DELL MORGAN LEADS IN DELEGATES

Keat Come McDonald and Sapp—If Morgan Falls He May Favor Hannan in the Convention.

The fight for the republican nomination for mayor will be carried into the city convention Thursday afternoon as the precinct primaries Tuesday night to select delegates to the convention failed to settle it.

A rough estimate made last night of the strength of the several candidates out on the first ballot was as follows: Dell G. Morgan, 25 votes; William F. Sapp, 18; C. W. McDonald, 19; Charles R. Hannan, 9; S. F. Henry, 3. This estimate, however, was largely guesswork, as many of the delegates are not pledged and had not declared their preference.

READY TO BUILD INTERURBAN LINES

Iowa Construction Company Incorporates with Omaha Officers—State Superintendents in Conference.

(From a Staff Correspondent.)—DES MOINES, March 19.—(Special.)—An important bill passed the house today relating to highways in Iowa. The bill provides for establishing the township as the unit of the system for road work and supervision, instead of the sub-district system which is now in vogue in Iowa. Bills have been favored by the members of the boards of supervisors and by the rural mail route carriers making the county the unit and providing that all road work be paid in cash and shall be expended by the county boards. The house has passed a bill providing that all road taxes shall be paid in cash and that the township trustees shall select a road supervisor for the township to distribute the money and control the work of the system. A complete change in the system in Iowa and is regarded by its authors as a most important step in the direction of road reform.

Senate Proceedings.—Senator Courtwright secured reconsideration of the vote on a bill to give additional revenues to the State Board of Health. The bill has been defeated last week. It gives to the board one-half of the fees received from itinerant medical men. The bill also provides a change in the manner of revoking certificates, so that it will be impossible for one member of the board to prevent the revocation of certificate. It was explained by Senator Courtwright that since the fees from those who pass examination have been reduced the income of the board has been insufficient to meet expenses and unless this bill is passed the shortage will have to be made up by a direct appropriation. The fees received from itinerant doctors last year were \$270,000, Senator Garret stated a question as to whether or not the deficit of \$1,200 in the finances of the State Board of Health was caused by the refusal of the board to grant medical certificates to out-of-state practitioners. His suggestion Senator Arthaud offered an amendment to strike out all of the first section which declared that the main purpose of the bill was not to provide additional income, but to change the laws and make it possible to grant certificates to osteopaths. He offered his amendment as to leave the additional income feature but to avoid any change in the general law. The Arthaud amendment was adopted, 18 to 12, and the bill was passed, 26 to 14.

The supreme court reorganization bill was to have come up as a special order, but owing to the absence of several of the members of the senate it was put off until Thursday.
