CRISIS IS REACHED, BUT NOT PASSED

Governor Crane Declares Settlement Will Be Reached Soon, as Conditions Are Gradually Becoming Encouraging.

BOSTON, March 14 .- The labor situation in Boston tonight is extremely perplexing violated their oath of office. It is not time since the allied freight transportation plaints. They had no right to refuse to Brine Transportation company. On the board of arbitration believe that the problem is being solved quite rapidly, considering the immensity of the strike, and only ask for time and patience, from both lastacles for a resumption of freight traffic

under ordinary condition. As a matter of fact the strike was comparatively broken today. Although troubles cropped out in many quarters, some of which were arranged with delay and others dragged along in uncertain state, so that they came in for consideration by the various labor bodies tonight. During these lie. Nor can we sue out a writ of error be- the men, independent strikes of bodies seem impending, but the leaders in the strike just ended are sanguine that they still hold control and will not again be obliged to order a strike of the freight handlers or its more serious accompanyment, a symsue a writ of mandamus to control judicial pathetic strike of affiliated bodies. 7 morrow will show more clearly the conditions

Men Rush for Old Places

The special side of the strike breaking today presented an army of workingmen rushing helter, skelter to get to their old positions. There had been more than 20,000 places vacated, but fully ten per cent of the men found their places filled. This was the reason for friction all day, affecting only the men themselves for concerns were too busy raising the embargo on goods in their keeping to give heed to talk of unfairness. Freight began to move at docks, freight sheds, from and to wholesale houses and factories and upon the streets and by night great inroads had been made on the four day's-accumulation of goods.

With the breaking of the strike employ ers of freight handlers, team drivers, or lumpers, rushed into print with calls for more help. Even concerns which heretofore have been bound to unionism seem to have grasped the opportunity of hiring have the court mandamus all his successors whom they liked. It is on this point of all others, that the critical phase of the situation tonight hangs. The real battle today was between the men who control the strike Mr. McIntosh. "The statute which defines and the representatives of great interests the prerogatives of tax commissioner in who had been prevailed upon to consider respect is directory, not mandatory, certain propositions as a way to a settlement of the trouble.

Governor a Mediator.

As for the past it was Governor Crane at his office in the statehouse, who stood between the parties at issue. The governor received many delegations during the afternoon and by great exertion got together President John M. Hall of the New York, New Haven & Hartford railroad President Tuttle of the Boston & Maine, Monday morning. He will probably have TO MAKE BIG EXTENSIONS and Samuel Hoar, general counsel for Boston & Albany, at the statehouse at er of the eastern divis Haven road, also was admitted into the the executive chamber.

For an hour the governor had alternate interviews between employer and employe of the Civic federation came into the waiting room and saw the governor. of this city. Mr. Earley said that he had attended meeting of the longshoremen during the afternoon and spoke there with Mr. Sargent and Mr. McNeil. The meeting was a bot one, but at the close the men all voted to sustain the officers and return to work. The several conferences ended early this evening, the men leaving.

The governor granted an interview with the newspaper men. He said: the newspaper men. He said:

The situation looks very much more encouraging than last night. The railroads have all argeed to take back as many men as possible without discrimination. As far as the steamship lines are concerned, I understand the men have returned. The railway companies will not consent to discharge men whom they have hired in place of the strikers, but they are well disposed toward the old men and are anxious to take back as many as possible. The question of loading and unloading of the teams, while it came up incidentally today, was not very much discussed. It will be taken up next week.

Effects to Get Men Back.

Efforts to Get Men Back.

The governor further said that both Pres ident Tuttle and the Boston & Albany officials had used every effort to get the men back. At East Boston, where ninety of the Boston & Maine men went out, all had been taken back. At the same place, where 129 of the Boston & Albany men went out 108 had been given places by the railroad company. In the case of the New Haven road, he said, the company would be willing to take back as many as possible, but the question of requiring the men to sign an agreement has not yet been arranged. Judge Warren A. Reed, chairman of the State Board of Arbitration, at 2 p. m. said: The situation is much improved. In East Boston the Boston & Maine road is doing well. Where eighty men went out seventy-nine came back. In East Boston, on the Boston & Albany system, where 120 men went out 105 can return. The reported reduction on the Boston & Albany system has been arranged.

WANT TO DELAY NAVIGATION Vessel Owners Start Movement to Retard Season in Interest of High Rates.

CHICAGO, March 14 .- Just when shippers were congratulating themselves on the prospect of lake navigation opening April 1, or nearly a month earlier than usual, vessel owners have started a movement to delay the season until May 1. The object is to raise carrying charges.

A general canvass of vessel owners all over the lakes is now under way to secure signatures to an agreement not to start out with twelve exceptions all the positions their boats before May. With the present had been filled. Trains are now running outlook that navigation will be in full blast by April 1, vesselmen are fearful that freight rates will drop to a low point and It will be impossible to restore them. With the business which could ordinarily be handled in April spread through the remaining months of the season, higher rates would prevail without incurring the heavy expense of operation during the month of April. The United States Steel corporation and other steel companies owning ships will not go into the arrangement and their boats will be in operation just as soon as the ice is out of the way.

These pills have been and inflamed and I know my blood was in an awfully bad condition. We had a doctor, but he did me no good at all that we could see, so my mother thought that we could see, so my mother thought that we could dector me herself. My sister, Frankie, had taken Dr. Williams' Pink Pills for Pale People for anaemia and they about two boxes when I began to feel better and I used about eight boxes in all, Now I, feel all right and well. I have not had any more boils and I sm strong and healthy. We have recommended Dr. Williams' Pink Pills for Pale People to many of our friends and they have taken then with good results." blood was in an awfully bad condition. We
