DES MOINES, March 8 .- (Special.)-The state of Iowa came near missing a good fee today by reason of the neglect of some of the legislative clerks. The United States Gypsum company of New Jersey, with headquarters in Chicago, filed articles of incorporation with the secretary of state in order that it might begin doing business in Iowa. The capital stock is \$7,500,000 and under the law as it stands now the fee would be \$2,000 for filing and recording. But last week the legislature passed a bil to amend the incorporation laws so as to remove the limit of fees and permit the secretary of state to charge \$1 a thousand up to the full size of the company. Under this law the gypsum trust would have to structed for him. No instructions were pay \$7,500 to the state. Peculiar Case of a Convict.

He went to Clinton and reported for some time, but finally was heard from to the effect that he either wanted an unconditional pardon or to be sent back to the penitentiary. New State Argenal. The appropriations committee of the legislature will tomorrow consider the plans for the new state arsenal to be erected on ground that is now owned by the state just across the street from the state capitol. The plans have been drawn by Captain Wetherly of Oskaloosa, an architect and a member of the Iowa National guard. The building contemplates the expenditure of \$65,000. Adjutant General Byers will present to the committee a showing of the amount in which the general fund of the state has been enriched through the National guard. The old arsenal ground was sold for \$15,000 and thus turned into the general fund, there was a refund of over \$13,000 from the amount appropriated for the Spanish war and collected from the United States, and there was checked off from the appropriations about \$27,000 more. which, with other items, makes a credit to the fund of \$56,000 and over. It is believed that with this showing there will be an appropriation for the arsenal.
