

NEWS OF INTEREST FROM ILLINOIS.

COUNCIL BLUFFS.

CONTRACT FOR BALL PARK

Manager Roach of Merchant Browns Engages Manawa Park.

STRONG TEAM TO BE PUT IN FIELD

Motor Company Arranges to Handle Increased Traffic—Buys Twelve Open Cars of Latest Pattern.

Manager Herman Roach of the Merchant Browns baseball club closed a contract yesterday with the motor company for the ball park at the lake for this season. The club will have exclusive use of the park except on Saturday afternoons, when it will be reserved for the games of the Omaha Jobbers club.

The Merchant Browns expect to put a strong team in the field this season. B. Henderson will probably captain the team and be one of the pitchers. Bert Matfield is slated for catcher and Elmer Shugart will be at first base. Dave Burchfield, Elmer Butler and Jack Haworth will probably play infield, while Burk Mosher, Bert Hamrick and Fred Carly will be in the outfield. Besides these the club has a number of prospective good men who will be tried before the team is definitely picked.

The club expects to open the season about April 15, but up to June 1, when the Manawa season will open, will play out-of-town dates. This will enable the club to play all return dates at the lake. A meeting of the club will be held this afternoon at Manager Roach's office in the postoffice building.

IMPROVEMENTS FOR MANAWA.

The motor company is arranging to handle the increased traffic it expects this summer between Omaha and its resort at Lake Manawa by increasing its equipment and enlarging its capacity at the power house. A part of the machinery now in use there will be transferred to the old power house on First avenue, as when traffic is heavy and an extra number of trains are being run power has to be supplied from both houses. The new engine and boiler, the largest ever used in this section of the country, are being loaded at Buffalo.

President Wells, during his recent trip east, purchased twelve new large open cars of the latest type and they are expected here within the next week. Work on getting the large summer cars in order is being pushed at the company's shops and when the summer traffic reaches its height between Omaha and Lake Manawa the company expects to be able to put in service from thirty to thirty-five trains.

Extensive improvements are being carried out at the lake and arrangements made whereby big crowds can be handled without the trouble and annoyance to the patrons that was experienced last year.

To prevent as far as possible the crowding at the depot passengers will leave the cars at one place and, on leaving the grounds, will enter the cars at another depot.

The management is arranging for a number of first class attractions at the lake this summer. The fleet of rowboats is being added to and two or three new steam launches will be put in service to handle the traffic to and from Manhattan Beach. The bathing facilities at the beach are being increased and before the season opens a new swimming pool will be completed. The grounds on the Manhattan Beach side of the lake are undergoing extensive improvements also.

The Desnick Skule and Eggbecker, "under auspices of the Woman's auxiliary of Grace church, Thursday, April 3, at Dohany's opera-house. Boxes and parquets, 25 cents; parquets circle and balcony, 25 cents.

Held for Grand Jury.

Vic Sadowki and George Shoemaker, charged with stealing a shotgun, seven revolvers and other articles from a showcase in front of S. Snyder's pawnshop on Broadway, were held in the grand jury yesterday by Judge Aylesworth after a preliminary hearing, lasting the entire afternoon. In default of bail, which was fixed at \$500 each, they were committed to the county jail.

Sadowki denied being implicated in the robbery, although the stolen articles were recovered by the police while his brother was in the act of returning them to Snyder with the hope of being able to compromise the matter. Shoemaker admitted stealing the articles, but denied breaking the case open. He was recently released from jail at Omaha, where he was sentenced for the theft of a bicycle.

The defendants attempted to prove that the value of the stolen articles was less than \$50, but failed.

W. F. Bretherton wishes to thank all those who extended sympathy and aid during the illness and death of his beloved wife.

Condemnation for Railway.

In the condemnation proceedings brought by the Mason City & Fort Dodge Railroad company to secure a right-of-way through the Everett property on South avenue, the sheriff's jury yesterday awarded the owner \$15,000 damages. Leonard Everett, an executor of the Everett estate, demanded \$20,000 from the railroad company.

The Everett tract adjoins the Rohrer property, which the Great Western purchased for \$5,000 to avoid litigation. It has a frontage of 400 feet on South avenue and the railroad condemned a strip 150 feet wide for its right-of-way. It offered to deed to the Everett estate, a lot so that a street could be established, giving access to the remainder of the property.

The jury was composed of John Schoen, J. P. Hoke, G. C. Johnson, J. J. Brown, W. F. Baker and F. T. True.

Gravel roofing, A. H. Reed, 541 Broadway.

At One with Bricklayers.

L. G. Besley, the brick manufacturer, and the Bricklayers union are at odds. Recently Mr. Besley had occasion to repair some of his kilns and build new ones. This work, it is alleged by the union, was done by ordinary laborers, whereas a rule of the union is that only bricklayers should be employed on such work. The union called Mr. Besley's attention to the rule, but it is said, he continued to have the work done by ordinary laborers. The union then imposed a fine of \$50 on him, and this Mr. Besley refused to pay.

State Senator Hamilton returned yesterday from Des Moines to spend Sunday with his family. The legislature will complete its work, he said, and will adjourn possibly

HOUSE VEXED WITH SENATE

Insists on Upper Body Doing Large Share of Legislative Work.

KENDALL ADVISES IGNORING MESSAGES

Seemingly is Openly Applauded, and Motion is Carried Ordering Withdrawal of Senate Message Previously Sent In.

(From a Staff Correspondent.)

DES MOINES, March 22.—(Special.)—The house showed a spirit of impatience today and insisted on the senate's doing more work. The house resolved not to pass any more senate bills until the senate pays more attention to house bills. Protest was made that a bill had been sent over to the senate several weeks ago, having passed the house, but the senate had paid no attention to it. The house then passed its own bill and message. It over to the house, Kendall suggested that under the circumstances it would be well for the house to ignore the senate message in all cases and not to give heed to what the senate is doing until it has passed some of the house bills. The senate then carried a message announcing the passage of a concurrent resolution relative to adjournment April 2. When this reached the senate the latter body immediately granted the request, so there is now before the legislature nothing in regard to final adjournment. The house is much further ahead in its work than the senate and there is quite a feeling in the house that the business of the session is being needlessly delayed in the other body.

Invite Board of Control.

The house passed a concurrent resolution inviting the Board of Control members to appear before a joint session of the two bodies next Friday evening at 7:30 o'clock, for the purpose of explaining the omnibus appropriation bill and answering questions relative to the various state institutions and their needs.

Quiet Day in Senate.

The senate had barely a quorum at the outset, but finally did some business. The bill to provide for building Iowa monuments at Vicksburg park was made a special order for next Tuesday afternoon at 2 o'clock. The bill to provide for monuments at Lookout Mountain and Missionary Ridge to immediately follow.

The bill proposed by Governor Cummins to grant authority to the general government to control all grounds which have been or may be secured for federal purposes was taken up.

A bill to legalize the acts of the water works trustees who had been acting previous to the supreme court decision under appointments of the district court, was passed. It affects only Sioux City and Dubuque, where such trustees were appointed by the district court in 1901.

A bill to provide for drawing the jury lists in 1902 in case the biennial elections amendment is carried, was passed. A bill to authorize the city of Clinton to borrow money and buy the bridge across the Mississippi river was passed in both houses. A bill relating to inspection of gasoline and other fuels for illuminating purposes was passed. Two legalizing acts were passed, one relating to the town of Rudd, the other to school district of Stanwood.

A bill was introduced to grant additional powers to the county superintendent in certain cases and provide for his visiting rural schools and taking charge of the work where county superintendents are delinquent. A bill to pay the expenses of the Bruce-Bennett appropriation case was introduced, carrying an appropriation of \$1,137.35.

Railway Hearings Short.

It is believed the ways and means committee of the house will have no hearings on the railway assessment bill, as the report it back next Tuesday with some recommendation. The ground has all been gone over before and the members are somewhat familiar with it. There is no desire to have both houses in committee on the same bill, and it is expected that the bill will be considered of a debate in the house on the subject.

Superintendents' Conventions.

In accordance with the code, which provides that the superintendent of public instruction may meet the county superintendents at such points in the state as may be most convenient, the superintendent has called conventions at Des Moines, Washington, April 3 and 4; Spencer, April 10 and 11; Waterloo, April 15 and 16; Council Bluffs, April 17 and 18; Des Moines, April 22 and 23. Meetings in each case will begin at 1 o'clock p. m. on the first date given.

Damages Suits Follow a Fire.

As the result of the Tremont house fire in Marshalltown a few weeks ago two suits for damages have been commenced in court against persons who are part owners in the property. Mabel Myers, an employee of the hotel, was compelled to jump from a third story window to the ground and she sustained injuries to her back, spine and body which will remain with her through life. She asks for \$5,000 damages. Birdie Hart, another of the employees, asks the same sum because she was compelled to jump from a third-story window to the ground and broke a leg in so doing.

Coal in Chickasaw County.

There is great excitement in Chickasaw county, near the town of Republic, over a discovery of coal. It is claimed that a vein of good coal has been found at a depth of 170 feet and the vein is from five to seven feet thick. This is in a part of the state where no coal mines have ever been operated and it was not known any coal existed there. The farmers are refusing to sell their land at any price in that part of the state. It is near the town of Fredrika, where a discovery of oil from the ground has been puzzling the people the last year.

No Franchise Election.

The district court today decided that the question of a franchise election in regard to a proposed interurban railway has not

TWO FACTIONS IN MINERS

Radicals Advocate Making Positive Demand Upon Operators.

OTHERS WOULD LEAVE IT TO OFFICERS

Day's Proceedings Likely to Settle Question of Whether There Will Be a Strike on April 1.

Sentenced for Twenty-Five Years.

Albert Smith, who shot and killed Bruce Martin in a saloon near in February, was today sentenced to twenty-five years in the penitentiary for his crime. The evidence showed that it was an unprovoked murder and that while there had been a quarrel between the two men, the killing was not a result of the quarrel. The conservative element, comprising a majority of the delegates from districts 7 and 9, is known to favor referring final decision to a committee composed of President Mitchell and District Presidents Nichols, Fahy and Duffy. This proposition is opposed by what are known here as radicals, who represent principally, district No. 1, comprising the Wyoming and Lackawanna regions, and a few of the delegates from the two lower districts.

The Miners' Convention.

At noon today, when the joint scale committee adjourned to 2 p. m. Monday, it was no nearer settlement of the shot firing question and the uniform day wage scale than two weeks ago. The indications are that the committee will be obliged to meet every day next week. Although many points of minor importance have been agreed upon by both parties the main questions are still unsettled. The first real breaking of the shot firing question in committee was when the operators proposed that the miners should be paid by the ton, instead of by the day. This proposition was rejected by the miners' committee of the joint committee on scale. They say they want the shot firing rule to apply to all mines where coal is blasted from the solid, and the company shall employ the shot firers, not the miners. This resolution is the question of whether one or two shots shall be fired per day must rest with the miners and not the operators. The operators say they ought to have the deciding power, for in many cases they might want more coal dug than could be dug by the shot firers. They say the miners would get more money each day for their work if they mined more coal, as would be the case if two shots at noon and night were set off, and that if they are able to load more coal each day at the regular \$2.50 cents or \$1 scale, they ought to be willing to pay the cost of the extra help such as the shot firers would be. Also that the miners would be benefited further in that they would avoid the dangers attending shot firing, which feature of the work was emphasized by the Lost Creek disaster.

LOVING CUP FOR JUDGE THAYER

Democratic Friends of Party Leader Express Their Affection for Him by Handsome Gift.

CLINTON, Ia., March 22.—(Special Telegram.)—Judge E. H. Thayer of this city was surprised by a handsome gift, a loving cup, which was presented to him by the democratic friends of the party. The gift was a silver loving cup lined with gold. It was handsomely engraved, bearing the following inscription: "Presented to Judge E. H. Thayer by his personal friends and political associates as a token of the highest esteem." The speech was by E. C. Walsh.

Party Lines Drawn in House

Republicans and Democrats Spar Over Contested Seats of Kentucky Member.

WASHINGTON, March 22.—The house today entered upon the consideration of a contested election case of Moss against Rhea, from the Third Kentucky district. In this case the committee on elections divided on party lines, the majority sustaining the view that Mr. Moss had been elected, and the minority that Mr. Rhea, the democrat, was entitled to retain his seat.

BRIDGE WORKERS MAY BOLT

Threaten Serious Congestion in Building in Plans for General Strike.

NEW YORK, March 22.—There is a possibility that bridgework on the great structure known as the Eastern District bridge and all other iron work on buildings in course of construction in New York will come to a sudden stop on May 1 next. The Brooklyn Eagle will say tomorrow: "On or before that date the representatives of the Housewives' and Bridgeworkers' union will demand an advance of wages from the contractors. If the contractors refuse to accede to the demand, the union will call for a general strike of the bridge workers on May 1. If they so decide work will not only be stopped on the new customs house building and structures in the course of erection for several large department stores in Manhattan, but also on the other two contemplated bridges. As a matter of fact, work will be tied up in all directions where steel and iron workers are concerned. This will not only affect the completion of the cable-making on the eastern district bridge, but will also stop the work of erecting the steel work for the suspended structure across the river, which is in the hands of the Pennsylvania Steel company. The Pennsylvania Steel company is part of the American Bridge company. Even at this early date demands have been made to the Pencoyd Bridge works for an advance in wages. The demand is for 40 cents an hour for structural and bridge construction workers."

BREWERY MEN MAY STRIKE

Threaten Trouble by Demands for Less Work at Same Scale of Wages.

BOSTON, March 22.—Unless one party or the other recedes from its present position, the indications are that every brewery in Boston will be closed on April 1. The trouble may also affect the bartenders of this and other cities.

Over 500 brewery workmen have requested the master brewers to grant them an eight-hour workday April 1, without reduction in wages. The workmen employed in the breweries have asked for 40 cents overtime and that Sunday and holiday work shall be paid as overtime.

The brewery workmen include the team drivers and the tappers. These men now work ten hours a day and are paid \$18 and \$15 per week respectively. The latter desire an advance of \$1 per week in addition to the eight hours. The brewers work eight

MORGAN COUNSEL IS ANGRY

Objects to Means by Which the Magnate is Subpoenaed.

DENIES HIS ATTEMPT TO EVADE LAW

Counsel for Power Admits Responsibility for Serving Papers on Morgan Under Pretense at His Residence.

NEW YORK, March 22.—Concerning the service of a subpoena on J. Pierpont Morgan in the suit of Peter Power against the Northern Pacific Railroad Company, Francis Lynde Stetson, counsel for Mr. Morgan, today made the following statement:

"I was so advised by the counsel of this morning having appeared items suggesting that the counsel representing Mr. Peter Power in his suit against the Northern Pacific Railroad company had found or anticipated some difficulty in securing the attendance as a witness of either Mr. J. P. Morgan or some member of his firm."

"Any such suggestion, whether or not so intended, is defiance of the facts and without any justification whatever. Mr. Perkins of the firm has already appeared and been examined. Mr. Steele of the firm was ready to appear yesterday at the time appointed, but his examination was postponed, not at his request, but at the request of Judge Lancaster for the plaintiff."

"Yesterday afternoon Mr. Morgan returned to the city, from which he had been absent during the pendency of these proceedings, and he has not been in the city on Thursday in Washington. Immediately on learning of the desire for his examination he instructed me to advise Mr. Powers' counsel that he would attend at any time without subpoena. At once I so advised the counsel, who answered that he would be entirely satisfactory, and accordingly we arranged for Mr. Morgan's voluntary appearance next week."

Caught in His House.

"Apparently because of the inability of the counsel to reach his process servers, for which miscarriage he has written to me expressing regret, Mr. Morgan was served last evening with a subpoena by a messenger, who obtained admission to his house upon the understanding of Mr. Morgan that the messenger had come from my office—a statement for which Mr. Powers' counsel disclaims any responsibility and expresses regret, if any such statement was made."

"It may be a matter of news, but it hardly can be a matter of general interest, that admission to the private house of any gentleman should be obtained as stated in this morning's papers, by ruse, which of course means by deception. In any case such a proceeding would be one for which reputable counsel naturally would desire to disclaim responsibility. In this case any such proceeding was unnecessary."

EXPECT CRISIS IN TWO WEEKS

Paper Makers Look for Change in Strike Conditions in Short Time.

APPLETON, Wis., March 22.—The contest for a shorter hour schedule, which is being carried on against paper manufacturers of this state by the United Brotherhood of Papermakers of America is expected to reach a crisis within two weeks. Of forty-one paper mills in the state six are operating with nonunion labor, all the union employees being on a strike. Nineteen mills are operating on the old long-hour schedule, while fifteen are operating on the new schedule on three months' trial. This trial period expires April 1, the Brotherhood having agreed with the manufacturers concerned to go back to the old schedule and their competitors in this and other western states have not fallen into line by that time. Only one mill is now shut down by the strike. The strike has been in progress for more than two months.

SETTLEMENT REMOTE AS EVER

Miners and Operators Still Deliberate Over Shot Firing Question.

DES MOINES, March 22.—The joint scale committee, realizing the hopelessness of settlement, reported to the joint convention of miners and operators this morning and precipitated a debate on the shot-firing question, which ended at noon without any progress toward an agreement. The miners agreed until Monday and the operators until Tuesday. The latter formally demanded that the shot-firers be employed at the expense and upon the responsibility of the miners, also that they be permitted to blast twice a day at their discretion.

DEATH RECORD.

Jerome Fidelity.

KANSAS CITY, March 22.—The Republic of St. Louis says: Jerome Fidelity, chevalier of the Kingdom of Italy, and Italian vice consul here, died today of heart disease, at his residence, 1015 North Main street, at the age of 64. He was born in Missouri, Kansas and Arkansas, having taken a prominent part in the settlement of all labor troubles in those states in which Italians were interested. He was appointed vice consul here in 1885 because of his remarkable ability in settling a dispute between Italian laborers and the Missouri Pacific railroad. He was a fresco painter of interstate renown, having decorated many public buildings. Two years ago he was knighted by the king of Italy.

PREDICTS STRIKE IN MINES

Official of Labor Union Forecasts Tieup Involving Thirty-Five Thousand Men.

INDIANAPOLIS, March 22.—Secretary.

Treasurer Wilson of the United Mine Workers of America returned to headquarters here today from the east, where he attended two conventions of miners. Mr. Wilson discussed the situation in the coal fields of Virginia and West Virginia, and gave out the statement that in all probability a strike involving 35,000 miners will be called in those two states within a short time.

A final effort will be made at once by the officials of the national organization to secure a conference with the mine owners and operators looking to the adoption of a uniform wage scale and a recognition of the union and in the event the request for a conference is refused the men will probably be called out without further delay.
