Provisions Again Act Contrary to Grains and Continue Ascension-Cash Export Business and Rains Cause Wavering.

Raiss Cause Wavering.

CHICAGO, March El.—Grains were revocation of the service and the servic

were 60 cars.

Oats were only moderately active, with prices yielding somewhat with wheat and corn. The market was largely a scalping a flat and no important trades were made. Some improvement was noted in the cash ibusiness, which tended to support the pit sgainst any marked decline. Country offerings were about the same as they have been of late. There was still some nervousness in May options, but the fluctuations were narrow. May closed easy, 'ac down at 45%c. Receipts were 110 cars.

Provisions showed strong again today against the depression in grains. There was an option prevalent that were it not for the slump in cereais hog products would have had a marked advance. The local run of hoge was small and prices were higher at the yards. Good buying advanced all products after a higher opening. Lard offerings were free, but were wall taken. May pork closed 10c up at 115.63%, May lard a shade higher at \$3.650.

Trading Highly Professional, with Minor Shares Active.

Minor Shares Active.

NEW YORK, March 21.—Today's stock market was still highly professional and there was abnormal activity in stocks which are usually not a figure in the trading. Considerably more attention, however, was given to the representative stocks in the list, which are generally higher as a result of the day's trading. In most instances the gains are merely fractional. Bugar was inclined to be heavy during the early trading, but became strong toward the close, rising more than 3 points over last night and closing with a net gain of 3%. Amaigamated Copper was heavy all day on a rather smaller volume of dealings than lately, but a late recovery left it only a fraction lower on the day.

The bond market was somewhat irregular. Total sales, par value, \$2,680,000, United States bonds were all unchanged on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market was dull. American shares were idle; they became dull on talk of money stringency and strikes; later New York bid up Union Pacific, Atchison and Louisville & Nashville. Copper sold at \$55% the ton and Rio tintos at £43%. Rates are unchanged and the market is still borrowing. The sum of £29,000 in gold has been received from Holland.

BOSTON. March 31.—The Commercial Bulletin will say in temorrew's report on the wool trade: The market is very dull. Beyond one or two big blocks of foreign wool little has been done. The strike of the wool handlers is quits over and there are now more hands than work. One sale of 1,000,000 pounds of carpet wool was matched by another of 500,000 pounds of Ruemos Ayres cross-breds at 33%22%c and two sales of Australian crossbreds to the extent of 1,000 bales each to two dress gools mills. The continued strike of the weavers at Olneyville naturally checks business. In California growers are receiving is a pound more for southern wool than last year. In Utah offers of the by speculators for wool on the sheep's back is refused. Firm and advancing London market encourages hopes of more activity in American markets later. The receipts of wool in Boston since January 1, 1800, have been bl.849,979 pounds, against 2,856,880 pounds for the same period in 1801. The Boston shipments to date are 61,37,513 pounds against shipments of 42,096,600 pounds for the same period in 1801. The stock on hand in Boston January 1, 1902, was 71,240,483 pounds. The total stock today is 67,567,639 pounds. The total stock today is 67,567,639 pounds.

ACCIDENT ON THE BELT LINE Four Cars Ditched, Ties Tors Up and Telegraph Wires

over the fill on the Belt line just south of Cuming etreet yesterday afternoon at 2:10 o'clock, the ties torn up under the track for several rods and all of the four telegraph wires broken by the rear balf of an Illinois Central freight train which was running wild. The four cars were hadly wrecked and all traffic delayed for about

four bours. The forward truck under a refrigerator car jumped the track and the sudden jerk broke the coupling. The forward section of the train ran about a quarter of a mile before the accident was discovered by the engineer. The derailed truck ploughed deep gashes in the fles and would have wrecked the bridge over Cuming street had it not been for the guard. After crossing the bridge some weak ties were broken and jammed into the truck, overturning three cars and nearly a fourth before the train came to a stop. No person was hurt. The cars were emply.
