

WESTERN READY TO LINE UP

Circuit Complete and Magnates Prepare to Adopt the Schedule.

MILWAUKEE AND KANSAS CITY IN LIST

War with American Association in Two Towns Decided On—Prospects for Season Are Considered Good.

Never mind. Another week of waiting has brought base ball seven days nearer and the inevitable announcement of the plans of the Western league...

Unfortunately, indeed, is the condition which makes base ball depend on the survival of the fittest. Most of its patrons prefer the harmonious conditions which prevailed for the four or five years prior to 1901.

With an even break in Kansas City and Milwaukee, the Western is in as good position as the American. Omaha and Denver will easily do as well as Indianapolis and Louisville.

Speculation as to the outcome is useless. Omaha is fortunate to have escaped the "horror of war" right at home.

BASE BALL AT UNIVERSITY

Nebbraska Team is Practicing Out Doors with Unusual Spirit of Material.

Daily outdoor practice is now the order of business with the base ball squad at the University of Nebraska.

front for the conflict. Whatever the outcome, if the base ball players of Omaha are loyal to their team this year they will be assured of base ball for many years to come.

Jimmy Manning gives it out that on tomorrow he will begin the grading on his new park at Kansas City, and the erection of a \$10,000 grand stand will follow at once.

One of the happiest incidents of the week for the Western league, was the settlement of the difficulty at Denver, A. B. Beall transferring to W. C. Packard his holdings in the Broadway park.

On Tuesday the Western league magnates will meet at Denver to formally announce the circuit and the schedule for the coming season.

About the only gaily going now is afforded by the Pacific coast league. Out there the scribes are chattering and chattering like a lot of parrots over the young blood that is breaking into the league.

The available condition in which the team finds itself can be better understood when this line-up is regarded: Catchers, Doane and Maloney; pitchers, Townsend, Gaines, Bender; first base, Raymond; second base, Reeder; shortstop, Rhodes; third base, Wood; right field, Bell; center field, DePutron; left field, Townsend or Gaines.

It is very probable, too, that Jimmy Bell will inaugurate a few changes in positions. Several new features, such as a third, DePutron at center field and Doane and Maloney behind the bat.

but never follows the use of Foley's Honey and Tar. It stops the cough, heats and strengthens the lungs and affords perfect security from an attack of pneumonia.

SHOTGUN EXPERTS WAKE UP

Approach of Great American Handicap Brings Out Much Interest.

NEBRASKA WILL ENTER A BIG SQUAD

At Least Seventy-Five from Antelope State Will Face Traps in Start of Great Race at Kansas City.

With the Grand American Handicap, the American Grand Prix, but three weeks distant, shooting talk the country over is on no other theme.

The reason for this is that for the first time the west will be able to shoot strong, and it will be very strong.

Of this total it is interesting to know that Nebraska alone will furnish more than an eighth. Kansas City men who are promoting the affair have been making a strenuous effort to have a creditable representation from Missouri.

The management of the Handicap has already recognized the prominence of Omaha in sporting matters by appointing Harry McDonald of this city one of the official referees for the shoot.

As a general information concerning the Handicap, it will be the principal event in a week's shooting. On Monday, March 31, there will be an eight-bird and a twelve-bird event, no handicap.

The trap shooting rules of the Interstate association will govern the contest, and Elmer E. Shearer of Pittsburg, manager of the association, will be in charge of the Handicap.

Official programs for the Handicap left the press Thursday last, and copies were received in Omaha Friday.
