A CAUSE OF HEADACHE.

One Very Common Cause, Generally Over-Looked. Headache is a symptom, an indication of derangement or disease in some organ, and the cause of the headache is difficult to locate.

However, for that form of headache called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form.

Mrs. C. Blau, a prominent school teacher in one of our normal schools, speaks of her experience with catarrh of the head and throat.

Stuart's Catarrh Tablets are sold by druggists at fifty cents per package, under the guarantee of the proprietors that they contain absolutely no cocaine.
