Prince Henry's Expected Visit to the Pit Causes Dullness.

CORN FIRMER AND HELPED OTHER GRAINS

Wheat Opens Bearish, but Closes Higher-Oats Are Dull and Somewhat Nervous Provisions Are Dull.

CHICAGO, March 4.—Trade in grains tohay was exceedingly dull, but the tone was
somewhat firm. Corn strength helped
other pits and the close showed May wheat
ic up, May corn ic higher and May oats
Ac higher. Provisions closed unchanged to
a shade higher.
Opening reports in wheat were bearlsh,
but the sentiment soon changed and
though trade hung fire the later tone was
oullish. Beartsh traders were fearful to
sell short during the present uncertain
state of the winter crop. Commission
houses bought a little, and claims were
made that St. Louis and the southwest
sere buying. There was still no moisture
in the southwest, but weather conditions
were favorable otherwise. Corn strength
selped somewhat, but the extreme dullness
his partly to brokers watching in vain for
the arrival of Prince Henry to visit the
olt—took the edge off the gradually growmp builish sentiment. Cables were somewhat lower early, but improved. Bradrivest's report of the world's visible supoly was bearish in that it increased 362,000
mu., against almost a like decrease last
The Local receipts were 47 cars, 3 of
contract grade; Minneapolis and Duluth
reported 289 cars, making a total for the
libree points of 336 cars, against 471 last
reck and 382 a year ago. Primary receipts
were 430,000 bu., compared to 585,000 bu.
and year. Beaboard clearances in wheat
and flour equalled 127,000 bu.
Corn acted strong immediately after a
lapressed opening. Cables were lower and
ouying orders were scarce, but offerings
both here and western were very light.
The early selling was over in a short time,
and the buying improved, though in genral business was duil. The later sentiment was buillish, and a better export demand was reported. The southwest was as
millish as ever and prices advanced on the
fear that the country west would decrease,
May opened 167% to a shade lower at
Sugmi'she, soid to 82c and closed firm, %c
ongele, at 618,001%c. Hoceipts were 152
mars.
Oats were duil though somewhat pervous.
Some May stuff was offered at the open-

higher, at 61%261%C. Receipts were 152 cars.

Costs were dull though somewhat nervous. Home May stuff was offered at the openings, which with the early corn weakness caused a lower opening. Fluctuations continued to follow corn and as that cereal gained in strength May worked up a little. At one time the buying in this pit was the strongest on the floor. Commission houses and pit shorts did most of the buying. On the advance a good many long oats came out and for a time the market turned weak and closed only fairly firm, May %c ap at 4%c. Receipts were 107 cars. Provisions were dull and fluctuated over a very parrow range. The opening was fairly strong on the light run of hogs at the yards, but pork weakened on scattering selling for the outside account. The demand later picked up on buying by packers. Lard and ribs had an upward tendency. May pork closed unchanged at \$15.30, May lard a shade up at \$15.30, \$2% and May ribs unchanged at \$2.50. May lard a shade up at \$15.50, \$2% and May ribs unchanged at \$2.50. Estimated receipts for tomorrow: Wheat, 15 cars; corn, \$5 cars; oats, 60 cars; hogs, \$40.000 head.

NEW YORK STOCKS AND BONDS.

Prices Go Downward and Market

Cleses Active and Weak.

NEW YORK, March 4.—Today's stock market for the greater part of the day reported the retracing of yesterday's upward course in the process of taking profits on a small turn, which is a characteristic of the professional market. Late in the day, however, the selling gained appreciable force and carried prices downward by rapid stages to the lowest of the day, making the close active and weak. The market also broadened out considerably in the selling movement and the dealings were much better distributed than at any other time during the day. The standard stocks were as greatly affected as some of the minor specialties which have lately been so conspicuous in the market. The growing dimensions of the requirements on New York cash reserves seemed to be the cause of the rather acute uneasiness manifested. The engagement of gold for any other time during the engagement of gold for any other times. The contract of the San Francisco Traction reorganization called upon its subscribers today for a 29 per cent payment. This means a remittance to San Francisco Traction reorganization called upon its subscribers today for a 29 per cent payment. This means a remittance to San Francisco Traction reorganization will mean no encroachment upon the country's available money supply, as the treasury authorities will pay out in Ban Francisco immediately the amount deposited in the subtreasury in New York, but the operation involved a depletion of New York bank reserves, nevertheless. The subtreasury authorities will pay out in Ban Francisco immediately the amount deposited in the subtreasury in New York, but the operation \$1,11,00.

With the surplus entirely. Under this computation it is also expected that part of last week's decrease in cash reserves will be felt in this week's bank statement. The confidence which has been felt in the face of these developing figures was a partly based upon the belief in government bond circles that government bonds continued association of such a subtreasury late doday, f Closes Active and Weak. New York Mining Quotations. NEW YORK, March 4.—The following are the closing prices on mining stocks:

Ontario 7 Ophir Phoenix Potosi Savage Sierra Nevada Small Hopes Standard 3

LONDON, March 4.—The money conditions were somewhat easier today and the supplies were larger. Discounts were quiet. Stagnation and irregularity of business prevailed at the Stock exchange. The tendency in some directions was to recover. First-class securities were easier. Home rails were inclined to slip back. Americans were featureless at about parity and unsteady. In some instances they hardened on professional support and closed quiet. Grand Trunks were in especially good demand, the traffic report having been above expectations. Copper was firmer, closing at 54. Kaffirs were flat and inanimate. Chartereds and DeBeers were the weakest of the South African securities. Gold premiums are quoted as follows: Buerlos Ayres, 132.10; Madrid, 37; Lisbon, 30.

BERLIN, March 4.—Home funds were in good demand on the bourse today, in consequence of easier discount rates. Internationals were quiet. Banks were maintained. Coal shares were easier on the reduction of output being increased from 20 per cent to 25 per cent. Canadian Pacifics were harder on the increase of the traffic returns. Transvaal rails reacted. Exchange on London, 20 marks 48 pfgs, for checks. Discount rates: Short bills, 1% per cent; three months' bills, 3% per cent.

PARIS, March 4.—Prices were irregular at first on the bourse today; later there was a general reaction under the influence of the weakness in Kaffirs. Toward the close Parquet stocks recovered. Kaffirs were dull, but closed about the worst prices of the day. Italians were in good demand. Spanish is were strong on favorable labor advices from Barcelons. Brazilians were favored Metropolitans and Thomson-Houston were firm. Tractions and Sosnovice were weak. Rio tintos started dull, but recovered sharply. DeBeers were freely offered on rumors of the more serious condition of the health of Cecil Rhodes; they closed somewhat harder. The private rate of discount was 27-16 per cent. Three per cent rentes, 10ff 30c for the account; exchange on London, 25f 15½c for checks; Spanish 4s, 75.57.

ST. LOUIS, March 4.—WOOL—Easy; medium grades, 13618c; light fine, 124,6144c; heavy fine, 10612c; tub-washed, 21624c.

BOSTON, March 4.—WOOL—No weakness in valuables is noticeable in the wool market here this week, although the demand continues quiet. The lack of demand is due to the fact that the large manufacturers as a rule have enough wool in hand to meet present needs and have shown little disposition to buy, and the small fries are buying sufficient to fill present orders. Advices received here from the early Arisona cilp show strong prices paid there, in fact about 165c per scoured pound more than the same class of wool would sell for in this market at present. There is a moderate demand for territory wools and values hold firm. Choice lots of fine wool are quoted on the scoured basis of 15c, while lots running largely to staple will range up to 90c and better. Fine medium territory is quoted at 1445c scoured, with the range higher if well stappled. Fleece wools are quiet, but prices hold firm. Choic fine delaines are quotable at 254c, but some offerings are held higher. XX and above Ohlo are quoted at 1447c. Scoured, with the some offerings are held higher. XX and above Ohlo are quoted at 174074c; No. 1 Ohlo, 266264c, with 27c frequently asked.

cattle. As a geenrai thing the market could be quoted active and steady, though quite a few sales were made that looked stronger. The commoner kinds of cattle is sold treely the same as the cnoicer grades so that sellers had no difficulty in clearing their pens in good season.

The demand for cows and helfers continued liberal and the market on all kinds could safely be quoted steady with yesterday. The kinds that sell from \$4.90 up were in the best demand, the same as has been the case for some little time, but still even the canners and medium kinds brought fully as good prices as were paid yesterday without much trouble.

Very little change was noticeable in the prices paid for buils, veal calves and stags. There was a good demand for anything at all desirable.

There were quite a few stock cattle in the yards this morning, but as receipts of late nave been very light prices held steady today and the market was fairly active. Anything with weight and quality was picked in a hurry at good strong prices and light cattle were also ready sellers where the quality was good. The commoner kinds did not move as freely, but still even those soid at steady prices without much trouble. Representative sales:

BEEF STEERS. lings was in good shape this morning and the market was active and steady. Lambs, however, soid generally a dime lower and some sales were made that looked as much as 15c lower than the same kinds sold for yesterday. The demand, however, was active at the decline, so that the bulk of the offerings was disposed of in good season.

Chicago Kansas City Coffee Market.

NEW YORK, March 4.—COFFEE—Spot Rio, easy; No. 7 invoice, 5%c. Mild. quiet; Cordova, 88712c. The market is easy, with prices 5 points higher and after the call turned firm on active covering and new buying prompted by firm European news and a bullish estimate from Brazil for March Rio and Santos receipts. There was a further rise of 18710 points before the buying movement gave the least symptom of subsiding. Smaller Brazilian receipts than expected helped to strengthen the early market, but later in the day heavy realizing set in and pressure became a feature. Under this combined selling the market broke rapidly, at one time being quite 30 points off from the top and very weak. The close was eary, with prices net 15620 points lower. Total sales were 90.250 bags, including: March. 6.40c; May, 5.4660.70c; June, 5.70c; July, 5.65c; September, 6.896.10c; October, 5.8598.1sc; November, 6.1596.20c; December, 6.8676.30c.

Dry Goods Market.

NEW YORK, March 4.—DRY GOODS—There is considerable bidding for heavy brown cottons for export, but most bids are turned down. Home demand continues quiet at firm prices. No change in bleached or coarse colored cottons. Print cloths firm and quiet. Staple prints well sold up. Fancies quiet but steady. Silks in good demand and very firm.

MANCHESTER, March 4.—DRY GOODS—Cloths, quiet, with very little business doing; yarns, quiet and steady.
