Some baking powder makers claim their powders are cheaper. They can be cheaper only if made from cheaper materials. To cheapen the cost of an article of food at the expense of its healthfulness, as is done in alum baking powders, is a crime.

It was reported that the Deans contem plate taking the Murray hotel in the near future, making extensive alterations and improvements in the building, including the provision of a large grillroom, and operating the house until the proposed new lies Grand can be built, which will be for about five years. It will be two years before Rome Miller's lease of the present Her Grand expires, and another year will pass before other tenants of the property can be forced to give up possession. There-fore, in case the Deans finally arrange with Mr. Her for the erection of a new house, it will be several years before work can be started.

When asked as to the Murray hotel proposition the Deans laughed and said there was nothing in it. "It is the first we

Men of Affairs

One may sail the seas and visit every land and everywhere will find, that men of affairs, who are well informed, have neither the time nor the inclination, whether on pleasure bent or business, to use those medicines which cause excessive purgation and then leave the internal organs in a constipated condition. Syrup of Figs is not built on those lines. It acts naturally, acts effectively, cleanses, sweetens and strengthens the internal organs and leaves them in a healthy condition.

If in need of a laxative remedy the most excellent is Syrup of Figs, but when anything more than a laxative is required the safe and scientific plan is to consult a competent physician and not to resort to those medicines which claim to cure all manner of diseases.

The California Fig Syrup Co. was the first to manufacture a laxative remedy which would give satisfaction to all; a laxative which physicians could sanction and one friend recommend to another ; so that today its sales probably exceed all other laxatives combined. In some places considerable quantities of eld-time cathartics and modern imitations are still sold, but with the general diffusion of knowledge, as to the best medicinal agents, Syrap of Figs has come into general use with the well-informed, because it is a remedy of known value and ever beneficial action.

The quality of Syrup of Figs is due not only to the excellent combination of the laxative and carminative principles of plants, known to act most beneficially on the system, with agreeable and refreshing aromatic liquids, but also to the orginal method of manufacture. In order to get the genuine and its beneficial effects one should always note the full name of the Company - California Fig Syrup Co .- printed on the front of every package.
