WHOLESALE AND RETAIL STANDS PROPOSED

Present Location to Be Retained for Jobbing of Green Stuff and Capitol dyenue to Get Little Stalls.

According to present indications, there are to be two market houses in Omaha, one on the proposed Capitol avenue site and the other where the city market has always been, on Howard street between Tenth and Eleventh and on Eleventh street from Howard to Harney. The first will be part in the extermination of the English. a retail market and the second a wholesale market.

Demand from the Trade.

'The purpose of the new ordinance is,' said Grocer Robert Smith, who acted as spokesman, "to create a wholesale market where gardeners and farmers can sell their stuff by the wagonload and where grocers can have a chance to buy of the com mission men. A councilman said: "We'll have to give the commission men credit for having hatched up a pretty clever scheme. They naturally want to retain the market privfleges where they are and the effect of this ordinance they propose will be to accomplish that end. If the Eleventh and Howard street market retains the wholesale privileges it will also retain the retail privileges, because every truck grower wants to sell his stuff in as large lots as possible, so he will go to the wholesale market first and then, if he has anything left over, he'll go to the retail market. Thus the retail market, if it gets any, will only get inferior goods. Still, I'm not willing to go on record as opposing the com ission men."
