

FIVE THOUSAND EACH YEAR

Wash Says that Would Be Amount of Electric Company's Royalty.

MAYOR HINTS THAT IT IS NOT ENOUGH

While He Will Not Say So Positively, Mayor Intimates that He May Veto Resolution Extending the Contract.

Mayor Moore yesterday declined to say in so many words that he would veto the resolution extending the electric lighting contract, but he dropped several hints that would lead to that inference.

"The matter hasn't come to me yet," said he, "and I haven't had an opportunity of studying it. It will probably come up some time this afternoon, and then I'll have until next Tuesday to decide what I'll do."

"Isn't it a better contract for the city than the old one?" was asked.

"Yes, there's a reduction of \$20 per lamp, and a royalty of 3 per cent on the gross earnings of the company. To this extent it is better. But the gas company is paying us a better royalty. Is there any reason why the electric light company shouldn't pay as much?"

"The gas company paid to the city in the form of royalties for 1901 \$115,062.32."

F. A. Nash, president of the electric light company, said: "Figuring on the gross earnings of this company for 1901 as a basis the royalty we would pay to the city would be about \$5,000."

"That's the gross earnings of the company for 1901 were \$166,666," he was asked.

"Not far from that sum," was the answer.

One of the most enthusiastic supporters of the new electric light contract in the city council said: "It will result in giving the city six lights at 70 per lamp. A flat reduction of \$20 per lamp from the original price of \$114.60 is set out in the contract, and I think that by the time we deduct what we will receive in the form of royalties we can knock another \$20 off the price."

His attention was called to Mr. Nash's estimate of \$5,000 per year in royalties, to which he replied:

"I think it will figure out much more than that. The business of the electric light company is growing constantly."

BOY FALLS UNDER WHEELS

Nine-Year-Old Francis Norgaard Mangled by Freight Train on Belt Line.

Francis Norgaard, the 9-year-old son of Andrew Norgaard, who lives at Thirty-eighth and Leavenworth, died last night at the county hospital as a result of falling under a train on the Belt line.

The boy, in company with others, was returning from South Omaha, stealing a ride on a freight train. He attempted to get off near the county hospital and fell under the wheels. One leg and the other foot were crushed by the wheels. An inquest will be held.

WORD FROM GEORGE HEIMROD

Postal Card Written on Arrival at Pago Pago Received by His Brother.

Louis Heimrod is in receipt of a postal card written by Hon. George Heimrod on board the steamship Ventura on January 25 last. The steamer had just entered the harbor at Pago Pago and the postal card was mailed on a steamer just leaving. Mr. Heimrod writes that he and his daughter had a very pleasant trip across from San

ON A LONG-DISTANCE TRAMP

W. S. Hexamer Declares He is Walking to Win Thousand Dollars for Father.

A young man who said his name is W. S. Hexamer and his home as Philadelphia asked Desk Sergeant Hayes for lodging in the police station last night.

"I am on my way to San Francisco," he began, "and I must be back in Philadelphia before August 1 or my father will lose \$1,000."

"How will that happen?" inquired the sergeant.

"My father and a friend got into a dispute about how easy it is for a young fellow to go about the country without paying railroad fares. Finally father offered to bet \$1,000 that I could do it. The bet was accepted and I started. I am allowed to work as much as I can, only I must not pay any railroad fare."

"How is your bank balance now?"

"Haven't got a cent and want a place to sleep. It's pretty hard on a college graduate and one who has been raised in the lap of luxury to go through what I have during this trip. I weighed 250 pounds when I left home and I have lost fifty pounds along my journey thus far."

HENNINGSON ON BOND ISSUE

City Treasurer Explains His Position in Regard to Funding Proposition.

OMAHA, Feb. 26.—To the Editor of The Bee: As a misapprehension exists as to my position on the merits of the ordinance authorizing the issuance of funding bonds in the sum of \$100,000, I would, in order to set same at rest, submit the following:

On or about February 1, 1902, a statement was completed showing in detail that special taxes aggregating \$188,000 had been declared illegal and void by the courts and in said amount were embraced districts which had been bonded, such as Hancock park, etc., and where a re-levy would not lie and no other course except bonding being open. I favored the issuance of funding bonds in such cases, and do so yet, as a renewal bond would not hold water with financiers, for the reason that no provision exists for its payment, and in my judgment it could not be floated. The ordinance was not specific enough to warrant investors seriously considering a purchase, and if these bonds would find no purchaser the result would be damaging and far-reaching for our city. Again, I am in doubt as to any paper creating an indebtedness being legally passed prior to the outcome of the question of the 1902 levy. Respectfully,

A. H. HENNINGSON, City Treasurer.

Homeowners' Excursions.

Tickets to nearly all points in the United States on sale at all ticket offices of the Chicago Great Western railway on the first and third Tuesdays of January and February at the low rate of one fare plus \$2.00 for the round trip. Good to return in 21 days from date of sale. For detailed information address any Chicago Great Western agent, or J. P. Eimer, G. P. A., Chicago, Ill.

Some Strikers Give In.

CINCINNATI, Feb. 26.—The brewerettes of Cincinnati, Covington and Newport had over 200 non-union men at work today. The employers told the strikers yesterday that they would introduce new men today if the lockout of the engineers by the United Brewery Workmen continued.

URGES VACCINATION CREED

State Board of Health Sends Out Circular on the Topic.

In pursuing its fight against smallpox the State Board of Health is sending out a circular on the topic of vaccination. One of the members of the board says:

"One of the greatest surprises, as well as the greatest difficulties, is the lack of vaccination among the general public, not as Jenner taught, but a single attempt if successful, enough to make one permanently immune; not even an attack of smallpox will always do that."

"In the last three years very few vaccinated have had smallpox, even in modified form, however much exposed; and those who might have another vaccination until none would take, to prevent smallpox entirely. Undoubtedly more would have been attacked had they come in contact with a type of disease as virulent as now exists in several Atlantic cities, where the deaths are some 25 per cent of the cases, or in London, where for a time 60 per cent of the unvaccinated cases were fatal (more than 500 cases have now been fatal)."

"Were this type of disease to be imported to us directly, as it might be, the public sentiment would need to arouse to meet it."

"No one can tell us when to look for a change in type of disease, so it is an ostrich-like foolishness to ignore our epidemic until overwhelmed by it, when by vaccination it might be wholly stopped in a month. The city of Chicago has very few cases, and had comparatively few last year; because, particularly since the World's fair, vaccination has been vigorously promulgated."

"Below is a copy of the Vaccination Creed as recently formulated by Dr. Reynolds of Chicago, one of the most vigorous health commissioners in the country. It explains itself. This is now being distributed through the schools throughout our state, by the Nebraska State Board of Health, as part of an educational campaign."

"We, the undersigned, hereby publicly profess our firm belief, based upon positive scientific evidence, that the only safe and personal experience and study of smallpox and vaccination."

"That the true vaccination—repeated until it no longer takes—always prevents smallpox, and that the only safe and personal experience and study of smallpox and vaccination."

"That the true vaccination—that is, vaccination properly done on a clean arm by a vaccinated nurse, and which is repeated and unbroken afterwards—never did and never will make such a vaccination leave a characteristic scar, unlike that from any vaccination of the kind now in vogue. It is the only conclusive evidence of a successful vaccination."

"That no untoward results ever follow such vaccination; on the other hand, that the only untoward results ever through its neglect—a neglect begotten of want of knowledge."

"That the undersigned, Dr. Reynolds, M. D., Commissioner of Health City of Chicago, and Dr. H. S. P. Medical Inspector Department of Health."

PERHAPS SOME HARMONY NOW

Douglas County Democrats Will Endeavor to Get It Out of a Piano.

The bouncing baby piano that has been born to the Douglas County democracy to gladden its home in the city of Omaha is to be christened tonight with pomp and ceremony and Dutch "shampagny" water.

Senator John Liddell proposes to unveil it; Mascot Phillip J. Ahan to introduce it and Dr. Lee Van Camp to wet it down.

"I don't know what the reason for it is, but it isn't already awake, and Lysie Abbott will tell everybody how glad the club is that the symphonic youngster is on deck. A. J. Webb will lead a chorus in singing America and Charles J. Emory proposes to preach about the "A. Noble Plea." County Clerk Harry C. Miller is to administer the first dose of Castoria and incidentally talk to it of political bosses. County Commissioners Richard O'Keefe has been invited to reflect for five minutes and then say something warm and pertinent about "Economy." After the doxology the orchestra is to indulge in something that has been labelled "Grand Climax."

VIC WALKER FINDS TROUBLE

Has a Tussle with Officer and Comes Out with Both Eyes Bad.

Vic Walker, late proprietor of the Midway saloon, was arrested Wednesday afternoon by Officer Martin Shields and locked up, charged with carrying concealed weapons and resisting an officer.

Confusion had been made to the police that Walker had threatened to shoot one of two parties and that he carried a revolver for the purpose. Yesterday afternoon Shields met Walker in a restaurant near Twelfth and Dodge streets and started to arrest him. Walker, when he saw the officer approaching, it is said, attempted to pull his revolver. Shields grabbed his man and the two clinched. Shields finally taking the revolver from Walker. In the fight Walker was struck over the right eye with the muzzle of the weapon and a badly disfigured. Walker's right eye was lashed when the revolver was taken from him and he went to the station in company with the officer without further resistance.

Dr. Hutson was called and dressed his wounds. They are not serious. Walker's revolver was a forty-five caliber.

Marriage Licenses.

Marriage licenses were issued yesterday to the following:

Name and Residence. Age. Hazel Osborn, Rushmore, Minn. 25; Harolinda A. Benson, Omaha. 22; John L. Parker, Omaha. 22; Cora E. Coy, Omaha. 19; Fred I. Othmer, Omaha. 21; Joseph S. Boyler, Omaha. 21; Harry C. Schlosser, Sioux Falls, S. D. 24; Loui J. Phillips, Omaha. 24; Sarah McGurk, Omaha. 22; Nela Graver, Craig, Neb. 22; Severinus Jensen, Benson, Neb. 21; Harry C. Johnston, Newport, Neb. 23; Ethel D. Gemmill, Greenfield, Ia. 20.

Magic City Gossip.

Mrs. E. H. Barnum, Twenty-third and E streets, is on the sick list. New meetings have been ordered for the city offices and the police court.

The Norwegian-American Republican club will meet at Parkers hall tonight. A son has been born to Mrs. and Mr. Reuben Johnson, Twentieth street and the county line.

John Cassidy has commenced the building of a \$2,000 store building at Forty-first and Q streets.

The pound store given by the South Omaha Hospital association Tuesday afternoon was a decided success.

A meeting of the local populists has been called for this evening at the office of O. M. Zander in the Pioneer building.

Superior lodge No. 183, Degree of Honor, will meet tonight at Workmen hall and initiate a number of candidates.

The remains of Frank J. Victorine, who lived at Twentieth and Q streets, will be taken to Cedar Rapids, Ia., for interment at Bartley Richards of Ellsworth, Neb., spoke at the Exchange building yesterday afternoon in favor of leasing public lands for the benefit of stockmen.

This afternoon Mrs. C. L. Talbot will entertain the local nobbly clubs at the South Omaha Rebekek lodges. Over sixty invitations for this event have been sent out.

A building permit was issued yesterday to Dr. W. McCann for the construction of a two-story frame store building at Thirtieth and H streets. The structure will be about 100 feet long.

Carnegie Offers a Medal. ATLANTA, Ga., Feb. 26.—Andrew Carnegie today wired the secretary of the American Telegraphers' tournament to offer a gold medal to his runner-up for the speediest work in the tournament. The telegram came from the Federation of American Clerks, the records are broken. Seventy-three to all. The tournament will be held Saturday.

DEAL FOR SITE HAS BEEN CLOSED

South Omaha Land Company Sells Three Acres to Eastern Men Who Are Ready to Commence Making Beer.

South Omaha is to have another brewery. For some time negotiations have been pending with eastern men of money and the South Omaha Land company for the purchase of block 16. The deal was closed yesterday and the transfers will be made shortly.

This block, which contains about three acres of ground, is bounded on the north by B street on the east by Twenty-ninth street, on the south by C street and on the west by the Union Pacific tracks. Twelve lots, each 60x150 feet, are owned in the transfer soon to be made. Owing to the location the proposed brewery will be supplied with plenty of truckage facilities by the Union Pacific and if necessary by the Belt line.

It is expected that within a few days the plans of the company and the site of the building to be erected are ready for publication by the end of the month, or shortly afterwards. So far only sketches of the ground have been made and rough plans will be drawn shortly. It is the intention of the company purchasing the ground to commence building operations in the early in the spring. The buildings contemplated will cover the entire tract of ground purchased.

City Council Meets.

An adjourned meeting of the city council was held last night and several matters of importance were disposed of. Owing to legal errors in former appointments Mayor Kelly last night appointed his favorite library board all over again and the appointments were confirmed. The appointments now will date from the confirmation, and the board as proposed and managed by Mayor Kelly can meet and organize as soon as it pleases.

Reedy Scott, city bill poster, complained that he was not getting business enough. He further asserted that certain bill boards in the city were being carried away for kindling or being set afire. His little communication was carefully sent to the committee on public buildings. Later on in the session a resolution was passed instructing the city building inspector to remove all bill boards now in service in the city which are not considered stable.

Upon the suggestion of Johnston the council elected to borrow \$200 for the purpose of paying a coupon on a grading district. This coupon was not included in the general funding ordinance for the reason that nearly all of the funds for the payment of the interest is available. The loan will therefore be a short-time one.

As for the acetylene gas ordinance, Martin reported that the entire council for the matter go before the council for consideration. Johnston asserted that the ordinance was defective in that it had not been drawn by the city attorney and that it did not specify the time for the commencement of the work on the proposed plant. He therefore moved that all action on the ordinance be deferred indefinitely and this was concurred in by all members except Miller.

A petition for a fire hydrant at Twenty-seventh and Madison streets was turned down temporarily for the reason that the water company has not been able to secure pipe for the further extensions of its mains.

The complaint about the half fields at Twenty-seventh and R streets was reported on by Dewaral and the entire matter will be referred to the sanitary inspector.

After transacting a little minor business pertaining mostly to the improvements of streets and sidewalks, the council adjourned.

Dogs Are Property.

Some days ago William Bennett caused the arrest of Leman Fuller for killing a dog valued at \$100. The case was tried in police court yesterday afternoon before a jury and the verdict was that the defendant was guilty. The jury was composed of Harry Menefee, Max Rosenbhal, John Troutman, John F. Schultz and E. L. Howe.

After hearing the testimony and in addition the showing that the animal was worth not less than \$50, the jury rendered a verdict finding Fuller guilty and fixing the value of the dog at \$10.

While Judge King discharged the jury he said that he could not go behind the testimony, which went to show the value of the animal, and he therefore entered a fine of \$50 against Fuller. Attorney Sutton immediately filed a motion for the setting aside of the decision of the jury and the case will be argued later.

This is the first case of the kind to come up in police court since the legislature declared that dogs were property.

Club Members Active.

Members of the South Side Improvement club appear to be taking a great deal of interest in the opening of O street from Twenty-fourth street east to the city street. "There will be a big fill in the opening of this street for a couple of blocks," said Dr. McCann, the president of the club, "but we are now circulating a subscription paper for the purpose of raising money enough to assist in the grading of this big fill. As soon as this can be arranged, which, I am satisfied will be very soon, the grading will go forward. What the club wants is to open direct line to the proposed Burlington depot, and also a landing for the ferry-boat Castalia."

Mrs. E. H. Barnum, Twenty-third and E streets, is on the sick list. New meetings have been ordered for the city offices and the police court.

The Norwegian-American Republican club will meet at Parkers hall tonight. A son has been born to Mrs. and Mr. Reuben Johnson, Twentieth street and the county line.

John Cassidy has commenced the building of a \$2,000 store building at Forty-first and Q streets.

The pound store given by the South Omaha Hospital association Tuesday afternoon was a decided success.

A meeting of the local populists has been called for this evening at the office of O. M. Zander in the Pioneer building.

Superior lodge No. 183, Degree of Honor, will meet tonight at Workmen hall and initiate a number of candidates.

The remains of Frank J. Victorine, who lived at Twentieth and Q streets, will be taken to Cedar Rapids, Ia., for interment at Bartley Richards of Ellsworth, Neb., spoke at the Exchange building yesterday afternoon in favor of leasing public lands for the benefit of stockmen.

This afternoon Mrs. C. L. Talbot will entertain the local nobbly clubs at the South Omaha Rebekek lodges. Over sixty invitations for this event have been sent out.

A building permit was issued yesterday to Dr. W. McCann for the construction of a two-story frame store building at Thirtieth and H streets. The structure will be about 100 feet long.

Carnegie Offers a Medal. The telegram came from the Federation of American Clerks, the records are broken. Seventy-three to all. The tournament will be held Saturday.

NEW KEY TO THE SOUTHWEST

Fairbury-Herrington Out-Off Receives Favorable Consideration at Last.

PRESIDENT LEEDS MAKES INVESTIGATION

Short Line of New Track Would Bring Omaha a Hundred Miles Nearer to Big Feeding Districts of Texas.

A railroad cut-off proposition which has behind it every influence of Omaha business men, Omaha packing interests and the Omaha Commercial club, finally meeting with favorable consideration at the hands of the Chicago, Rock Island & Pacific railroad, which would be the seat of the alteration.

The plan is to build a line from Fairbury, Neb., directly south to Herrington, Kan., saving more than 100 miles from the journey as now taken between those points. Omaha would thus be brought practically as close to the big feeding districts of Texas and the south as is Kansas City. That would give this city a chance at the immense cattle business emanating from there, which now goes to Kansas City.

The other phase of the cut-off is that it would make Omaha an intermediary point on the short line from the northeast, including Minnesota, Wisconsin and other states to the southwest. At present Omaha is the long way around and the Kansas City pathway is used the most. There is considerable freight traffic and much passenger business from the northeast and the southwest, which would then pass through Omaha.

Leeds Appears Favorable. Years ago, when the Rock Island-Denver line through Omaha and Lincoln and Fairbury was first connected up with the line from Kansas City to the southwest in such a roundabout manner the prospect now emphasized was realized by Omahans, and the cut-off urged. President Purdy never favored it. Since the accession of Mr. Leeds to the presidency efforts have been renewed. The Commercial club has twice in the last few weeks written officially to Mr. Leeds regarding this matter and favorable answers have been received.

The matter is now pending personal investigation by President Leeds. A feature of his present trip to the southwest will be an investigation of Omaha's chances for a good share of the stock shipments from that territory if the cut-off is built. Before going south he canvassed the situation in the northeast to see what the Rock Island would get from there via Omaha, were the route made the short line as suggested.

Herrington is exactly south of Fairbury, about eighty-seven miles distant, through country which admits of easy railroad construction. At present the Rock Island runs southwest from Fairbury thirty-four miles on the Denver line to Belleville. Then it swings directly back to the southwest 104 1/2 miles to McFarland, on the Kansas City-Denver line. Then it turns back on the Kansas City-Fort Worth line to Herrington forty-nine miles and a half miles more. The line is thus a complete reversed Z, and a pronounced zigzag.

The total distance is 188 miles. The cut-off would save 101 miles of this. Omaha would then be only fifty miles farther from the southwest than Kansas City, where now it is more than 150 miles farther. The cut-off would also bring Omaha 101 miles nearer El Paso over the new line just built.

Anticipating a Shake-Up. The appointment of Ben Campbell, freight traffic manager of the Oregon Railroad and Navigation company, as general traffic manager of the Harriman lines and assistant to Traffic Director Stubbs, has caused a tremor in the traffic department at Union Pacific headquarters. It is said to preface a general shaking-up of traffic officials here which has been pending for some time. It is admitted by certain of these officials that such a readjustment is expected, but they assert that they know no particulars yet. It is thought that some men will be squeezed out, others advanced, and some positions blended.

SOME MATRIMONIAL MISFITS

One Man Wants to Get Away from "Towering Rage" of His Wife.

Because of the defendant's alleged cruelty divorce Judge Read has granted Frankie Leasure divorce from Alvin L. Leasure and given her the custody of their daughter, Irene, enjoining the husband from molesting.

Anna M. de Pignat considers that nine years is a cruelly long time for a husband to absent himself from a wife and she accordingly asks divorce from Placido Pignat, to whom she was married August 1, 1872.

In suing for divorce from Katie Swoboda Joseph Swoboda alleges that she used to get into a "towering rage" at more or less frequent intervals and that at such times it was only his "agility" that saved him from the blow that would have killed him. He avers that she used chairs or anything else that was easy to grab and swing and he wishes to get out of range permanently. They were married October 16, 1888, at Cedar Hill, Saunders county, Neb.

Lucy Alice Hayes was married to William Joseph in Manchester, England, January 25, 1878, and they have a son, William Edwin, aged 24, and a daughter, Lucy Maud, aged 20. Mrs. Hayes alleges in her petition for divorce that her husband deserted this family in June, 1898.

Spiritualism Declining.

It has been the general observation that for some years past spiritualism has been in a gradual decline. This is the law with everything that is not founded on true merit. The reason Hostetter's Stomach Bitters has been recognized as the leading family medicine during the past fifty years is because it is founded on true merit, and has always been found reliable in cases of indigestion, dyspepsia, constipation and biliousness. Try a bottle and satisfy yourself.

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend."

This great remedy is a God-send to women, carrying them through their most critical ordeal with safety and no pain. No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth; for it robs the ordeal of its horror and insures safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and good natured. Our book "Motherhood" is worth its weight in gold to every woman, and will be sent free in plain envelope by addressing application to Bradfield Regulator Co., Atlanta, Ga.

MOTHER'S FRIEND

Bradfield Regulator Co., Atlanta, Ga.

A RATIONAL CURE FOR RHEUMATISM.

SMITH'S GREEN MOUNTAIN RENOVATOR cures Rheumatism in the only effective way—by removing the cause.

READ THIS AND SEE IF YOU DON'T AGREE WITH US.

If you are a sufferer from rheumatism, you must agree with us, if you think the matter over a little, that you cannot hope to cure it unless you remove the cause of it. External appliances and medicines which only give temporary relief can be of no permanent use to you. What you want to do is to get rid of the cause and the rest will take care for itself. Clean up your system and get a new supply of blood, and you will soon be all right. We have the medicine you need.

The way to get rid of the trouble is to take Smith's Green Mountain Renovator. You won't have to take it very long, but you want to take a good course of it in order to make sure that you are completely cured and haven't the slightest trace of blood impurity left. This famous medicine has cured thousands of people and it can cure you.

St. Albans Remedy Co., St. Albans, Vt. GENTLEMEN:—I am very thankful I have at last discovered a remedy to cure my rheumatism. I have had rheumatism for twenty years, and for the past fourteen years I have suffered pain constantly from the top of my head to the tip of my toes, and for the past three years I had been unable to sleep very much and would be more tired when I would get up in the morning than when I would retire. After taking SMITH'S GREEN MOUNTAIN RENOVATOR three weeks the pain entirely disappeared and I can now sleep well and feel like a new man. I am very glad to recommend it to others and give all the information any one desires. (Signed) CHAS. E. OSTRANDER.

Smith's Green Mountain Renovator has enjoyed a large sale for many years, although it has not been advertised until recently. It is a Vermont medicine—known to all Vermonters—made of the roots and herbs of the Green Mountain State. It was formerly the property of a man who had neither the experience nor the ambition to introduce it throughout the country, but was satisfied with its great success in his own vicinity.

Now it is within everybody's reach. It is not only the sure cure for rheumatism, but the best thing in the world for anything due to bad blood or not enough blood. It also cures liver and kidney troubles and the long list of dangerous diseases which follow troubles in those organs.

This medicine is better than anything else for the reason that it is a compound of roots and herbs whose curative properties are absolutely known. Drugs soothe and seem to be beneficial. Nature's own vegetable remedies really cure. That is the difference, and a very important difference it is. If anybody in your family is weak, sickly or ailing, dragging around in a half dead condition all the time and not seeming to get any better, you can't be too quick in getting hold of Smith's Green Mountain Renovator. It will do for you what it never fails to do for other people.

We absolutely guarantee this medicine. This is something we can't do for anything else; that is to say, if you stand in need of a medicine of this character, come in and buy Smith's Green Mountain Renovator, and if it fails to benefit you, you can have your money back.
