Grain Speculation is Swayed by Weather Conditions.

CORN IS AGAIN ACTIVE AND STRONG

Wheat Has a Nervous Day, and Oats Are Active and Somewhat Uneasy -Provisions React and Hold a Strong Tone.

CHICAGO, Feb. 28.—Grain speculation was swayed by the weather today, General storms had an early bearish effect on wheat, but worked the opposite way with corn and wheat traders who sold short early were goreed to cover. The close was: May wheat, 142%c higher; May corn, 148%c higher highe

sea, on bushels the corresponding week last year. There was no export business reports.

Oats were active and shorts manifested nervousness over the prospects of further curtailed movement. Receipts were only eighty-nine cars. There was a good commission house demand early and some professional builing. The corn strength also had a strengthening effect. Cash people bought freely. There was liberal selling at top prices, but the general tone held strong. May advanced from 40%c to 44%c and closed ic higher at 44%c.

Provisions made up some more of their recent losses and held to a strong tone. Lighter receipts and better prices at the yards influenced a higher opening and a fair commission house demand and the grain strength advanced prices well. English houses did some selling. May pork closed 13%c up at \$15.47%; May lard, 7%c higher at \$3.37%, and May ribs 567%c advanced at \$8.42%.

Estimated receipts for tomorrow: Wheat, 35 cars; carn, 190 cars; oats, 95 cars; hogs, 29,000 head.

## INDUSTRY AND TRADE GOOD

In Spite of Unfavorable Conditions Results Are Satisfactory.

SEVERE STORMS STILL HAVE AN EFFECT

Cereals Open the Week with a Decided Reaction, Which is Followed by the Customary Recovery -Failures Are Larger.

NEW YORK, Feb. 28.-R. G. Dun & Co.'s Weekly Review of Trade will say:

Weekly Review of Trade will say:

Although the shortest month was further curtalled by two holidays and handicapped by the most severe storms of the winter industrial and trade results were most satisfactory. The closing week brought a general resumption of activity in lines that suffered from the weather and preparation for an exceptionally heavy spring business was reported at many points, southern cities alone being backward.

Insufficient motive power and bad weather combined to restrict the movement of coke from Connelisville and pig from production suffers at a time when a maximum output would not be excessive. This difficulty affected trade all along the line. Fressure for structural material is already severe and will probably be still more so as the regular building season draws nearer. Further hardening of quotations is reported and inquiries for delivery in 1903 are not exceptional. More foreign sizel has been engaged and domestic concerns are still bidding in the German market.

Footwear buyers are leaving New England without doing much more than a fair sample business outside special lines.

Makers of cotton goods are very cautious about undertaking future deliveries, owing to the uncertainty as to labor and raw material. Export orders are still available, but at prices slightly below the views of holders. As a rule woolen goods are well maintained and in brisk demand, but new lines of heavyweights are not sought.

Cereals opened the week with a decided reaction. As usual, speculative liquidation carried the decline too far, and there followed the customary receipts amounting to only 2,312,661 bushels, against 4,342,59 bushels a year ago. Corn showed the customary loss in both movements, receipts amounting to only 2,312,661 bushels, against 4,349,583 last year, while Atlantic coast shipments were 184,692 bushels, compared with 3,41,692 in the same week of 1961. Cotton rules fairly steady at the recent advance, which attracted more liberal marketing at the south, but supplies in first hands are repo

BRADSTREET'S REVIEW OF TRADE.

umes Despite Bad Weather.

NEW YORK, Feb. 2s.—Bradstreet's tomorrow will say:

Current demand is in full volume for this
season of the year, while business on spring
account goes forward in large volumes.
This too, in the face of untavorable
weather conditions in large sections of the
country.

In textiles cotton and cotton goods appear to be facing a crists. Demand continues active, particularly from Jobbers in prints and ginghams, but staple cottons also display exceptional strength. The chief complaint in fact is slowness of deliveries and the paucity of supplies. Woolen goods display good activity, though labor troubles are still unsettled. Wood is steady, with supplies held within narrow limits. Business failures in the United States for the week number 20, as against 28 last week, 177 in this week last year, 173 in 1900, 170 in 1899 and 231 in 1898. Canadian railures for the week number 27, against 24 last week, 28 in this week a year ago and 29 in 1900.

NEW YORK STOCKS AND BONDS.

Market Dragged Dewnward by Frenpect of Heavy Calls Upon Banks.

NEW YORK, Feb. 28—The forecast of
the bank statement and the prospect of
additional heavy requirements upon New
York bank reserves overcame the market
today and dragged prices downwards. The
decline toward the latter part of the trading showed more consistency than any
previous movement during the week.
Prices of all classes of stocks were alike
affected, both the minor specialities, among
which there had been some show of
strength earlier in the day, and the leading
standard stocks, which had lain inert until
the selling movement began. The liquidation was not urgent and showed no signs
of being forced, but it was evident that it
was thought best to be prepared for contingencies in the money market and take
in all sail possible. The preliminary figures of the week's cash movement as
usually published on Friday, which included the known movement of money up
to Thursday night, indicates that the banks
have lost nearly \$5,000,000 in cash during
the week. The exports of gold called exactly for \$5,513,223. The routine subtreasury operations took \$2,833,117. The regular
express movement with the interior was in
favor of New York to the extent of less
than \$1,000,000, and today there was deposited at the subtreasury \$500,000 for
transfer to Chicago, which would about
wipe out the earlier gain by the banks.
The loan item remains in the usual obscurity, but there has been no important
stock market liquidation. Syndicste subscriptions to the glucose and starch combination have been called, and there is a
possibility that the gold exports represent
the paying off of foreign obligations and
their transfer to local banks, as was the
case with the last gold that went out.
There is no great hope, therefore, of anything but a very weak bank return tomorrow. Beyond that the persistent firmness of the foreign exchange market inglocates that further gold will go out by
export next week. The first deposit at the
subtreasury for transfe Market Dragged Downward by Prospect of Heavy Calls Upon Banks.

The Commercial Advertiser's London financial cablegram says: The settlement was successfully completed today, but the public failed to respond. The general stock market stagnation which is quite likely to last until after Easter. Kaffirs, however, spurted on the street after the close of the exchange on news of the capture of 600 Boers, including Dewet's son. American shares asleep. Copper fell 1½ to £5± 1s 8d the ton in anticipation of a bad settlement as to statistics on Monday. Copper stocks were unaffected.

BERLIN, Feb. 28.—The feature of the transactions on the bourse today was a sharp rise in Deutschbank shares, on the very satisfactory balance sheet, which favorably impressed the whole list. Toward the close there was a setback of realizations, particularly owing to Vienna advices, where the sugar question and the decline in Lombard's caused uneasiness. It was said that there was little chance of the Lombard railroad declaring a dividend. Exchange on London, 20 marks 47½ pfgs. for checks. Discount rates: Short bills, 2½ per cent; three months' bills, 1½ per cent.
