VARIETY OF CONTENTS IS

week with a view to presenting to

a wide range of readers something that will be of interest to all. Both

in selection of subject matter and

illustrations is this critical judg-

ment exercised to the end that the paper shall always be up to what

Bee patrons have been led by

long experience to expect-the best.

The next number of The Illustrated Bee will be found to meet all these

IAN KUBELIK has created more of a

furor in America than has any musician in years. Not alone are

play, but they want to know of his personality. His most recent pho-

tograph, taken since his arrival at

nish the front page picture. It is a splendid likeness of this great

Bohemian virtuoso, and shows with remarkable clearness the

"Beethoven features" of which musical critics have made so much.

TAMMANY HALL has a new "boss"-

Lewis Nixon. In The Illustrated Bee on Sunday will be found a

splendidly illustrated special arti-

cle telling about this young man,

who has undertaken the work of

reorganizing the defeated and scat-

tered forces of New York de-

mocracy. His methods and his am-

bitions are fully set forth, mostly in his own words. The article will

be found very interesting and

valuable to all who keep posted on

national politics. It is in no sense

HUMAN LIFE IS CHEAP in the mountains of West Virginia. Nowhere on earth can a "tougher"

lot of workmen be found than those

who get out the poplar lumber in

the Blue Ridge country. A news-paper man with a camera pene-

trated the district and lived to tell

a graphic story of the life of these

men to whom murder is but an

ordinary incident in an existence

sodden with drink and other low

vices and brutalized by uner ling

arduous and poorly compensated toil. Illustrations made from pho-

tographs accompanying the article.

CHILDHOOD'S HAPPY HOURS are vari-

ously spent. Modern homes to which the stork has come are pro-vided with rooms especially dedi-

cated to the uses of the little folks.

These are told about in a well pre-

pared article dealing with the general topic of play rooms for chil-

dren. Illustrations for the article

are made from photographs taken

in Omaha homes by a staff artist,

showing exactly how the homes of

FIGHTS ANTI-ANARCHIST BILL

Senator Bacon Declares Measure in Present Form is Unconstitutional.

WOULD BE EXTENSION OF TREASON

Denies Jurisdiction of Congress to Legislate with Reference to Attack on Sovereignty Through an Official.

WASHINGTON, March 7 .- On account souri and Mr. Mallory of Florida, who expected to speak on the pending ship subsidy bill, that measure was not considered by the senate today.

The diplomatic and consular appropriation bill was passed and then the senate took up the measure for the protection of the president of the United States, Mr. Bacon of Georgia concluded his speech begun yesterday in opposition to the bill, making an extended constitutional argument against it. The senate agreed to make the bill the unfinished business at the conclusion of consideration of the ship subsidy bill.

A joint resolution authorizing the president of the United States and inviting the government of Canada to join in the formation of an international commission to examine and report upon the diversion of the waters that are the boundaries of the two countries, was reported favorably from the committee on commerce. Mr. Hoar urged that the measure ought to be considered by foreign relations committee, as it opened a very "important and delicate question," involving diplomatic procedure. On his motion, it was referred to the com-

mittee on foreign relations. Adopt Harris' Resolution.

A resolution offered by Mr. Harris of Kansas directing the committee on Indian affairs to investigate the matter of the removal of certain Creek Indians from the ands assigned to them and to report by for the custom service at Astoria, Ore. bill or otherwise, was adopted.

The senate agreed to a conference with the house upon the bill providing for the redemption of certain internal revenue stamps and Messrs, Aldrich of Rhode Colorade were named as conferees on the the session tomorrow. part of the senate. On motion of Mr. Hale sideration of the diplomatic and consul appropriation bill. The bill was read. It and Salmon of New Jersey. parries in round figures \$2,000,000 in appropriations. Mr. Bacon of Georgia offered an mendment providing that the student in- Ohio. Small of North Carolina, Johnson of terpreters employed in the legations and South Carolins, Cromer of Indiana and consulates in China should be selected in Zenor of Indiana. a non-partisan manner and that they should agree to remain in the service for ten years. The amendment was agreed to. The bill as amended was then passed.

The senate resumed consideration of the bill providing for the protection of the president of the United States. Continuing his speech begun yesterday, Mr. Bacon contended that the enactment of the bill in its present form would be an extension of treason as defined by the authorities. He quoted various writers on law and the constitution in support of his point. Merely because the crime named in the pending was not designated as treason did not change its character. It practically not intended to assemble the full strength was made treason by penalty provided and of the opposition, but rather to have repthe means resorted to to apply the penalty to the criminal. He indicated his belief that such a provision was unconstitutional. maintaining that treason had been defined in the constitution only after long and careful debate, during which every possible con-

Question of Jurisdiction.

He argued that the constitution intended man shall be equal before the law and said the remedy for an attack on the president or the killing of the president should be the same as if the crime were committed againt an individual. He denied congress had jurisdiction to legislate with reference to an attack on the sovereignty of the United States through the person of

Mr. Bacon maintained that the contention of those who supported the bill was in effect that there was no differentiation between the crime of treason and an assault upon the president, which threatened the exist ence of the government. He urged, how-

of the president would be treason.

Mr. Spooner of Wisconsin interrupted to say that although the assault upon a prestdent might be considered an attack upon the sovereignty of the government it clearly was within the power of congress to deal with it, as had been done in the pending

Mr. Bacon denied the constitutionality of any law which shall invade our institu- the president will do this.

tions, which shall upturn the recognized procedures of 100 years and which shall put it in the power of partisans either on the bench or elsewhere "to oppress men on account of political opinion.

The bill, if enacted, he said, would muzzie the press and make any editor afraid to express an opinion as to the president or any other official, for fear that if thereafter the president would be killed, he would be tried for murder. He would not he said, vote for the bill, if he were the only man in the senate or house opposed The only way to protect the president and vice president and heads of departments was to prevent persons who may have designs on their lives from having the opportunity.

At the conclusion of Mr. Bacon's speech of the Indisposition of Mr. West of Mis- Mr. Hoar, in charge of the measure, secured unanimous consent that the bill should be the unfinished business after the ship subsidy bill had been disposed of finally.

The senate at 3:30 p. m, went into executive session and at 3:35 p. m. adjourned

STILL ON RURAL SERVICE BILL House Will Finally Close Argument on the Classification Measure

Today.

WASHINGTON, March 7.- The bill to classify the rural free delivery service and to place the carriers under the contract system held the floor of the house today. By an amicable arrangement general debate will be concluded tomorrow and the bill will be considered under the five-minute rule on Monday.

Bills were passed as follows: To extend the time for the construction of a bridge over the Missouri river at Burlington, Ia.; to ratify the act of the legisassembly of Arizona, providing for the report on the diseases of the horse, two-thirds for the use of the house and onethird for the use of the senate, and for the purchase or construction of a launch The debate upon the bill to classify the rural free delivery and to place the car-

PAYNE'S PLAN LOSES GROUND

Reciprocity Method Apparently Opposed by Majority of Commit-

tee in Charge.

WASHINGTON, March 7 .-- A large number of the republican representatives opposed to the ways and means plan of Cuban reciprocity neld a private meeting at 3 o'clock this afternoon in the committee room of Mr. William Alden Smith. It was not intended to assemble the full strength resentatives from each state delegation. Those present numbered about thirty-five. The standing of the members from various states was fully canvassed and later it was shown that a majority could be mustered against the ways and means proposition.

The meeting did not, however, go into the various opposition plans. It was stated that as between the Tawney rebate plan and the postponement plan the latter was gaining strength. The matter led to an inderstanding that there would be no effort to force a vote next Tuesday night. Several plans of compromise were put forward in a tentative way during the day, but they lacked definiteness, and neither side felt disposed to admit that the stage of compromise had been reached.

PRESIDENT WILL SEE PRESS Chief Executive Will Act as Spokesman with Reporters on Cabi-

net Meeting Affairs. WASHINGTON, March 7 .- At the cabinet meeting today President Roosevelt re-quested the members not to talk to newspaper correspondents about matters under discussion at the semi-weekly meetings. It was thought best for the president himself to make public such matters as he deemed proper to be given out. Hereafter

what you Dyspepsia Cure

The process of digestion is simply explained. In the mouth, food is masticated and mixed with saliva containing a digestant called ptyalin. In the stomach, it is acted upon by gastric juice containing pepsin, which digests albuminous foods. In the intestines, pancreatin is added to digest fats and starches.

Indigestion always indicates an insufficient amount of one or all of these digestants. At first thought it seems proper to abstain from foods not easily digested; but reflection shows us that while this affords relief by giving the weakened organs less to do, it only makes them weaker by giving them less nourishment.

If you suffer from indigestion, the only right thing to do is to eat a generous variety of food and digest it by using such a preparation as Kodol Dyspersia Cure, which contains all the known digestants, and completely digests what you est,

ATTEMPT TO AVOID EVIDENCE

Attorneys for Meserve Argue for Dismissal on Technical Points.

MORLAN RAISES JURISDICTION QUESTION

Smyth Plays for Instruction of Jury to Find for Defendant, So that His Client May Have

"Vindication."

Judge Baxter of the criminal court yesterday excused the jury secured for the rial of John B. Meserve, former state treasurer, on a charge of embezzlement, until Monday morning as the series of arguments now being presented will not be finished before then.

The arguments are on the points of law raised by the attorneys for Meserve, in the having the indictment returned against him by the last grand jury quashed and the trial ended before any witnesses are put on the stand to testify as to the de-

Attorney C. J. Smyth concedes that the former treasurer deposited the \$60,000 of permanent school funds in the Union Stock Yards National bank of South Omaha, as charged, but contends that the \$3,000 interest paid thereon was Meserve's profit, that the state had no title to it and that therefore the only embezzlement was a technical one committed in depositing the fund itself in the bank.

Smyth's Words Like a Brook. He began his argument Thursday afternoon after objecting to the first question first witness by the anked the prosecution. Mr. Smyth began speaking at about 4 o'clock and continued until court closed at 5. Yesterday morning he resumed before 10 o'clock and continued until twenty minutes before noon, but the substance of his entire argument was contained in the report previously printed in The Bee, and most of his time yesterday was consumed in reading the rulings in previous cases more or less similar, Judge Baxter having requested at the beginning that the references be furnished in full to enable the court to dispose of the question promptly after the arguments should be ended.

Mr. Smyth was followed by W. S. Morlan of McCook, who is Meserve's business coun-

Question of Jurisdiction.

Attorney Morlan has dragged in the question of venue, maintaining that even if the interest money was embezzled it was not embezzied in Douglas county, but in Red Willow county, for the reason that Meserve could not become an embezzler until the money was in his name and that it was not in his name until credited to his account in the First National bank of McCook, which town is in Red Willow county.

Attorney Smyth shied around this contention as to jurisdiction when he made his argument and has assumed the attitude of deprecating Morian's effort so that should an exhibit at the St. Louis exposition, to Morian be successful and the ruling of the print 99,000 copies of the special report on court be affected thereby, while Smyth's the diseases of cattle and 200,000 copies of contention is overruled, he (Smyth) will be in a position to weep over the lost opportunity to "vindicate" the official whom he now struggles to save from being tried at

Attorney Morlan continued his argument well into the afternoon and an early adjournment was taken after the county atriers under the contract system then was torney had spoken briefly, citing some cases resumed, an arrangement having been in support of the contention of the state reached by which general debate on the and paving the way for Deputy Duna and sland, Platt of Connecticut and Teller of bill should close with the termination of the attorney general, who is to make the principal argument today. The attendance Those who spoke for the bill were: Mr. in the courtroom has dwindled to the judge,

OFFICERS UNDER CHARGES

Major Waller and Lieutenant Day of Marine Corps Cited to Court-Martial for Cruelty

WASHINGTON, March 7 .- Acting Secretary Darling of the Navy department has received a cable message from Rear Admiral Rodgers, commanding the Asiatic station, confirming press dispatches to the effect that Major Waller and Lieutenant Day of the marine corps have been ordered before a court-martial to meet on March 17.

This is the extent of the information contained in Admiral Rodgers' dispatch. Nothing is said with regard to the composition of the court, the place of meeting or the charges against the officers named. From other sources it is understood that the court-martial proceedings were instituted by General Chaffes because of the charges against the officers named that they were unnecessarily severe and brutal in their treatment of certain natives in their memorable march across the

The expedition in question was made under the direction of General Chaffee, and the marine battalion was temporarily detached from service under the naval com-mander for that purpose. In view of these circumstances, it is assured that the two marine officers will be tried by a court omposed in part or in whole of officers of the army, although it is possible that one or more marine members may be included.

SENDS FOR GOVERNOR WOOD Secretary Root Directs Executive Conference on Transfer of Gov-

ernment. WASHINGTON, March 7 .- Secretary Root today ordered Governor Wood at Havana to ome to this city at his earliest convenience, for the purpose of conferring with the president and secretary of war in regard to the necessary steps to be taken for winding up the affairs of the military govern-

ment in Cuba and the establishment of

the Cuban republic. It is believed here that

0-----BAD WEATHER HAS EFFECT

> Quantities of Goods Are Stalled in Transit by Floods.

BIG PREPARATIONS FOR SPRING TRADE

Iron and Steel Show No Improvement, and Cereals Have a Narrow Market with Few Changes-Failures Are Fewer.

NEW YORK, March 7 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

say:

Unsettled weather was the most unsatisfactory part of the business situation, a sudden thaw following a heavy snow fall produced freshets and floods. Manufacturing and transporting interests suffered severely and consumers were urgent for shipment of delayed goods, while great quantities of merchandise became stalled in transit. Preparations for an enormous spring trade continue undiminished. There is still some uneasiness regarding the labor situation at the coal mines and at Fail River there is disagreement as to a cut of cloth.

spring trade continue undiminished. There is still some uneastness regarding the labor stuation at the coat mines and at Fail River there is disagreement as to a cut of cloth.

Not only is there no improvement to be recorded in iron and steel, but floods in the Pittsburg region added to the pressure by completely glossing many plants and damaging much costly machinery. Supplies of coke failed to increase, because the railways were badly disorganized, and the week was one of weak dutputs. The recent destruction by the elements makes an unusual demand for structural material and on spot business buyers gladly pay premiums of \$8 a ton above hist price. The situation has become so abnormal that it is impossible to gauge the market by ordinary standards or secure quotations of say value for comparative purposes. The encouraging feature is that most grades of pits fron are higher in prices by from \$50 to 500 per ton. Finished products are active. Steel rods sell at the highest price for many months; bar iron is higher; cut nails have advanced and light realls have also been put up. A favorable feature is the settlement of the wage scale agreement by the timplate mills.

It has been a marrow market for cereals, with price changes few and the government crop report of March 30 on supplies the settlement of the wage scale agreement by the timplate mills.

It has been a marrow market for cereals, with price changes few and the government crop report of March 30 on supplies and speculation has naturally been almost absent. Wheat, including flour, exports for the week aggregate 4,005,941 bushels, against 31,747,500 bushels, against 31,747,501 in the week last year. Wheat exports for the week last year. July 1, 1901, to date cornexported are \$3,471,600 bushels, against 31,472,501 in the week last year. The book shows the print cloth industry is not settled as yet, wage scale differences constituting a menace to continued activity in other lines, shipments from eastern markets are aligntly larger for the week and prices in F

BRADSTREET'S REVIEW OF TRADE Good Advices Are Received from the West and Northwest.

NEW YORK, March 7 .- Bradstreet's to morrow will say:
Spring trade increased in spite of serious interruptions in the sections adjacent to the Alleghenies caused by floods, snow-storms, interrupted telegraphic and mail facilities, crippled railways. Western and northwestern advices are, of course, relatively the best received, and millinery, clothing and kindred lines of spring goods are most active. At leading eastern markets textiles have felt the quickening of demand and prices have strengthened in many lines. The condition of cotton goods particularly is in fact second only to the strength displayed in iron and steel. All available measures of midwinter trade point to exceptional activity, despite unfavorable weather conditions. February clearings as a whole, notwithstanding reductions at the metropolis, due to duliness in speculation, are slightly larger than a year ago. Failures are no more numerous, but a few large bank suspensions, due to mismanagement, or worse, have swelled liabilities one-quarter above a year ago. Prices have feit the quickening influences in a slight increase in spite of textiles, dairy products among provisions, live stock, coal and coke and building mamorrow will say:

Prices have fest the quickening influences in a slight increase in spite of textiles, dairy products among provisions, live stock, coal and coke and building materials. All signs, in fact, favor the indication that legitimate trade and industry is, except in a few instances, considerably more active than a year ago at this time. Although there is less apparent tension in iron and steel the situation is really a remarkable one. Floods and high water have interfered with production, limiting supplies of fuel, hampering productive operators and checking shipments. Despite present exorbitant prices the speculative element is not prominent and orders are accepted for distant delivery with no effort at inflation. Coal shipments have been curtailed to such an extent that dealers supplies are low and quotations very strong.

at innation. Coal shipments have been curtailed to such an extent that dealers supplies are low and quotations very strong.

Nothing new has developed in the footwear industry. Eastern shops are still working on old contracts, but buyers are delaying the placing of fall business in expectation of securing more satisfactory terms. Shipments have fallen below the figures of the same week last year, but since January 1 there still appears a good increase over 1901. Leather is weaker and hides declined another fraction. Cotton goods are well sustained, the stronger raw material giving all the advantage to sellers, but there is much uncertainty as to the labor situation. This tends to make the mills conservative concerning the acceptance of orders for future delivery. Delay is reported in the market for woolens, buyers having apparently completed their first round of orders. All staples steadled and some rose sharply, the net changes for the week amounting to a considerable advance. It was natural for grain to hold firm when wheat receipts at the west were 2. 599,344 bushels, compared with 74,565 last year, while arrivals of corn were but 2. 694,112 bushels, against 5,250,435 a year ago, Exports of wheat, flour included, were 4, 174,891 bushels, against 5,250,435 a year ago, Exports of wheat, flour included, were 4, 174,891 bushels, against 5,250,435 a year ago, exceeding 10 per cent of the movement a year ago, or 371,904 bushels, against 2,257,438.

Speculation was quiet, with many guesses as to the coming report of farm reserves.

ment a year ago, or snaw busness, against.

Speculation was quiet, with many guesses as to the coming report of farm reserves. For the first time in this crop season cotton showed an advance over the price at the corresponding date last year and it is significant that the higher figure falled to attract heavy selling at the south. Visible supply statistics of coffee were calculated to depress the market, but there was a recovery which may be attributed to gloomy cables from Brazil regarding the outlook for the new crop.

Failures for the week numbered 176 in the United States, against 206 last year and 27 in Canada, against 26 last year.

MAKING PEOPLE OVER ACAIN

THAT IS PRACTICALLY WHAT SMITH'S GREEN MOUNTAIN RENOVATOR. THE GREAT BODY BUILDER,

DOES FOR PEOPLE.

You very often hear people say they wish they could get away from themselves and wish they had new arms, new legs or something of that sort. This sounds like an unreasonable idea, but as a matter of fact it isn't.

If you give Nature a chance, she will make you all over again and make you right. All that is needed is the assistance rendered by Nature's own products, wisely intended and prepared for these very purposes.

In Smith's Green Mountain Renovator we have a combination of herbs and roots which have been shown to provide just the assistance that Nature needs in rebuilding the body. This isn't a theory, but a fact which has been fully proved by experience.

We urge you to try this medicine. Vermont is the home of this medicine, and it was discovered many years ago by a celebrated Scotch physician visiting that State for his health. He found among the roots and herbs of Northern Vermont the ingredients of a medicine which he believed to be the ideal blood

medicine. He was right, as thousands will testify.

"I have been troubled for 25 or 30 years with what some physicians pronounce Eczema and others Salt Rheum. It is at any rate a case of bad blood disorder and anything but pleasant-constantly itching. I have been treated in many different ways and tried almost everything that made any pretentions to cure blood diseases, and to no purpose, until through the advice of a friend I was prevailed upon to try Smith's

GREEN MOUNTAIN RENOVATOR.

"Have used three bottles faithfully, according to directions, with wonderful effect-allaying the itching-though not yet entirely cured, am a long ways towards it, and have every reason to believe that I soon will be. In fact I am so much impressed with the curative powers of the medicine that I am ever ready to extol its merits."

(Signed) Chas. E. Millard, Keeler's Hotel, Albany, N. Y.

If you have any blood troubles or diseases or disturbances of the liver, stomach or kidneys; if you are in an enfeebled, broken down condition of continual lassitude; if you feel that life is no longer worth living, get yourself built over again by the use of Smith's Green Mountain Renovator.

Sick men ought to use it. Weak women ought to use it. Ailing children ought to use it.

It is the one great family medicine that can be absolutely relied upon.

If you have ever used it, you know how good it is. If you haven't, try it and if it doesn't prove to be just what we claim it to be, we will refund your money.
