Advance in Provisions Finally Meets Check and Closes Lower.

FIGURES SEE-SAW IN GRAIN

Good Crop Weather and Absence Export Business Overcome Apparent Bullish Sentiment and Three Leaders Close Lower.

CHICAGO, March 2 Speculation in grains was of a see-saw nature today. There was less force to the markets than on Monday, leaders were less active and there was nothing great in the general trade to follow, Good crop weather and an absence of export business worked against the bulls, and at the close May wheat was a shade under, May corn to lower and May outs the down. Provisions closed 2½c to 7½c lower.

Cables were indifferent and closed somewhat lower. English cables reported cargoes on passage flat and New York had no foreign acceptances over night. The sentiment prevails that the continent filled up pretty well last week the break. May opened 4,3%c to 5,3%c down at 72c to 71%c, but recovered on some buying for short accounts. The continued long seling, though quiet, took off the edge of advances and prices fluctuated narrowly. When to any loss, however, was as quick to raily from a dip as to react from a bulge. Late in the day May sold at 73%c. The close was steady, May a shade under at 724c. Weakness in the coarse grains at St. Louis, as well as a reduction in arrivals, compared with those of last year, worked against good advances. Receipts, eighty-one cars; those of last year, worked against good advances. Receipts, eighty-one care; three contract grade; Minneapolis and Duluth receipts were 23 cars, a total for the three points of 374 cars, against 434 last week and 506 a year ago. Primary receipts were 442 bushels, compared to 624, 600 bushels last year. Seaboard clearances equalled \$78,000 bushels. Bradstreet's report of world's stocks showed a decrease of a year ago.

Additional Selling of Stocks Due to

Approach of Triple Holidays. NEW YORK, March 25.—Today's stock market began to reflect the expectation of the coming triple holiday from Thursday until the Monday after Easter. So long an interval in the trading always prompts some closing out of acounts.

The issuance of injunctions against western railroads forbidding rebates and rate cutting was not unexpected but the reinterval in the trading always prompts some closing out of acounts.

The issuance of injunctions against western railroads forbidding rebates and rate cutting was not unexpected, but the reported determination of the Interstate Commerce commission to hold a further and stringent inquiry into the rate-question was a surprise and had a chilling influence. There was a slump of more than 7 points in Evansville & Terre Haute. The advance was renewed in Colorado Fuel, after some early heaviness, and the stock gained 3½ points, allowing for the dividend off. North American made a further upward dash and late in the day the Kansas City & Southern stocks and the Minneapolis. St. Paul & Sault Ste Marie stocks forged upward without explanation. These gains were the exception to the rule, which was on the side of losses. Amalgamated Copper was supported in face of the post-ponement of the Anaconda dividend meeting and closed with a small gain.

There was heavy selling of the Wabash debenture bonds with a loss of 1½ per cent. Otherwise bonds were steady. Sales, par value, \$2,300,000. United States bonds were all changed on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market had a sagging tendency today, with an absence of business. The public is inclined to hold aloof before the holidays. American shares were idly duil, closing weak, New York coming as a general seller, particularly of Erie and United States Steel, Rio tintos soid at 42% and Anaconda broke 5-16 to 51 3-16 in dread of the Amalgamated copper situation. The sum of £20,000 in gold has gone to Bermuda.

Foreign Financial.

LONDON, March 25.—The monetary conditions were practically unchanged today. Business on the Stock exchange was quiet today and there was an indisposition to operate in view of the approach of the Easter holidays. Prices were firm, owing to the hopeful outlook for peace in South Africa. Consols were dull and mostly below/parity. The movements were narrow and irregular, in sympathy with New York, and prices closed quiet. Grand Trunks were easier on profit-taking and the traffic reports not equalling expectations. Kaffirs were firm, quiet and rather professional. Rio tintos were weak.

BERLIN, March 25.—Business on the bourse was quiet and there was no particular feature; internationals were steady; banks eased in some instances on realizations. Mines were slightly harder on bear covering in view of the settlement. Gold premiums are quotted as follows: Buenos Ayres, 141.69; Marid, 32.22; Lisbon, 29.09; Rome, 2.25. Bullion to the amount of £20.009 was withdrawn from the Bank of England today for shipment to Bermuda. PARIS, March 25.—The approach of the settlement and, the Easter holidays checked business on the bourse today. Speculators were awaiting developments in South Africa. At the opening the tendency of prices was downward. BOSTON, March 25.—WOOL—With the settlement of the labor trouges here, trade in the various industries has returned. The wool market is now on a steady basis, but operations are quiet. The call for territory wools has been moderate, but lots available on the market are held steady. Purchases of new wool made in Arizona that are coming in cannot be sold at within several cents per scoured pound of what they cost, and the general feeling among dealers is that too high prices were paid, and it looks as if the new territory wools will open high this year. Fine territory wools will open high this year. Fine territory wools are firm and command on the scoured basis of 48/250c, while fine medium territory is quoted at 442/45c, with good staple lots higher. Medium territory wools are quotable at 38/400c, scoured, with occasional fancy lots going higher. Fisece wools are quiet, but hold steady in price. Ohio fine delaine is selling at 23/4/20c, Ohio XX and X and above are selling at about 27/2/2/c, with Ohio No. 1 washed firm at 26/2/3/c and 27c asked in some cases. Australians are coming in quite liberally, but arrivals are largely on manufacturers' accounts. The market for good quarter-blood Australians is quoted on the scoured basis of 40/6/42c.
