time of the acceptance of the franchise.

Lochner Trial Monday. Secretary John J. Ryan of the Board of Education will appear in the district court on Monday morning with certain records of the board in the case of John Henry Lochner. Mr. Lochner was indicted by the grand jury for malfeasance in office, and it is expected that the trial will commence Monday. On account of his being a candidate for mayor Mr. Lochner is anxious to have the case tried as an acquittal that he expects a vindication. Mr. Ryan will be on hand with the records demanded. On account of the prominence of the defendant the case is attracting considerable attention just now, especially in political circles.

City Protests. On Monday the city authorities will file in the district court an appeal from the decision of the appraisers appointed by Judge Vinsonhaler in the Omaha Bridge and Terminal condemnation proceedings. The terminal company applied to the court for the appointment of appraisers with a view to condemning certain portions of A and B streets, including an alley. The court made the appointment and the appraisers awarded the city the sum of \$3. About one acre of ground is involved. The city proposes to fight the case and if possible compel the terminal company to purchase the ground at what adjoining property is quoted at.

Talking Library Site. Dr. W. J. McCann, as president of the South Side Improvement club, is using all of his influence to have the proposed Carnegie library located south of N street. He has been figuring with a number of owners of property in the vicinity of Twenty-fourth and O streets and Twenty-fourth and F streets. These owners are, however, holding back, with the expectation that the O street viaduct may be built some day and in that event the property would double in value. As only \$5,000 has been appropriated by the city for a site, the proposed location is considered entirely too valuable at this time to file bids.

Royal Arcanum Entertainment. Invitations have been issued by Knoxall council No. 1464, Royal Arcanum, for a musical and literary entertainment to be given at the First Presbyterian church on Monday evening. The entertainment will, it is expected, be one of the best of the kind ever given in South Omaha. Extensive preparations have been made by the lodge for the carrying out of what promises to be a decidedly interesting program.

Revival Meeting Tonight. At 8 o'clock this evening a mass meeting for men only will be held by Smith and Colburn, the evangelists, at the First Methodist Episcopal church. Special music by a male quartet and a chorus of voices has been arranged for this occasion. Charles Cullen Smith, the evangelist in charge, will deliver a confidential talk on "The Vices of Men" and relate some of his experiences while at Chikamauga park during the Spanish-American war. Every male person over 12 years of age is invited to this meeting.

Washington's Birthday. No special effort was made to observe Washington's birthday by the citizens of South Omaha. The banks and city offices were closed all day and the business at the stock yards was transacted before noon. There was only one delivery of mail, but business men made no pretense of closing their stores. Flags floated from staffs on all of the school buildings, but otherwise no attempt at decorating buildings was made.

Magie City Gazette. Mrs. T. B. Scott is still on the sick list. Miss Almee Johnson is home for a day or two from school.

A democratic meeting is billed for 7:31 West G street this afternoon.

H. B. Fleahy and wife are home again from an extended western trip.

There will be no preaching service at the First Presbyterian church today.

A meeting of the Workingmen's club will be held this afternoon at 7:30 o'clock.

Miss Alice Hayes, who has been quite sick, was reported much better yesterday.

The infant child of Dr. and Mrs. W. L. Curtis has about recovered from a severe illness.

C. A. Melcher is much better and was able to go out for a short time yesterday afternoon.

Rev. Foster will deliver a confirmation lecture at the Episcopal church at 2 o'clock this afternoon.

The local horse market is improving and a large shipment to the yards here are expected shortly.

Mrs. Esther Terrell, 251 South Twenty-first street, is seriously ill and friends are invited to call.

F. E. Sandwell entertained quite a party of guests at 3 o'clock this afternoon.

Y. E. Sandwell entertained quite a party of guests at 3 o'clock this afternoon.
