Bulls Force Corn Up and Wheat Feels Corn Strength at First, but Relapses with Favorable Statistical Reports.

CHICAGO, March 14.—Corn strength dominated grains for the greater part of the session today. There were bearish factors at work in wheat, which finally prevailed in that grain, but the coarser circlex retarded for some time the looked-for decline and itself held firm. At the close May wheat was \$40% of down, May corn \$40% tighter and May oats \$40 lower. Provisions closed a shade lower to 50 higher.

Local bulls took corn in hand shortly after the opening and easily forced prices up the better part of a cent. Many bears went home last night with short lines, expecting a further decline today bears went home last night with short lines, expecting a further decline today bears went home search of a cent. Many bears went home search of a cent. Many search of a general spread of the cold waver, were remarkably steady. There was fear of a general spread of the cold wave in the northwest and a leading buil started in early to bail out the offerings in the pit. Feeding demand west was good and the west had nothing to sell. Kansas City was reported bidding is over Chicago and Lowa esterday. Hecelpis here were very light, and shorts in order to get out of their tight place had to bid up for the scarce offerings. The cash situation was multiplying here was good, but mainly by local people. The sentiment for a time smixed, but eventually sided with the built. The break in wheat had nothing but temporarily easing effect. May started unchanged to to up at discord. Advanced firm, 1997 o higher, at a wideous carden were ninety-one cars.

Wheat at one time during the session feit enough of the corn strength and the below zero weather in the northwest to a clure a firm tone and sell above yesterday's closing price. After the slump of yester day the cables had a very steady tone. Commission houses were executing rain buying orders early; shorts became uneasy and covered. The illinois crop report, in dictaing a condition of 7s, compared to 18 hours and showed a fair amount of strength up to noon. The strength of coarse grains added materially in the situation, but later when statistical journals announced the western conditions favorable the extreme heavy selling set in. St. Louis and the croits seemed strong and the plant in good color. The market was fairly active and showed a fair amount of strength up to noon. The strength of coarse grains added materially in the situation, but later when statistical journals announced th

NEW YORK STOCKS AND BONDS. Little Animation Shown in Represent-

ative Stocks-Specialties Livlier. NEW YORK, March 14.—There were some remarkable movements today among the obscure specialties, but the important representative stocks were neglected and practically immovable. Some important developments in the money market situation helped the stock market to face with equinamity the forecast of a movement of currency of the week, which on its face promised to wipe out entirely the slender surplus reserves of the banks. The rise in the call loan rate, about 4 per cent, the highest of the year, indicated the pressure upon the money supplies.

The settlement of the Boston strike was favorably interpreted, although some uneasiness prevails concerning the settlement of the yearly terms with the anthracite miners. The increase in Southern railway preferred dividend had been expected with great confidence, but the stocks of that company advanced on the announcement, which also served as a checking movement on the general list. There were some sharp relapses among minor stocks.

Wabash debentures were active and strong. Otherwise the bond market was irregular. Total sales, par value, \$3,996,000. United States new 4s declining %, the old 4s 5½ and the 5s 3 per cent on the last call.

The Commercial Advertiser's London NEW YORK, March 14.-There were some

United States new is declining in the old is 5½ and the 5s 3 per cent on the last call.

The Commercial Advertiser's London financial cablegram: The stock market today was inactive and featurless. American shares were merely nominal, closing fractionally harder on New York demand for Southern railway and United States Steel corporation, the latter on funding plans talk. Rio tintos sold at 55% and copper was quarter down to 53% the ton Paris exchange is 25.16; Berlin, 24.47; Silver is 24% pence per ounce, the lowest since September, 187, when Japan established the gold standard.

CATTLE—There was a liberal run of cattle here today for this time of the week, which makes the supply for the five days this week considerably in excess of the same days of last week, and also of the corresponding days of last year. Packers did not seem to have very liberal orders, and as a result they tried to pound the market.

BULLS.

did not seem to have very liberal orders, and as a result they tried to pound the market.

Receipts included quite a few beef steers, and while some saies were made that looked about steady, the bulk of the cattle sold a little lower. The better grades, if anything, were harder to dispose of than the medium kinds that sell from \$5.50 to \$5.80. Cattle above \$8.00 do not seem to be in as good demand at present as the medium grades. Salest today were made all the way from steady to a dime lower and trading was extremely slow all the morning.

All but the very best grades of cows and helfers took a drop today, amounting to about a dime. Buyers seemed to want the extra choice grades, and they sold freely at steady prices, but the medium kinds and canners were very slow and generally a dime lower than yesterday.

Bulls, veal calves and stags sold steady to a shade lower in sympathy with the easier feeling on steers and cows.

It took something very choice in the way of stockers and feeders to bring steady prices. Speculators have about all the cattle on hand that they care for, and as a result they wanted to buy their supplies lower today. Anything common was very hard to dispose of, and prices were unevenly lower. Representative sales;

BEEF STEERS.

BEEF STEERS.

BUSHEP—There were only a few cara of sheep in the yards this morning and in fact the steady prices and trade ruled very slow and the supplies and trade ruled very slow and it was late before the pens were anywhere near cleared. A string of ewes sold at \$4.55. the same as sold yesterday for \$4.50 and the day before at \$4.55. Aside from those ewes, however, the market was very loud it almost impossible to get a bid on the day before at \$4.55. coloce lightweight yearlings, \$5.500 and the day before at \$4.55. Aside from those ewes, however, the market was very loud in the supplies of the same as sold yesterday for \$4.50 and the day before at \$4.55. Aside from those ewes, however, the market was very loud in the same as sold yesterday for \$4.50 and the day befo
