

IOWANS TAKE OATH AGAIN

Both of the Senators Present Their Credentials of Election.

SHIP SUBSIDY HOLDS CENTER OF STAGE

Senate Passes a Large Budget of Bills, Among Which Are Measures for the Relief of Indians.

WASHINGTON, March 4.—The ship subsidy bill was further discussed in the senate today by Mr. Frye. His remarks were directed principally to the republican senators and he gave further expression to his views that the subsidy was a logical response to the demands of the republican party and that in its preparation he had omitted the objections entertained by senators friendly to the measure. No other senators desiring to speak today the bill was laid aside and a number of other bills were passed.

When the senate convened the credentials of Mr. Allison and Mr. Dolliver, both of Iowa, were presented. The latter's credentials were for a term of six years, beginning March 4, 1901. In response to an inquiry the president pro tem, Mr. Frye, announced that it would be necessary for Mr. Dolliver again to take the oath of office. Mr. Allison's present term will not expire until March 4, 1902. He entered the senate on March 4, 1877, and has been a member of the body continuously since that time. The new term for which he has been elected will extend for six years from March 4, 1902.

Bills Passed. At the conclusion of routine business the following bills were passed: To authorize the erection of buildings by the international committee of Young Men's Christian associations on military reservations of the United States; appropriating \$50,000 for the relief of the Mille Lac Chippewa Indians in Minnesota; authorizing the appointment and retirement of David McMurrin Gregg as captain in the United States army; to pay Elizabeth Muhlman, widow of Samuel A. Muhlman, \$5,000 on account of the death of her husband in the collapse of the Ford's theater building in Washington; appropriating \$15,000 to pay Lincoln W. Tibbets for having saved the cargo of powder of the brig Toronado in 1861; authorizing O. B. Brackett, pomologist, Department of Agriculture, to accept a decoration tendered to him by the French republic; making Great Falls, Mont., a port of entry of the customs district of Montana and Idaho; appropriating \$15,000 for the relief of Rasmusson & Streblu, contractors for the government building at the Pan-American exposition, on account of damage sustained by the cyclonic storm of September, 1900; appropriating \$1,150,000 to carry out an agreement with the Crow Indians, Montana, and \$5,000 a year for the support and maintenance of the permanent international commission of the congress of navigation and for other purposes.

SHIP SUBSIDY BILL.

At the conclusion of morning business the ship subsidy bill was taken up. Mr. Clay of Georgia stated that Mr. Vest, who was to speak on the bill today, was unavoidably absent and that he would address the senate tomorrow. He said, however, that the democratic senators would consume little time in discussing the bill. Mr. Frye, in charge of the bill, said he would submit additional remarks. He declared that he had undertaken to obviate the objections of those who were unfriendly to it, and he added: "I think I have succeeded, giving statistics of American exports, Mr. Frye, turning to the republican side, said: "I wish to say a few words especially to republicans of the senate." He then told them that he regarded the present bill as a logical response to the demands and the principles of the republican party and read from messages to congress by Presidents Arthur, Harrison and McKinley, in which the inferiority of our merchant marine was set forth. President Roosevelt had likewise stated his views in his message to congress.

Mr. Clay gave notice that he would address the senate tomorrow on the pending bill. The bill was laid aside as the unfinished business. Mr. Hoar gave notice that he would on Thursday next, after the disposition of routine business, call up the bill for the protection of the president of the United States and press it each day until a vote was taken upon it. A bill to divide the state of Texas into four judicial districts was postponed. Mr. Cullum, from the committee on appropriations, reported the executive, legislative and judicial appropriation bill for the fiscal year 1901 and gave notice that he would call it up in the morning. The senate at 3 o'clock went into executive session and at 3:10 p. m. adjourned.

TARIFF BILL IN WHITE HOUSE

WASHINGTON, March 4.—The house spent another day in discussion of the bill to classify the rural free delivery service and place the carriers under the contract system. No vote was reached and it is doubtful whether one will be had tomorrow, as the list of speakers is still large. The fate of the bill is in doubt, although the impression prevails that it will be defeated.

Hail with Enthusiastic Delight the Anglo-Japanese Alliance.

Various Plans for Elaborate Demonstrations at Ratification of the Compact Are Being Considered.

TOKYO, Japan, Feb. 21.—(Victoria B. C. March 4.)—Japan has gone wild with delight over the conclusion of the Anglo-Japanese alliance and is only considering how best to celebrate. Until the ratification everything is in embryo, but some of the communities will not be denied. There has been an elaborate torchlight procession at Tokyo, besides the formal interchange of congratulations at a joint meeting held by the two houses, of the Diet at which Claude MacDonald, the British minister, was present. The vernacular press is brimming over with cheerful forecast of the result of the "diplomatic union," flags are flying and altogether Young Japan is patting itself on the back.

Old Landmark at Grand Island. GRAND ISLAND, Neb., March 4.—(Special.)—A gasoline stove explosion at an early hour this morning took away the building which was Grand Island's first postoffice and saloon. The little frame structure, the former dignity of which descended until it became a cheap restaurant, was built about in the early '60s when the Union Pacific was built. It was erected by John Schuller, who died eight or nine years ago, who was postmaster at the time. The postoffice, said an old resident this morning, was principally a soap box, into which the patrons of the saloon would be thrown and the few patrons of the office came in and picked out their own mail. The saloon was running at the time and decidedly more active than the mail business. The building had years ago been moved back from the corner lot it occupied at that time to a restaurant by A. H. Barber. The explosion took place at 8:30 this morning and the contents and building were totally destroyed. The building was owned by Gustave Koehler; loss, \$300 on building and \$900 on contents. The loss on the building was covered entirely and that on contents \$200 insurance.

YOKOHAMA, Feb. 20.—(Via Victoria, B. C., March 4.)—The case of Mr. Gilmour, third officer of the British steamer Ajax, has become an international affair. In April last year Gilmour struck a disobedient, insolent coolie and was sentenced to fifteen days' imprisonment, according to Japanese law. The coolie also won a suit against Gilmour by default. Gilmour was brought back to England by the British government. The first word came from England yesterday when the local government of Great Britain recommended that the Japanese government reconsider the decision and indemnify Gilmour for his costs. Today a telegram from Tokyo states that the Japanese authorities see no reason why they should indemnify Mr. Gilmour for his costs. This is considered interesting at the juncture as showing the hard and fast line drawn between international affairs and affairs that are purely domestic.

Shaw Says San Francisco Sub-Treasurer is Able to Accommodate Large Gold Demands.

WASHINGTON, March 4.—Secretary Shaw has received a number of applications from New York bankers, asking for permission to deposit gold in the New York sub-treasury and withdraw equal amounts from the sub-treasury at San Francisco. Although these applications amount to \$50,000,000 to \$60,000,000, the treasury officials feel no uneasiness in consequence, as it is said the actual amount of gold needed in San Francisco will hardly exceed \$5,000,000 and that applications in excess of this amount were made with a view to ascertaining what the treasury would do in case the aggregate should reach the larger sum. Secretary Shaw will grant the requests for transfer so far as the actual business requires.
