City Officials Proncunce Proposed Ordinance Meedless and Premature.

DEBTS CAN BE LIFTED BY TAX LEVY

M. Issue is Intended to Raise Money to Cover Special Taxes Cancelled by Court Action

is Premature.

The refunding bond ordinance introduced at the last council meeting is attracting refusal to grant the temporary injunction considerable attention. City officials who had little to say on the subject a week ago are now outspoken in their denunciation of the measure.

The city treasurer and the city comppassage of such an ordinance. They compare it with the refunding ordinance passed February 8, 1898, which provided for an issue of \$300,000 in bonds "for the purpose of funding, taking up and making payment of the floating indebtedness and liabilities of the city." The ordinance now pending before the council has the same heading. The only difference is in the amount of the bonds. The issue of 1898 has been severely criticised, for the reason that a large part of the money derived therefrom was used in paying obligations which should have been taken care of in another way, namely,

from the regular tax levy. The \$300,000 in refunding bonds issued in in the house. 5898 sold at a premium of \$7,216.67, which made the total amount \$307,216.67. This money, as shown by the records in the office of the comptroller, was used to fund warrants as follows:

On account of the general fund. Fire fund. Police fund. Sewer maintaining fund. Lighting fund. Water rent. Judgment fund. Curb, gutter and cleaning fund. Chicago street sewer main fund. The principal objection to the ordinance is that it is premature. WOULD EXCLUDE CERTAIN CANDIDATES

One Feature of Plan is to Change Boundaries So That August Miller Will Reside Outside Fourth Ward.

A plan is now being proposed by certain members of the city council to redistrict wards before the coming election When this fact becomes known it may cause a number of candidates to wear worried looks, as it may leave them out in the cold. Slates for candidates are now being made up and after the nominations are made and the situation is positive the present council, if it so desires, can change the boundaries of the wards. After the last spring election and after the present charter went into effect a change was made from four wards to six wards, in conformity with the charter. This necessitated the appointment of two councilmen Mayor Kelly had in mind his appointees and so arranged the boundaries so as to take in Vansant and Johnston. Now the plan is to so arrange the lines as to shut out undesirable candidates.

Another feature is the Third ward line. which runs from east to west along R street, with the exception that a jog is made so as to cut the Swift packing house. This lines gives two assessors an opportunity of making assessments at Swifts, variety of music to the bill on view at the Councilman say that this should be changed so that one assessor should make the assessment for this corporation.

Another of the schemes is to so arrange the lines to prevent August Miller of the Transmississippi Exposition, where her cor- Fourth Ward from making the race for re-election. As the council is republican the democrats will have little if anything the ward lines;

Chief Etter Remonstrates. Chief Etter of the fire department is preparing a communication to be sent to the city council in connection with the dead street car rails on the streets. At Twenty-seventh and L streets there is a Y, which has broken more fire apparatus than any piece of track in the city. Months ago the city council asked the Omaha Street Railway company to remove these rails, but no attention has so far been paid to the request. On N street one line of dead tracks extends from Twenty-fourth street to a short distance west of Twentysixth street. These tracks have not been used for years and a number of requests have been made by the city officials for the removal of what is termed obstructions

In making a run to a fire at Swift's early Sunday morning, hose wagon No. 1 struck the dead rails at Twenty-fourth and N streets, and the cart was considerably damaged. The city will be put to the expense of not less than \$15 for repairs caused by

In speaking of the matter last night Chief Etter said that if the unused car tracks in the city were taken up the city would be saved considerable money each year in repairs to apparatus.

Changes at Hammond's.

C. S. Felch, who has been in charge of the Hammond plant here since the house was re-opened last fall, has been transferred to Chicago, where he will occupy the position of general timekeeper. During the San Diego 25.00 time the plant here remains in operation Helena and Butte..... 20.00 Mr. Phipps will have the place formerly Spokane 22.50 occupied by Mr. Felch. Those in the employ of the company here understand that plant may be shut down at any time here on steady time.

Hannon Resumes Grading. Dan Hannon has resumed the grading of the alley between Twenty-fourth and Twenty-fifth streets from F to G streets. The dirt used in making this fill is being taken from the lots on the east side of Twenty-third street north of G street. If the weather holds good the contractor expects to complete the grading within a

very short time. Fight is On.

Since John Henry Loechner has been cleared by the courts on the charge of malfeasance in office as a member of the Board of Education he has announced that he will go after the nomination for mayor on the democratic ticket in earnest. A well known democrat said last night that from present indications the fight at the democratic primaries, to be held on March 14, would be between Ensor and Loechner. Sloane is not being considered, as it is generally understood that he is looking for the nomination on the labor ticket.

New Planing Mill. Yesterday R. E. Parks & Co. secured permit from the building inspector for the construction of a planing mill at Twentyeighth and K streets. Lumber dealers expect to do considerable business here in the spring and the proprietors of the new planing mill company look forward to a busy season. Work on the mill is to be started just as soon as the weather will

permit Council Meeting Tonight.

An adjourned meeting of the city council is billed for tonight and there seems to be some prospects of a quorum. Some grading matters are to be taken up and arrangements made for paying a coupon on a paving district which is now due. The members of the council do not look for an extended session, as it is understood that the mayor will not insist upon appointing a library board at this session.

Socialists Select Ticket. Members of the socialist party met last night and selected the following ticket: Mayor, James Salmon; treasurer, T. L. Phillips; city clerk, Z. Markstall; councilmen-First ward, A. W. Adams; second ward, J. Stevens; third ward, L. Grimm; Fourth ward, E. Buscher; Fifth ward, L. Curran; Sixth ward, no nomination. See Our Latest Camera Before Buying

We have just received a shipment of a new Camera, especially made for us by the Rochester Optical company (makers of the "Premo"), which excels anything yet placed on the market, having the combined improvements of the 1902 series. Call and see this or write for full particulars and prices. If you are interested in photography send for a sample copy of our Photographic Monthly, free,
