Strike Out Felony Clause.

The committee considered that the original bill was too severe in making it a felony for any official to neglect to detain a Chinese person, seeking admission, and the penalty was reduced to a misdemeanor. The original bill subjected a vessel to forfelture in case it brought over forbidden Chinese, but the committee changed this to a fine of \$2,000 against the master or owner of the versel, and forefelture in case the fine is not paid.

The committee struck out the clause 'squiring the United States district attorthe right to remain in the United States. The prohibition against Chinese sailors on American ships was struck out, thus per-

mitting such Chinese sailors to be employed. The term Chinese was made to include all those who are Chinese by birth or descent, leaving out the reference to mixed, etc. The committee also struck out the fee of \$5 to the United States commissioner for passing on every case under the act. In other respects the measure is practically the same as that agreed on by the Pacific coast interests, with certain amendments made from time to time.

After reporting the bill on Thursday Chairman Nitt is hopeful of bringing it to early consideration before the house.

FRANCE WILL HELP ST. LOUIS

Chamber of Deputies Confirms World's Fair Appropriation of Six Hundred Thousand Francs.

PARIS March 25 - The Chamber of Denuviding for the participation of France in the St. Louis exposition.

The bill provides for a credit amounting to 600,000 francs, not 60,000,000 francs, as previously cabled, to defray the cost of France's exhibit.

As cabled to the Associated Press March 21, the sum voted by the French Chamber of Deputies will be applied solely to the fine arts and state manufacturers' exhibit. In the Chamber of Deputies today M. Cochin, rightist, questioned the government regarding the scope of the Franco-Prussian agreement in the far east, asking how far France was bound thereby and whether her obligations extended elsewhere in Asia and Africa. The foreign minister, M. Del-

casse, replied: "In order that France shall take action in the way foreseen in the last paragraph of the agreement, the integrity of China must be impaired and her development hindered in such a manner as to create danger to France's own interests. We have had no disagreements, no quarrels, and no kicks on that score. We are all satisfied for the first time in a long while.

"That has not been true on the Kansas lity-Chicago run, however. There the roads have been slashing victously, or had been for months till a few weeks ago. Then the Interstate Commerce commission got in its work on the quiet and made its influence felt before it brought actual proceedings in court. It gave these roads a hunch to let up, and they have been experiencing a period of remarkable renovating in such matters for some weeks past.

"So as a matter of fact the present injunction is not so much to put an end to cutting and rebating freight rates as to maintain the rates at their present standard of legality. The commission feared to let things go as they were, for while they were satisfactory at the time it was feared that the roads would get at it again soon. So the injunction was brought as an extra safeguard.

"You can see that in either event Omaha is not affected. If they had not brought proceedings our rates would have been the same, and now that they have there will be-nerchange hereif
