Bearish News and Indifferent Trading Depresses Prices.

ALL GRAINS CLOSE WITH A SLIGHT LOSS

Wheat Rules Weak and Dull All Day -Corn Opens Strong, but Tumbles -Cats Nervous and Erratic -Provisions Decline.

CHICAGO, March 2—Generally bearish news and indifferent trading in grain today depressed prices. May wheat closed with a net loss of %c, May corn %6%c and May cain %6%c. Provisions closed a shade to life lower.

Wheat ruled weaker and somewhat dull all day. Most of the news was bearish—such as cables, weather and the government crop condition report. There was little demand for wheat from the outside and outside markets, including the seaboard, were lower. Traders were disposed to neglect all the markets and wheat prices inclined to sag, though frequent crop damage news came into steady prices. Much damage was reported from Kansas, Oklahoma, Texas, Missouri and Tennessee. The news, from the last named state, was perhaps the worst, but the trade was inclined to treat it with indifference. However, speculators were predicting no bad break in prices as long as there was an uncertainty as to crop conditions. The early strength in cofn had some strengthening effect. Bad wire service was accountable for absence of business and the outside stayed out of the market. May opened %6%c to %6%c, and when com went off weakened and closed heavy and weak and %c lower at 75%76%c. Local receipts, 25 cars, 2 of contract grade; Minneapolis and Duluth reported desire, making a total for the three points of 652 cars, against 97 cars (three days) last week, and 7% a year ago. Primary receipts were 56,000 bushels, compared with 1,025,000 bushels. Breadstuffs on passage increased 1,506,000 bushels, was shipments were 7,145,000 bushels, against 7,520,000 bushels last year.

Corn was fairly strong during the greater part of the day, but late turned easy on the wheat weakness and on persistent selling by the local crowd. Absence of outside business restricted trading. Small receipts influenced a fair early demand, as did also light offerings. There was more interest manifested in corn than in wheat and May opened ½c lower at 61%g61%c. The market was well supported on all the little declines. But when selling continued steadily May slipped

GOLD SHIPPED FROM EUROPE Quantities of the Yellow Metal Arc Consigned to New York

for Cubs.

NEW YOHK, March 2.—The National City bank confirms the report that a consignment of gold, amount not stated, is on the way to this country from Paris, by steamer L. Aquitaine. The shipment, it is stated, is a special transaction only in so far as it probably will be transhipped to Cuba.

Muller, Schail & Co. announce the receipt of 1,000,000 francs of gold from Europe, per steamer Labretagne, which arrived yesterday. The consignment is spoken of as a special transaction, and it is intimated that the gold will go to Cuba. It is predicted that from \$3,000,000 to \$5,000.000 gold will leave this port for Europe the latter part of this week. Some of the leading exchange houses are reported to be figuring on shipments, but as no fast steamer goes out before Saturday, announcements of engagements may not be made for several days.

The demand for foreign exchange today was unusually heavy, with the prevailing rate, \$4.87%, \$64.87%.

Foreign Financial.

Foreign Financial.

LONDON, March 2.—The money conditions were practically unchanged today in spite of government disbursements and a large distributing of dividends. But the pressure was leasened and the demand was active. Discounts were easier. Operators on the Stock exchange were almost idle and the business transacted were almost featureless; congols were firm, some home rails slightly reacted. St. Pauls and Eries were the best spots, Americans improved somewhat later and closed steady, Rio tintos were dult, copper was weak, the stocks at Liverpool and Swansea were increased by thirty-six tons. Copper closed dull at 534. Spanish 4s were weak on the Madrid rumors of the approaching emission of a new interior ioan of 12,000,000 pesetas and of financial difficulties, owing to the absence of business. Goldfields and Jagers were weak. Chartereds dropped sharply, owing to the illness of Cecil Rhodes. The Stock exchange here will be closed on Saturday next on account of repairs. Gold premiums are quoted as follows: Buenos Ayres, 141.62; Madrid. 36.97; Lisbon, 30.09; Rome, 2.30.

PARIS, March 3.—Prices on the bourse today opened firm, but weakened later, owing to the absence of business and less favorable advices from bourses. Toward the close there was a better feeling. The Italians improved on repurchases, and Brazilians were strong. Russians were easier. Metropolitans were easier on demand on favorable traffic reports. Thomsof-Houston railied. Rio tintos opened firm, but reacted on the decline in the price of copper and the increase in the stock of the bourse there was a general raily in prices. The private rate of discount was unchanged at 4.5-16 per cent. Three per cent rentes, 1017 30c for the account. Spanish is, 77.16.

BERLIIN, March 3.—Prices on the bourse today opened weak in response to lower prices abroad, which was increased by desire to close open account. Foreigners were dull on the reported rising in Nanking, China. Toward the close prices improved. Home rails finished firm. The weekly statement of NEW YORK, March 1-MONEY-On call steady at 262% per cent; closing bid and asked, 262% per cent; prime mercantile paper, 452% per cent.

SHEEP—There was a fair supply of sheep on sale this morning, but the demand was also liberal, and as a result the market was active and stronger. The early market, in particular, was active, and it only took a few minutes for the bulk of the offerings to change hands at an advance of fully 10016c over closing prices of last week. Lambs sold as high as \$6.50, sheep and yearlings brought \$5.60 and ewes 14.75. The last end of the market did not seem to be quite as active, and one or two bunches sold at prices that did not look quite as good as some of the earlier sales. There were only a few feeders in the yards this morning, and the market could be quoted fully steady.

of Last Year. NEW YORK, March 3.—Commercial insolvencies in February, according to reports to R. G. Dun & Co., were 1,109 in number, with aggregate indebtedness of 311,305,009. In the same month last year thers were 1,04 detaults, amounting to 311,287,211. The moderate increase in number was mainly due to misfortune at the south, where bankruptcles were numerous in general stores, although the amount of money involved was not large. The market opened steady with prices 1 point lower to 1 point higher and for a brief time had a very irregular movement with the tendency toward a lower level under realizing and bear pressure. The Liverpool cables were rather disappointing and port receipts were considerably larger than on the same day a year age. Rumors that yarns in Liverpool were depressed helped to create a feeling of uneasiness among smaller holders. But before the end of the first house the hears turned short about and hastily retreated before very builtish spot cotton market statements and splendid trade accounts from every quarter. European, Wall street and southern buying orders were leading the demand, but as the market worked higher a prominent local export house flooded the ring with May buying orders. The latter at once started rumors that Philadelphia interests, too, were scrambling for cover and with a whirf March ross to 8.99c. May to 8.73c and July to 8.72c. Very light estimates for tomorrow's Houston and New Orleans receipts did much to hold the market firm during the late) session. Above 8.70 for May and July realizing sales were enormous, but every bale offered was quickly absorbed by thoroughly frightened bears. From time to time during if day New England spinners bought freely and Wall street picked up occasional blocks of the July option. Trading was very active throughout, with sentiment at the close buillish on the prospect for smaller receipts during the rest of the week. The close was steady, with prices net 7 to 12 points higher. Total sales were estimated at 500.000 bales.
